New Directions in Regulatory Theory David Campbell, Sol Picciotto, 2002 *New directions in regulatory theory. edited by Sol Picciotto and David Campbell ,2002* *New Directions in Criminological Theory* Freda Adler, William S. Laufer, 2023-04-28 *New Directions in Criminological Theory* focuses on new approaches to theory construction with particular emphasis on reformulations and new applications of existing paradigms It includes an assessment of labeling theory demonstrating how the approach could become part of a more comprehensive explanation of crime A case is made for studying crime in terms of the social context in which crimes are conceived interpreted and negotiated The debate between crime general and crime specific approaches is further amplified A rethinking of Hirschi s control theory is presented The volume includes theoretical discussions of spouse abuse of punishment and of power control models Additional chapters examine theoretical advances in corporate illegality employee theft and the alcohol crime syndrome These original contributions include Charles F Wellford and Ruth A Triplett The Future of Labeling Theory Austin T Turk A Proposed Resolution of Key Issues in the Political Sociology of Law David Weisburd and Lisa Maher Contrasting Crime General and Crime Specific Theory Sally Simpson Strategy Structure and Corporate Crime Edward W Sieh Employee theft Robert Nash Parker Alcohol and Theories of Homicide Kimberly L Kempf The Empirical Status of Hirschi s Control Theory Jeffrey Fagan The Social Control of Spouse Assault Marc Le Blanc and Aaron Caplan Theoretical Formalization A Necessity Michael J Lynch Control Theory and Punishment Gary F Jensen Power Control vs Social Control Theories of Common Delinquency John Hagan A R Gillis and John Simpson The Power of Control in Sociological Theories of Delinquency *Regulatory Theory* Peter Drahos, 2017-02-23 This volume introduces readers to regulatory theory Aimed at practitioners postgraduate students and those interested in regulation as a cross cutting theme in the social sciences *Regulatory Theory* includes chapters on the social psychological foundations of regulation as well as theories of regulation such as responsive regulation smart regulation and nodal governance It explores the key themes of compliance legal pluralism meta regulation the rule of law risk accountability globalisation and regulatory capitalism The environment crime health human rights investment migration and tax are among the fields of regulation considered in this ground breaking book Each chapter introduces the reader to key concepts and ideas and contains suggestions for further reading The contributors who either are or have been connected to the Regulatory Institutions Network RegNet at The Australian National University include John Braithwaite Valerie Braithwaite Peter Grabosky Neil Gunningham Fiona Haines Terry Halliday David Levi Faur Christine Parker Colin Scott and Clifford Shearing **Law in Modern Society** Denis Galligan, 2006-09-14 Providing an introduction to law in modern society D J Galligan considers how legal theory and particularly H L A Hart s The Concept of Law has developed the idea of law as a highly developed social system which has a distinctive character and structure and which shapes and influences people s behaviour The concept of law as a distinct social phenomenon is examined through reference to and analysis of the work of

prominent legal and social theorists in particular M Weber E Durkheim and N Luhmann Galligan's approach is guided by two main ideas that the law is a social formation with its own character and features and that at the same time it interacts with and is affected by other aspects of society In analysing these two ideas Galligan develops a general framework for law and society within which he considers various aspects including the nature of social rules and the concept of law as a system of rules whether law has particular social functions and how legal orders run in parallel the place of coercion the characteristic form of modern law and the social conditions that support its implementation and compliance and what happens when laws are used to change society Law in Modern Society encourages legal scholars to consider the law as an expression of social relations examining the connections and tensions between the positive law of modern society and the spontaneous relations they often try to direct or change

An Introduction to Law and Regulation Bronwen Morgan, Karen Yeung, 2007-04-12 In recent years regulation has emerged as one of the most distinct and important fields of study in the social sciences both for policy makers and for scholars who require a theoretical framework that can be applied to any social sector This timely textbook provides a conceptual map of the field and an accessible and critical introduction to the subject Morgan and Yeung set out a diverse and stimulating selection of materials and give them context with a comprehensive and critical commentary By adopting an interdisciplinary approach and emphasising the role of law in its broader social and political context it will be an invaluable tool for the student coming to regulation for the first time This clearly structured academically rigorous title with a contextualised perspective is essential reading for all students of the subject

