The Marshall Plan Today John Agnew,J. Nicholas Entrikin,2004-06-24 This volume has as its focus the role of the Marshall Plan as both a force in the transformation of European Economic practices and a stimulus to political integration in Europe This organizing theme is framed in terms of two other issues that are central to contemporary debates in international political economy and geopolitical studies the origins and development of the Cold War and the growing globalisation of the world economy In relating the Marshall Plan to these issues this book goes beyond the typical diplomatic history approach to place the Plan in the context of both the political economy of late twentieth century Europe and the impact of American models of business and government that came with the Plan *The Marshall Plan: Fifty Years After NA* NA,2016-04-30 The text focuses first on the impact of the Marshall plan on the organization of political and economic life in post war Europe and how the plan was perceived in European public opinion It then examines its role in the construction of European union and in the division of Europe Finally the book analyzes the debate about the economic impact of the Marshall Plan in the post war economic miracle in Western Europe The authors of these chapters are well known historians economists and political scientists whose original chapters derive from their work on post war Europe *The Marshall Plan and the Truman Doctrine* George Capaccio,2017-07-15 The growth of Soviet power prompted concern from the United States President Truman asserted that the United States needed to prevent Communism from becoming stronger His warning to Congress became known as the Truman Doctrine When General George Marshall visited Europe he feared that Europe s weak economy would encourage the growth of Communism He established an initiative to provide economic support to rebuild Europe which had been devastated by the war This initiative was nicknamed the Marshall Plan Congress was reluctant at first but ultimately approved the plan when Czechoslovakia became Communist in 1948 This book gives an in depth discussion of European integration and the influence of Communism on Western Europe *The Marshall Plan in Austria* Gunter Bischof,Anton Pelinka,Dieter Stiefel,2018-12-20 Perhaps no country benefitted more from the Marshall Plan for assistance in reconstruction of Europe after World War II than Austria On a per capita basis each American taxpayer invested 80 per person in the Plan each Austrian received 133 from the European recovery program more than any other of the sixteen participating countries Without the Marshall Plan the Austrian economic miracle of the 1950s would have been unthinkable Despite this contemporary Austria seems to have forgotten this essential American contribution to its postwar reconstruction This volume in the Contemporary Austrian Studies series examines how the plan affected Austria and how it is perceived today The political context of the Marshall Plan in Austria is addressed in essays by Jill Lewis and Matthew Berg Dieter Stiefler describes the vast Soviet economic exploitation of their Austrian occupation zone Andrea Komlosy shows how

the Marshall Plan helped complete the division of Europe Siegfried Beer suggests the secret involvement of the CIA in the Marshall Plan while Hans Jürgen Schröder analyzes the effectiveness of Marshall Plan propaganda programs in Germany and Austria The macroeconomic impact of Marshall Plan funds on Austrian economic policy is outlined by Hans Seidel Kurt Tweraser Georg Rigele and Günter Bischof suggest the microeconomic importance of funds for the steel electricity and tourist sectors of the Austrian economy Wilhelm Kohler's sweeping analysis compares the American transfer of funds to postwar Europe with current debates about the cost of European Union enlargement The legacy of the Marshall Plan is addressed by former Austrian Finance Minister Ferdinand Lacina Kurt Löffler and Hans Fubenegger summarize the activities of the Economic Recovery Program Fund Coming on the heels of the fiftieth anniversary of the Marshall Plan this compelling overview of the Plan and its impact will be important for historians those interested in international politics and Austrian scholars Günter Bischof is professor of history and associate director of Center Austria at the University of New Orleans Anton Pelinka is professor of political science at the University of Innsbruck and director of the Institute of Conflict Research in Vienna Dieter Stiefel is professor of social and economic history at the University of Vienna and executive secretary of the Schumpeter Society in Vienna This volume offers a collection of articles mostly by contemporary Austrian born historians touching on various phases of the Marshall Plan administered through the European Recovery Program ERP and its successors counterfunds assistance to the present A splendid introduction followed by the key thirteen articles on the plan is augmented by several nontopical essays and book reviews along with a survey of Austrian politics in 1998 A number of articles emanated from a 1998 conference at the University of New Orleans Both novice and specialist will appreciate this book
