**Egypt in a Time of Revolution** Neil Ketchley, 2017-04-03 This book considers the diverse forms of mass mobilization and contentious politics that emerged during the Egyptian Revolution of 2011 and its aftermath Drawing on a catalogue of more than 8 000 protest events as well as interviews video footage and still photographs Neil Ketchley provides the first systematic account of how Egyptians banded together to overthrow Hosni Mubarak and how old regime forces engineered a return to authoritarian rule Eschewing top down structuralist and culturalist explanations the author shows that the causes and consequences of Mubarak s ousting can

only be understood by paying close attention to the evolving dynamics of contentious politics witnessed in Egypt since 2011 Setting these events within a larger social and political context Ketchley sheds new light on the trajectories and legacies of the Arab Spring as well as recurring patterns of contentious collective action found in the Middle East and beyond **Queer Studies in English Language Education**, 2025-01-27 In the vast majority of language education literature it seems as if we have been collectively imagining a monosexual community of interlocutors denounced Cynthia Nelson in 2006 Nearly two decades later her statement still seems widely true despite marginal attempts to challenge this situation not yet fully addressed by mainstream publishers educators or policymakers The aim of this book is to contribute to creating more hospitable learning contexts by usualising diversity and queerness in the teaching of English worldwide a field which supposedly fostering a lingua franca has frequently spread white masculine Western colonial and cisheterosexual stances among others How did queerness become a movement in the teaching of English How can practitioners respond to counterreactions How has queer research developed in English Language Education How can teaching materials be queer or anti queer How can literature and drama be used when teaching English from a queer perspective What would a queer class of English be like What is the situation of queer teachers of English in different countries These are just some of the questions answered in this book edited by Esteban Lopez Medina Griselda Beacon Mariano Quinterno and Xiana Sotelo Contributors are Juanjo Bermudez de Castro Jules Buendgens Kosten Tatia Gruenbaum Cristina A Huertas Abril Nicol s Melo Panigatti Thorsten Merse Cynthia D Nelson Joshua Paiz Francisco Javier Palacios Hidalgo Michel Riquelme Sanderson Sue Sanders Tyson Seburn Keiko Tsuchiya and David Valente *Imagining Democracy* William A. Callahan, 1998 This book is a collection of stories about the events of May 1992 which were told as part of a wide discussion and debate about democracy in Thailand It was not written as a search for the essential truth about the May massacre as to see how these discourses shape our understanding of the workings of politics and thus produce truths about Thai politics The author argues that much of the meaning of the stories comes not from the facts themselves but from the discursive economies of the text how the text was produced and exchanged as a social activity This narrative approach to Thai politics is timely because the events of May 1992 were the first popular movement to follow the disintegration of the Soviet Union which in turn constituted a crisis for social science that relied so heavily on the bipolar methodology that attended the bipolar world view of the Cold War

When to Talk and When to Fight Rebecca Subar, 2021-08-24 *When to Talk and When to Fight* is a conversation between talkers and fighters It introduces a new language to enable negotiators and activists to argue and collaborate across different schools of thought and action Weaving beautiful storytelling and clear analysis this book maps the habits of change makers explaining why some groups choose dialogue and negotiation while others practice confrontation and resistance Why do some groups seemingly always take an antagonistic approach challenging authority and in some cases trying to tear down our systems and institutions Why are other groups reluctant to raise their voices or take a stand limiting themselves to

