

PSYCHIC DEVELOPMENT

GROUNDING

Grounding is another important tool to practise not only during your development, but your life. It's a practise of standing either on Earth

(bare foot if you can) or indoor also bare foot. As you close your eyes and clear your mind, you imagine roots growing from your feet, down through the Earth to its core.

All that is negative and unwanted, allow the earth's energy to take that away and replace with good positive energy. You can stay in that grounded moment for as long as you wish. You can also do white light protection with it.

Once you feel you are completely recharged, give thanks and carry on with your day.
