Legal Knowledge and Information Systems S. Villata, J. Harašta, P. Křemen, 2020-12-07 The field of legal knowledge and information systems has traditionally been concerned with the subjects of legal knowledge representation and engineering computational models of legal reasoning and the analysis of legal data but recent years have also seen an increasing interest in the application of machine learning methods to ease and empower the everyday activities of legal experts This book presents the proceedings of the 33rd International Conference on Legal Knowledge and Information Systems JURIX 2020 organised this year as a virtual event on 9 11 December 2020 due to restrictions resulting from the Covid 19 pandemic For more than three decades the annual JURIX international conference which now also includes demo papers has provided a platform for academics and practitioners to exchange knowledge about theoretical research and applications in concrete legal use cases A total of 85 submissions by 255 authors from 28 countries were received for the conference and after a rigorous review process 20 were selected for publication as full papers 14 as short papers and 5 as demo papers This selection process resulted in a total acceptance rate of 40% full and short papers and a competitive 23 5% acceptance rate for full papers Topics span from computational models of legal argumentation case based reasoning legal ontologies smart contracts privacy management and evidential reasoning to information extraction from different types of text in legal documents and ethical dilemmas Providing a state of the art overview of developments in the field this book will be of interest to all those working with legal knowledge and information systems

Characterisation and Taxation of Cross-border Pipelines Knut Olsen, 2012 Characterisation and Taxation of Cross Border Pipelines provides a comprehensive

analysis of the issues related to the taxation of cross border pipelines It offers solutions to the various tax issues that a cross border pipeline might raise The book concludes by recommending changes to the OECD Model Tax Treaty and its Commentaries to reduce uncertainty avoid double taxation or less than a single taxation and establish a more common international approach for the characterisation and taxation of cross border pipelines and their allocation Publisher description Research Handbook on Human Rights and Humanitarian Law Robert Kolb, Gloria Gaggioli, 2013-01-01 This volume by Robert Kolb and Gloria Gaggioli contributed by some of the most renowned experts in the field devotes an impressive amount of legal analysis to the most diverse aspects of the interplay between international humanitarian law and international human rights law in situations of violence in theory and practice It is bound to become an indispensable tool for scholars and practitioners alike Marco Pedrazzi University of Milan Italy This fascinating Handbook explores the interplay between international human rights law and international humanitarian law offering expert analysis on the increasingly complex issues surrounding their application in conflict areas across the world Contributors to this volume provide a comprehensive treatment of the ongoing relationship between human rights law and humanitarian law from the historical background and origins of the two bodies of law to their various applications today Divided into four parts Historical Background Common Issues The Need for a Combined Approach and Monitoring Mechanisms the Handbook presents a rich and varied spectrum of original research and thought from some of the brightest minds in the field This groundbreaking volume will surely have great appeal for anyone with a professional or academic interest in human rights law and humanitarian law from students to professors to practitioners in the field *International Humanitarian Law* Marco Sassòli, 2019 International humanitarian law IHL protects persons and property affected by armed conflicts Focusing on the controversies that impact IHL in practice this much anticipated book from leading expert Marco Sass li discusses when IHL applies its substantive rules how to ensure its respect and whether the traditional distinction between international and non international armed conflicts remains relevant **The Law of Treaties Beyond the Vienna Convention** Mahnoush H. Arsanjani, 2011-02-17 This book offers a comprehensive analysis of the law of treaties based on the interplay between the 1969 Vienna Convention on the Law of Treaties and customary international law Written by a team of renowned international lawyers it offers new insight into the basic concepts and methodology of the law of treaties and its problems **Methods of Resolving Conflicts between Treaties** Seyed-Ali Sadat-Akhavi, 2021-10-18 Despite the theoretical and practical importance of the question of conflict between treaties little has been written on the subject This monograph fills this gap by providing a detailed analysis of the main issues The book is divided into three parts The first deals with the definition of conflict causes of conflict and different types of conflict The second part examines different sources of international law in order to identify rules of international law relating to the resolution of conflicts The third part addresses the actual process of resolving conflicts between treaties After describing different stages of treaty conflict resolution it discusses some special principles

advanced for resolving conflicts between certain types of treaties namely those relating to the protection of human rights those concerning dispute settlement and treaties dealing with private law issues *American Book Publishing Record*, 2005

