Hammond, Valerie A. Sulfaro**

New Deal Fat Cats Business Labor And Campaign Finance In The 1936 Presidential Election:

New Deal Fat Cats Michael J. Webber, 2000 Webber chair sociology University of San Francisco offers a fresh perspective on the New Deal analyzing the role of various segments of society in party politics during the political change brought about by the Great Depression He uses analysis of campaign contributions as a method of evaluating the 1936 presidential election A considerable portion of this analysis rests on interpretive literature about the politics of the New Deal and specifically about the role of business in the construction of those politics Annotation copyrighted by Book News Inc Portland OR

The Great Depression and the New Deal Daniel Leab, Kenneth J. Bindas, Alan Harris Stein, Justin Corfield, Steven L. Danver, 2009-12-18 A comprehensive encyclopedia of the 1930s in the United States showing how the Depression affected every aspect of American life In two volumes *The Great Depression and the New Deal A Thematic Encyclopedia* captures the full scope of a defining era of American history Like no other available reference it offers a comprehensive portrait of the nation from the Crash of 1929 to the onset of World War II exploring the impact of the Depression and the New Deal on all aspects of American life The book features hundreds of alphabetically organized entries in sections focusing on economics politics social ramifications the arts and ethnic issues With an extraordinary range of primary sources integrated throughout *The Great Depression and the New Deal* is the new cornerstone resource on a historic moment that is casting a shadow on our own unsettled times

Class and Power in the New Deal G. William Domhoff, Michael J. Webber, 2011-06-29 *Class and Power in the New Deal* provides a new perspective on the origins and implementation of the three most important policies that emerged during the New Deal the Agricultural Adjustment Act the National Labor Relations Act and the Social Security Act It reveals how Northern corporate moderates representing some of the largest fortunes and biggest companies of that era proposed all three major initiatives and explores why there were no viable alternatives put forward by the opposition More generally this book analyzes the seeming paradox of policy support and political opposition The authors seek to demonstrate the superiority of class dominance theory over other perspectives historical institutionalism Marxism and protest disruption theory in explaining the origins and development of these three policy initiatives Domhoff and Webber draw on extensive new archival research to develop a fresh interpretation of this seminal period of American government and social policy development

The Buying of the Presidency? Si Sheppard, 2014-10-14 This groundbreaking work tells the true story behind Franklin D Roosevelt s 1936 reelection drawing upon never before published personal files to expose a nexus of patronage and power that changed America forever FDR s 1936 reelection represented his greatest political triumph Yet the election remains largely unstudied despite the fact that critical decisions by some of the most colorful and controversial characters in American history make it one of the most significant ever to take place This landmark work the first specifically about the 1936 election highlights the key debates events and personalities that epitomized the conflicted highly charged politics of the New Deal era In telling its gripping tale the book discloses the secret history of Roosevelt s

New Deal It uncovers the hidden roles that money patronage and power played in the campaign of 1936 underscoring the transition from the old school politics of stump speaking and glad handing to a new world of professionalism marked by scientific polling targeted advertising and direct media The book offers a new perspective on this critical period in American history through its use of previously unpublished private correspondence and internal memos from key players in the Roosevelt administration as well as from GOP chairman John Hamilton These archival sources detail the nuts and bolts of running a presidential campaign during the Great Depression and reveal how money was manipulated to buy votes Exposing the true story behind the making of modern America the book is a must read for anyone interested in FDR U S history politics or the presidency

The Rise of Political Action Committees Emily J. Charnock, 2020 Political Action Committees PACs are a much noted aspect of modern American election campaigns Yet there has been no major book exploring their origins development and impact over time In *The Rise of Political Action Committees* Emily J Charnock addresses this gap telling a story with much deeper roots than many contemporary commentators would expect since the first PAC was created back in 1943 The book explores why major interest groups chose to create PACs in the mid 20th Century and how they used these PACs to promote ideological change in the major parties helping to foster the polarization of American politics we see today

The Corporate Rich and the Power Elite in the Twentieth Century G. William Domhoff, 2019-06-21 *The Corporate Rich and the Power Elite in the Twentieth Century* demonstrates exactly how the corporate rich developed and implemented the policies and created the government structures that allowed them to dominate the United States The book is framed within three historical developments that have made this domination possible the rise and fall of the union movement the initiation and subsequent limitation of government social benefit programs and the postwar expansion of international trade The book s deep exploration into the various methods the corporate rich used to centralize power corrects major empirical misunderstandings concerning all three issue areas Further it explains why the three ascendant theories of power in the early twenty first century interest group pluralism organizational state theory and historical institutionalism cannot account for the complexity of events that established the power elite s supremacy and led to labor s fall More generally and convincingly the analysis reveals how a corporate financed policy planning network consisting of foundations think tanks and policy discussion groups gradually developed in the twentieth century and played a pivotal role in all three issue areas Filled with new archival findings and commanding detail this book offers readers a remarkable look into the nature of power in America during the twentieth century and provides a starting point for future in depth analyses of corporate power in the current century

