History ,1927 Michelet and His Ideas on Social Reform Anne Reese Pugh,1966 **Portrayals of Revolution** Noel Parker,1990 How did the French try to understand their revolution How have writers of the nineteenth and twentieth centuries portrayed so unprecedented an upheaval Dr Parker examines contemporary representations of the Revolution political rhetoric journals theatre festivals pictures and prints concentrating on two special themes First the creators of these representations were part of an attempt to found anew the social order Second they sought to adapt their forms of culture so as to constitute through them the united community that was to be the agent of this historic new order The second half of the book considers a representative selection of the many histories and theoretical writings on the Revolution from France England and Germany from Barnave and de Stael to the nineteenth century founders of social science and romantic historians such as Michelet to post war comparative political writers and post structuralist marxists influenced by Gramsci and Foucault By bringing together an analysis of contemporary cultural responses to the Revolution and an account of subsequent cultures understanding of it the author reveals the complex interplay between culture and agents of historical change which modern views have often failed to realize *The Arrow of Pi Beta Phi* ,1924 **Michelet and His Ideas on Social Reform** Anne Reese Pugh,1966 **Embracing the Darkness** John Callow,2017-10-30 As dusk fell on a misty evening in 1521 Martin Luther hiding from his enemies at Wartburg Castle found himself seemingly tormented by demons hurling walnuts at his bedroom window In a fit of rage the great reformer threw at the Devil the inkwell from which he was preparing his colossal translation of the Bible A belief like Luther s in the supernatural and in black magic has been central to European cultural life for 3000 years From the Salem witch trials to the macabre novels of Dennis Wheatley from the sadistic persecution of eccentric village women to the seductive sorceresses of TV s Charmed and from Derek Jarman s punk film Jubilee to Ken Russell s The Devils John Callow brings the twilight world of the witch mage and necromancer to vivid and fascinating life He takes us into a shadowy landscape where in an age before modern drugs the onset of sudden illness was readily explained by malevolent spellcasting And where dark winding country lanes could terrify by night as the hoot of an owl or shriek of a fox became the desolate cries of unseen spirits Witchcraft has profoundly shaped the western imagination and endures in the forms of modern day Wicca and paganism Embracing the Darkness is an enthralling account of this fascinating aspect of the western cultural experience **Current Issues in Women's History** Arina Angerman,Geerte Binnema,Annemieke Keunen,Vefie Poels,Jacqueline Zirkzee,2013 This lively collection of essays originally published in 1989 illustrated recent developments in the area with chapters by contributors from many different countries and disciplines

Asking new questions and using sources in a challenging way the contributors reflect 1980s debates about politics and academic research in women s studies They cover a wide range of topics dealing for example with opportunities and obstacles for women within male defined power structures and institutions such as science religious communities and ancient Roman industry They discuss feminists and feminist movements analyse the utterances of women and men in medieval literature and in defamation cases and give insights into the ways femaleness and femininity are given meaning The essays on theory deal with such important issues as women s historiography and androcentrism and ethnocentrism in history