Sustainable Development As a Principle of International Law Christina Voigt, 2009 This volume provides a framework for the doctrinal foundation of sustainable development as a principle of integration in international law The work departs from the fragmented nature of the international legal system a system that lacks integrative principles for creating coherent relations between for example the international trade regime of the WTO and multilateral environmental agreements The specific focus is on a legal analysis of potential normative conflicts between climate measures as regulated by the UNFCCC and the Kyoto Protocol in particular the flexibility instruments of international emissions trading and the Clean Development Mechanism and the rules of the WTO Attention is then given to the application of sustainable development as a principle of integration in relation to these conflicts The book takes on several important timely and demanding tasks related to the urgent global challenge of climate change and the capacity of international law to deal with complex and multifaceted issues It addresses in particular a The relations between various international legal regimes especially between international trade law and climate law a The legal status of sustainable development as a principle of international law and a The analysis of interpretative methods and of principles that may serve to address conflicts between rules pertaining to different legal regimes Here integration as part of legal reasoning becomes particularly relevant **The International Law Foundations**

of Palestinian Nationality Mutaz M. Qafisheh, 2008 By the end of British rule in Palestine on 14 May 1948 Palestinian nationality had become well established in accordance with both domestic law and international law Accordingly the legal origin of Palestinian nationality lies in this nearly thirty year period as the status of Palestinians has never been settled since Hence any legal consideration on the future status of individuals who once held Palestinian nationality should start from the point at which the British rule over Palestine was terminated This work provides a legal basis for future settlement of the status of Palestinians of all categories that emerged in some sixty years following the end of the Palestine Mandate Israeli citizens inhabitants of the occupied territory and Palestinian refugees In conclusion nationality as regulated by Britain in Palestine represents an international status that cannot be legally altered except in accordance with international law

Regime Interaction in International Law

Margaret A. Young, 2012-01-12 Leading scholars advance the discussion of international law's fragmentation in new and provocative ways

Europe's Constitutional Mosaic Neil Walker, Josephine Shaw, Stephen Tierney, 2011-06-14 This book emerged from an extended seminar series held in Edinburgh Law School which sought to explore the complex constitutional arrangements of the European legal space as an inter connected mosaic There has been much recent debate concerning the constitutional future of Europe focusing almost exclusively upon the EU in the context of the failed Constitutional Treaty of 2003 5 and the subsequent Treaty of Lisbon The premise of the book is that this focus while indispensable offers only a partial vision of the complex constitutional terrain of contemporary Europe In addition it is essential to explore other threads of normative authority within and across states embracing internal challenges to state level constitutional regimes the growing jurisprudential assertiveness of the Council of Europe regime through the ECHR and various democracy building measures as well as Europe's ever thicker relations both with its border regions and with broader international institutions especially those of the United Nations Together these developments create increasingly dense networks of constitutional authority within the European space This fluid and multi dimensional dynamic is difficult to classify and indeed may seem in many ways impenetrable but that makes the explanatory challenge all the more important and pressing Without this fuller picture it becomes impossible to understand the legal context of Europe today or the prospects of ongoing changes The book brings together a range of experts in law legal theory and political science from across Europe in order to address these complex issues and to supply illustrative case studies in the topical areas of the constitutionalisation of European labour law and European criminal law