The Republican Party in the Age of Roosevelt Elliot A. Rosen, 2014-02-21 Elliot Rosen s Hoover Roosevelt and the Brains Trust focused on the transition from the Hoover administration to that of Roosevelt and the formulation of the early New Deal program Roosevelt the Great Depression and the Economics of Recovery emphasized long term and structural recovery programs as well as the 1937 38 recession Rosen s final book in the trilogy *The Republican*

Party in the Age of Roosevelt situates distrust of the federal government and the consequent transformation of the party. Domestic and foreign policies introduced by the Roosevelt administration created division between the parties. The Hoover doctrine which sought to restrict the reach of independent agencies at the federal level in order to restore business confidence and investment intended to reverse the New Deal and to curb the growth of federal functions. In his new book Elliot Rosen holds that economic thought regarding appropriate functions of the federal government has not changed since the Great Depression. The political debate is still being waged between advocates for direct intervention at the federal level and those for the Hoover ethic with its stress on individual responsibility. The question remains whether preservation of an unfettered marketplace and our liberties remain inseparable or whether enlarged governmental functions are required in an increasingly complex national and global environment. By offering a well researched account of the antistatist and nationalist origins not only of the debate over legitimate federal functions but also of the modern Republican Party this book affords insight into such contemporary political movements as the Tea Party.

Presidential Campaigns, Slogans, Issues, and Platforms Robert North Roberts, Scott John Hammond, Valerie A. Sulfaro, 2012-06-12. The book provides a comprehensive discussion of the major issues and events surrounding all American presidential elections from the earliest years of the Republic through the campaign of 2008. *Presidential Campaigns Slogans Issues and Platforms The Complete Encyclopedia* is an easy to use reference work designed to encourage students and anyone interested in democratic politics to undertake a greater understanding of this complex aspect of American political life. The three volume work covers each presidential campaign in depth examining a large number of related issues ranging from the use of social media in modern presidential campaigns to negative campaign ads and key slogans used in every presidential campaign. Volume One contains entries offering specific and focused information on issues trends factors slogans strategies and other more detailed elements of presidential campaigning from the first stirrings of the American democratic process to the first decade of the 21st century. Volumes Two and Three provide chronological accounts of every presidential campaign since the ratification of the Constitution through the campaign of 2008 with Volume Two covering the campaign of 1788-89 to the campaign of 1908 and Volume Three covering the campaign of 1912 to the campaign of 2008.

Visions of Progress Doug Rossinow, 2009-11-19. Rossinow revisits the period between the 1880s and the 1940s when reformers and radicals worked together along a middle path between the revolutionary left and establishment liberalism. He takes the story up to the present showing how the progressive connection was lost and explaining the consequences that followed.

Campaigning for President in America, 1788-2016 Scott John Hammond, Robert North Roberts, Valerie A. Sulfaro, 2016-04-25. What does it take to get elected president of the United States leader of the free world? This book gives readers insight into the major issues and events surrounding American presidential elections across more than two centuries from the earliest years of the Republic through the campaigns of the 21st century. The race for the presidency encapsulates the broader changes in American democratic

culture This book provides insight into the major issues and events surrounding American presidential elections across more than two centuries from the earliest years of the Republic through the campaigns of the 21st century Readers will be able to see and understand how presidential campaigns have evolved over time and how and why the current state of campaigning for president came into being

A Companion to Franklin D. Roosevelt William D. Pederson, 2011-03-21 A Companion to Franklin D Roosevelt presents a collection of historiographical essays by leading scholars that provides a comprehensive review of the scholarship on the president who led the United States through the tumultuous period from the Great Depression to the waning days of World War II Represents a state of the art assessment of current scholarship on FDR the only president elected to four terms of office and the central figure in key events of the first half of the 20th century Covers all aspects of FDR s life and times from his health relationships and Supreme Court packing to New Deal policies institutional issues and international relations Features 35 essays by leading FDR scholars