conciliatory strategies And why do some of us ask only the first question while others ask only the second Threaded among examples of conflict struggle and change in organizations communities and society is the compelling personal story that led Subar to her community of practice at Dragonfly advising leaders in social justice organizations on organizational and advocacy strategy With lucid charts and graphs by Rosi Greenberg When to Talk and When to Fight is a brilliant new way of talking about how we change the world In his foreword Douglas Stone coauthor of the international best seller Difficult Conversations makes the case that negotiators need this language In a separate forward Esteban Kelly cofounder of AORTA Anti Oppression Resource and Training Alliance explains why radicals and progressives need it If you are a change maker you will soon find yourself speaking this language Be one of the first to learn it Read this book *Peace and World Order Studies* Barbara J. Wien,1978-01-01 **Second Tolstoy** Steve Hickey,2021-11-12 Very few if any have devoted more years to practicing and teaching others to practice the precepts of Jesus s Sermon on the Mount than Leo Tolstoy He stands apart in the history of interpretation and has had enormous influence on others and other countries Yet Gandhi or others often get the glory Tolstoy is remembered as a great writer but his religious and philosophical works are by and large unknown or disparaged even in scholarly Tolstoyan circles His contribution is substantially under appreciated and misunderstood In Second Tolstoy The Sermon on the Mount as Theo tactics Steve Hickey captures the particulars and dynamics of Tolstoy s interpretation of the Sermon on the Mount from a deliberately sympathetic vantage point Underlying this project is shared belief with Tolstoy that the Sermon on the Mount is liveable and to be lived While from the vantage point of traditional orthodoxy Tolstoy got much wrong there remains a lack of appreciation for what he got right radical obedience to the teachings of Jesus A new vocabulary is proposed to more precisely capture Tolstoyan lived theology namely the political and social expressions of Tolstoyan Christianity with the hope that these theories and practices will gain a wider consideration understanding and following **The Alternatives to War** James Pattison,2018-06-04 If states are not to go to war what should they do instead In The Alternatives to War James Pattison considers the case for the alternatives to military action to address mass atrocities and aggression The volume examines the normative issues raised by measures ranging from comprehensive economic sanctions diplomacy and positive incentives to criminal prosecutions nonviolent resistance accepting refugees and arming rebels For instance given the indiscriminateness of many sanctions regimes are sanctions any better than war Should states avoid megaphone diplomacy and adopt more subtle measures What if anything can nonviolent methods such as civilian defence and civilian peacekeeping do in the face of a ruthless opponent Is it a serious concern that positive incentives can appear to reward aggressors Overall Pattison provides a comprehensive account of the ethics of the alternatives to war In doing so he argues that the case for war is weaker and the case for many of the alternatives is stronger than commonly thought The upshot is that when reacting to mass atrocities and aggression states are generally required to pursue the alternatives to war rather than military action The volume concludes that this has significant implications for

pacifism just war theory and the responsibility to protect doctrine

symptoms namely how a person is addressing the opportunity of his her life and the lives of others and whether a person is doing harm to themselves and or others This book proceeds to grapple with several critical life experiences and styles tragedy violence and evil all of which often have posed insurmountable problems in therapy     **Reclaiming the Great World House** Lewis V. Baldwin, Vicki L. Crawford, 2019 Reclaiming the Great World House in the 21st Century Cross Disciplinary Explorations of the Vision of Martin Luther King Jr does just that Established and emerging scholars explore Martin Luther King Jr s global vision and his lasting relevance to a globalized rights culture The editors further explain that this edited collection looks at King afresh in his own historical context while also refocusing his legacy of ideas and social praxis in broader directions for today and tomorrow Employing King s metaphor of the great world house with major attention to racism poverty and war or what he called the evil triumvirate the focus is on King s appraisal of and approach to the global human struggle in the 1950s and 60s and on the extent to which his social witness and praxis takes on new hues and pertinence not only in the ongoing struggles against racism poverty and economic injustice and violence and human destruction but also in the mounting efforts to eliminate problems such sexism homophobia and religious bigotry and intolerance from the global landscape The conclusion is that King s ideas and models of social protest are not only alive but also growing in vitality and popularity in the 21st century especially as humans worldwide are struggling daily with the lingering antiquated thinking and behavior around race and ethnicity the widening gap between the haves and the have nots the mounting cycles of violence torture and terrorism and the frustrating and growing chasms resulting from religious pluralism and the subordination and marginalization of certain sectors of the human family based on gender and sexuality