Normative Pluralism and International Law Jan Klabbers, Touko Piiparinen, 2013-04-22 This book addresses conflicts involving different normative orders what happens when international law prohibits behavior but the same behavior is nonetheless morally justified or warranted Can the actor concerned ignore international law under appeal to morality Can soldiers escape legal liability by pointing to honor Can accountants do so under reference to professional standards How in other words does law relate to other normative orders The assumption behind this book is that law no longer automatically claims supremacy but that actors can pick and choose which code to follow The novelty resides not so much in identifying conflicts but in exploring if when and how different orders can be used intentionally In doing so the book covers conflicts between legal orders and conflicts involving law and honor self regulation *lex mercatoria* local social practices bureaucracy religion professional standards and morality

Religious Actors and International Law

Ioana Cismas, 2014-07-17 This book assesses whether a new category of religious actors has been constructed within international law Religious actors through their interpretations of the religions they are associated with uphold and promote or indeed

may transform potentially oppressive structures or discriminatory patterns This study moves beyond the concern that religious texts and practices may be incompatible with international law to provide an innovative analysis of how religious actors themselves are accountable under international law for the interpretations they choose to put forward The book defines religious actors as comprising religious states international organizations and non state entities that assume the role of interpreting religion and so claim a special legitimacy anchored in tradition or charisma Cutting across the state non state divide this definition allows the full remit of religious bodies to be investigated It analyses the crucial question of whether religious actors do in fact operate under different international legal norms to non religious states international organizations or companies To that end the Holy See Vatican the Organization of Islamic Cooperation and churches and religious organizations under the European Convention on Human Rights regime are examined in detail as case studies The study ultimately establishes that religious actors cannot be seen to form an autonomous legal category under international law they do not enjoy special or exclusive rights nor incur lesser obligations when compared to their respective non religious peers Going forward it concludes that a process of two sided legitimation may be at stake religious actors will need to provide evidence for the legality of their religious interpretations to strengthen their legitimacy and international law itself may benefit from religious actors fostering its legitimacy in different cultural contexts

Reframing Peace Mediation Owen Frazer, 2024-08-02 This book explains how facilitative mediators those without material leverage contribute to progress in peace negotiations While existing theories of mediation have offered suggestions about what a mediator should get parties to do to reach an agreement the puzzle that has remained is how does a mediator get parties to do what is prescribed The book argues that a communication perspective is key to understanding facilitative mediation and that framing is the main mechanism by which facilitative mediation functions Based on an empirical analysis of the United Nations mediation in El Salvador between 1990 and 1992 the work breaks new ground by uncovering three underlying mechanisms that explain how a mediator can get their framing adopted by the negotiating parties thereby advancing the negotiations The book offers a novel theory of facilitative mediation as framing and an innovative methodological approach that focuses on negotiation impasses to study the process of how negotiations progress Practitioners will also appreciate the framework for thinking about when and how framing and reframing can be used to increase mediation s effectiveness as a tool for ending armed conflict This book will be of much interest to students of peace and conflict studies negotiation Latin American politics and International Relations as well as practitioners

International Law Malcolm N. Shaw, 2017-09-14 The definitive and authoritative international law text updated to reflect key case law international practice and treaty developments

Rethinking, Repackaging, and Rescuing World Trade Law in the Post-Pandemic Era Amrita Bahri, Weihuan Zhou, Daria Boklan, 2021-08-26 This book explores the ways to rethink repackage and rescue world trade law in the post COVID 19 era Using the COVID 19 pandemic as an important

context the book makes original and critical contributions to the growing debate over a range of emerging challenges and systemic issues that might change the landscape of world trade law in the years to come The book asks do these unprecedented times and challenges call for reengineering the world trading system and a further retreat from trade liberalisation The authors offer a rigorous and insightful analysis of whether and how the existing trade institutions and or rules including their latest developments may provide room to deal with pandemic induced trade related issues sustainable development goals future crises and other existential threats to the multilateral trading system The book reinforces the importance of international cooperation and the pressing need to reinvigorate the world trading system The pandemic has provided a unique opportunity for governments to rebuild the political will needed for such cooperation One should never let a serious crisis go to waste