Encyclopedia of Presidential Campaigns, Slogans, Issues, and Platforms Robert North Roberts, Scott J. Hammond, 2004 The first half offers a succinct account of every presidential election from George Washington to George W Bush The second half organized in A to Z entries focuses on important figures slogans events and ideas that gave each campaign its unique flavor Over 100 illustrations complement the entries and a detailed timeline provides a handy point of reference for users The work is thoroughly cross referenced and full bibliographic details are provided

BOOK JACKET *American Presidential Campaigns and Elections* William G. Shade, Ballard C. Campbell, 2020-06-30 Presidential campaigns and elections provide the drama and substance of America s democratic process As democracy in action they punctuate our nation s history in precise intervals capturing the issues the ideas and the mood of the nation every four years Every campaign follows a similar format candidates jockey for selection nominations are made candidates and party leaders hit the trail and voters render their decision on Election Day Yet despite this familiar process every campaign is unique featuring colorful personalities and unexpected events This fully illustrated reference is packed with facts and information on every campaign from the election of 1788 89 through the hotly contested election of 2000 Each entry traces in detail the background and results of the election provides biographical information on every presidential and vice presidential candidate and offers state by state tallies of every election The set also features hundreds of rarely seen documents associated with the campaigns

The New Deal's War on the Bill of Rights David T. Beito, 2023-10-10 Spying on citizens Censoring critics Imprisoning minorities These are the acts of dictators not American presidents Or are they The legacy of President Franklin D Roosevelt enjoys regular acclaim from historians politicians and educators Lauded for his New Deal policies leadership as a wartime president cozy fireside chats and groundbreaking support of the forgotten man FDR we have been told is worthy of the same praise as men like Washington Jefferson and Lincoln But is that true Does the father of today s welfare state really deserve such generous approbation Or is there a dark side to this golden legacy The New Deal s War on the Bill of Rights The Untold Story of FDR s Concentration Camps

Censorship and Mass Surveillance unveils a much different portrait than the standard orthodoxy found in today's historical studies. Deploying an abundance of primary source evidence and well reasoned arguments, historian and distinguished professor emeritus David T. Beito masterfully presents a complete account of the real Franklin D. Roosevelt, a man who abused power, violated human rights, targeted dissidents, and let his crude racism imprison American citizens merely for being of Japanese descent. Read it and discover how FDR shamelessly censored critics of his administration, barred them from the public square, destroyed their careers, and even bankrupted them when possible, locked up Japanese American citizens in concentration camps built on American soil, sowed the seeds of today's out of control surveillance state, and much, much more. Here is an all too rare portrait of a man who changed the course of American history, not for the better. Read it and you'll never view the fireside president the same again. *A Patriot's History of the United States* Larry Schweikart, Michael Allen, 2014-11-25. Revised and updated this 15th anniversary edition of the #1 New York Times bestseller, *A Patriot's History of the United States* salutes America's true and proud history. Fifteen years ago, Professors Larry Schweikart and Michael Allen set out to correct the doctrinaire biases that had distorted the way America's past is taught, and they succeeded. *A Patriot's History of the United States* is the definitive, objective history of our country, presented honestly and fairly. Schweikart and Allen don't ignore America's mistakes through the years. Instead, they put them back in the proper perspective, celebrating the strengths of the men and women who cleared the wilderness, abolished slavery, and rid the world of fascism and communism. Now, in this revised fifteenth anniversary edition, a new generation of readers will learn the truth about America's discovery, founding, and advancement, from Columbus's voyage to Trump's promise to Make America Great Again. **FDR and the Jews** Richard Breitman, 2013-03-19. A contentious debate lingers over whether Franklin Delano Roosevelt turned his back on the Jews of Hitler's Europe. *FDR and the Jews* reveals a concerned leader whose efforts on behalf of Jews were far greater than those of any other world figure, but whose moral leadership was tempered by the political realities of depression and war. **The Newspaper Axis** Kathryn S. Olmsted, 2022-01-01. How six conservative media moguls hindered America and Britain from entering World War II. A damning indictment. The parallels with today's right-wing media on both sides of the Atlantic are unavoidable. Matthew Pressman, Washington Post. A first-rate work of history. Ben Yagoda, Wall Street Journal. As World War II approached, the six most powerful media moguls in America and Britain tried to pressure their countries to ignore the fascist threat. The media empires of Robert McCormick, Joseph and Eleanor Patterson, and William Randolph Hearst spanned the United States, reaching tens of millions of Americans in print and over the airwaves with their isolationist views. Meanwhile, in England, Lord Rothermere's *Daily Mail* extolled Hitler's leadership, and Lord Beaverbrook's *Daily Express* insisted that Britain had no interest in defending Hitler's victims on the continent. Kathryn S. Olmsted shows how these media titans worked in concert, including sharing editorial pieces and coordinating their responses to events, to influence public opinion in a right-wing populist direction, how they echoed fascist and anti-Semitic propaganda, and how they weakened and delayed both

