the Holy Sepulchre in Jerusalem including by monumental commanderies of the Knights Templar Alberti's Rucellai Tomb in Florence Franciscans olive wood replicas and video game renderings she foregrounds the political force of architectural representations And considering black boxes instruments whose inputs we control and whose outputs we interpret but whose inner workings are beyond our comprehension she surveys the threats posed by such opaque computational models warning of the dangers that models pose when humans lose control of the means by which they are generated and understood

Engaging and wide ranging Models and World Making conjures new ways of seeing and critically evaluating how we make and remake the world in which we live

Temple of Presence Andrea L. Robinson, 2019-01-11 In Revelation 21-22 John offered a resplendent portrayal of a new Jerusalem without a temple in which he seemed to reference the final chapters of Ezekiel The puzzling issue for interpreters is why John chose to utilize Ezekiel's temple vision if he wanted to dispense with the temple Andrea Robinson delves into the complex relationship between these two visions of heaven and earth examining parallels between Revelation 21-22 and Ezekiel 40-48 In the process Robinson also explores a variety of apocalyptic works from the Second Temple period to determine the tenor of thought in regard to the concepts of the temple and the messiah in John's day Ultimately she helps readers understand how John utilizes Ezekiel's imagery to portray Jesus Christ as the eschatological temple the place where heaven and earth unite By uncovering how original hearers would have understood John's visions Robinson's insightful study helps modern readers appropriate the same hope of a glorious future with the Messiah

Jerusalem Unbound Michael Dumper, 2014-05-27 Jerusalem's formal political borders reveal neither the dynamics of power in the city nor the underlying factors that make an agreement between Israel and the Palestinians so difficult The lines delineating Israeli authority are frequently different from those delineating segregated housing or areas of uneven service provision or parallel national electoral districts of competing educational jurisdictions In particular the city's large number of holy sites and restricted religious compounds create enclaves that continually threaten to undermine the Israeli state's authority and control over the city This lack of congruity between political control and the actual spatial organization and everyday use of the city leaves many areas of occupied East Jerusalem in a kind of twilight zone where citizenship property rights and the enforcement of the rule of law are ambiguously applied Michael Dumper plots a history of Jerusalem that examines this intersecting and multileveled matrix and in so doing is able to portray the constraints on Israeli control over the city and the resilience of Palestinian enclaves after forty-five years of Israeli occupation Adding to this complex mix is the role of numerous external influences religious political financial and cultural so that the city is also a crucible for broader contestation While the Palestinians may not return to their previous preeminence in the city neither will Israel be able to assert a total and irreversible dominance His conclusion is that the city will not only have to be shared but that the sharing will be based upon these many borders and the interplay between history geography and religion