Britain's and America's response to Nazi aggression *Fragile Alliances* Samuel W. White, 2005-07-30 How did the alliance between labor and the Democratic Party develop after the First World War? What role does Evansville play in an examination of this alliance? What was the impact of the alliance on U.S. politics and society? These are some of the questions that Samuel W. White tackles in his book *Fragile Alliances: Labor and Politics in Evansville, Indiana, 1919-1955*. Focusing on Evansville, Indiana, as a case study, White challenges traditional assumptions in the field such as the following: labor has one political voice; labor is monolithic in electoral politics; the New Deal successfully reordered American society and politics. White examines the roles played by political repression, opposition by employers, and anticommunist forces within the community, as well as the labor movement, in undermining the labor-Democratic Party alliance in Evansville. He contends that by the 1950s the impact of these forces blunted the potential of the labor movement and the Democratic Party to transform the political system by giving workers and their allies a permanent political space in electoral politics. How did the alliance between labor and the Democratic Party develop after the First World War? What role does Evansville play in an examination of this alliance? What was the impact of the alliance on U.S. politics and society? These are some of the questions that White tackles in his book *Fragile Alliances: Labor and Politics in Evansville, Indiana, 1919-1955*. Focusing on Evansville, Indiana, as a case study, White challenges traditional assumptions in the field such as the following: labor has one political voice; labor is monolithic in electoral politics; the New Deal successfully reordered American society and politics. White examines the roles played by political repression, opposition by employers, and anticommunist forces within the community, as well as the labor movement, in undermining the labor-Democratic Party alliance in Evansville. He contends that by the 1950s the impact of these forces blunted the potential of the labor movement and the Democratic Party to transform the political system by giving workers and their allies a permanent political space in electoral politics. Much of the published literature on labor and politics in the U.S. is focused on national events and organizations that make labor appear as a monolith in electoral politics. White diverges from the national focus of the majority of this literature, instead looking at labor and politics at the local level. While much of the published literature argues that the alliance between labor and the Democratic Party in the 1930s was a formidable force that reordered American society and politics, White shows that in Evansville the alliance was anything but that. Racked by political repression, opposition by employers, and anticommunist forces within the community, and the labor movement itself, the alliance was remarkably fragile and incapable of sustaining the momentum it had established in the 1930s. *Money and Free Speech* Melvin I. Urofsky, 2005 Money greases the wheels of American politics from the local level to the White House. In the 2004 presidential campaign, President George W. Bush alone raised nearly 400 million in private and public funds, nearly twenty times the combined total raised by John Kennedy and Richard Nixon in 1960 to defeat challenger John F. Kerry, further fueling anxiety over the power of money to dictate political results. Melvin Urofsky, one of our nation's most respected legal historians, takes a fresh look at efforts to rein in campaign spending and counter efforts in the courts to preserve the

status quo He offers a thoughtful and balanced overview of campaign finance reform and the legal responses to it from the Progressive era through the Supreme Court's landmark ruling in *McConnell v. FEC* 2003 and its impact on the 2004 election Urofsky focuses especially on the 1971 Federal Election Campaign Act and 2002 McCain Feingold or Bipartisan Campaign Reform Act BCRA and on challenges to both in the Supreme Court In *Buckley v. Valeo* 1976 the Court upheld contribution limits but struck down expenditure caps on First Amendment grounds In *McConnell* it upheld the key provisions of McCain Feingold In both cases however opponents argued that congressional control of campaign financing was an unconstitutional infringement of the free speech rights of campaign contributors Urofsky deftly steers the reader through this contentious and complex history revealing how both Congress and the courts have navigated uneasily between the Scylla of potential corruption and the Charybdis of suppressing political speech Ironically despite the Court's decision upholding McCain Feingold the 2004 presidential election was the most expensive in history because as Urofsky notes money is the mother's milk of politics and both candidates and donors will always find ways to keep it flowing His book provides an excellent and succinct guide to the controversies and historical debates emerging from that fact

Social History of the United States
Brian Greenberg, Linda S. Watts, Richard A. Greenwald, Gordon Reavley, Alice L. George, Scott Beekman, Cecelia Bucki, Mark Ciabattari, John C. Stoner, Troy D. Paino, Laurie Mercier, Andrew Hunt, Peter C.