Law and Development John Hatchard, Amanda Perry-Kessaris, 2012-10-02 This new book is an edited collection of papers arising from a conference on Law and Development in the twenty first century held in 2001 It is in honour of the work of Dr Peter Slinn

Interpreting and Implementing the TRIPS Agreement Justin Malbon, Charles Lawson, 2008-01-01 The chapters in this volume provide insightful analysis and commentary on TRIPS and importantly the TRIPS Plus world that many countries operate in This is a fine contribution to the growing literature of interdisciplinary analyses of the global IP regime there is enough in here that makes the book worth acquiring and reading Scholars of development more generally will find this book to be useful both for advancing their own understanding of the global IP regime and for integrating IP into broader development studies courses they teach Kenneth C Shadlen Progress in Development Studies This book considers whether the WTO agreement on Trade Related Aspects of Intellectual Property Rights TRIPS will become a vehicle for promoting greater international equity and engagement with the world economy or a tool for wealthy nations to extract excessive rents from poorer countries Can TRIPS garner the necessary degree of legitimacy and public trust to deliver economic development Can it become a key instrument for promoting international health and development In response to these questions the book proposes interpretive possibilities for the TRIPS text along with implementation strategies to avoid the threat of its irrelevancy due amongst other things to free trade agreements containing TRIPS plus terms The book discusses the impact of TRIPS from various

perspectives including those of developing countries It will be of interest to informed citizens members of NGOs and students and academics concerned with the debate about the impact of TRIPS on access to medicines at affordable prices the protection of traditional knowledge and the alleged neo colonial effect of net revenue outflows from developing nations to developed nations for copyright and patent royalties

Living Law Roger Cotterrell, 2017-07-05 Living Law presents a comprehensive overview of relationships between legal and social theory and of current approaches to the sociological study of legal ideas It explores the nature of legal theory and sociolegal studies today as teaching and research fields and the work of many of the major sociolegal theorists In addition it sets out the author's distinctive approach to sociological analysis of law applying this in a range of studies in specific legal fields such as the law of contract property and trusts constitutional analysis and comparative law

The Criminology Theory

Reader Stuart Henry, Werner Einstadter, 1998 An anthology of theoretical essays on causes of crime published in the American Society of Criminology's journal Criminology Articles have been edited into concise student friendly readings capturing the essence and diversity of thinking about crime from major theoretical perspectives including classical and rational choice biological and psychological strain subculture social learning neutralization and Marxist and critical theory Also contains cutting edge thinking on feminist theory and on postmodernist constitutive and integrated approaches Includes an overview and section introductions Annotation copyrighted by Book News Inc Portland OR

The Disparity of European Integration Borzel Tanja, 2013-10-31 This new study revisits the work of the late Ernst Haas assessing his relevance for contemporary European integration and its disparities With his seminal book The Uniting of Europe Haas laid the foundations for one of the most prominent paradigms of European integration neofunctionalism He engaged in inductive reasoning to theorize the dynamics of the European integration process that led from the Treaty of Paris in 1951 to the Treaty of Rome in 1957 The Treaty of Rome set the constitutional framework for a Common Market Today a second Treaty of Rome may lay the foundation for a European Constitution that embeds the Common Market in a European polity Unfortunately Haas will not be able to witness this path breaking step in the development of a European political community which he so aptly theorized almost five decades ago This is all the more regrettable since students of European integration are more than ever challenged to tackle a major empirical puzzle After 50 years of European integration the member states managed to adopt a single currency and to develop common policies and institutions on justice and home affairs The integration of foreign policy and defence by contrast is still lagging behind This text delivers sharp insights into these issues This book previously published as a special issue of the Journal of European Public Policy will be of great interest to all students and scholars of international relations the European Union European politics and Public Policy

The Business of Greening Stephen Fineman, 2017-10-19 The Business of Greening first published in 2000 debates the relationship between business and greening and the future form this relationship could take The book gives voice to industrial actors employees employers managers technical specialists regulators in the context of their organizations within industrial sectors or as part of wider institution regimes The business of greening is taken as socially constructed shaped through tensions and competing interests It produces outcomes that are sometimes unexpected sometimes hopeful These outcomes are explored by examining a range of workers including estate agents bankers bakers printers regulators in small and large corporations Contributors write from a wide range of different social sciences including sociology geography organizational science and psychology This title will be of particular interest to students and researchers of environmental and business studies and to those who shape environmental policy in government and industry

Law's Families Alison Diduck, 2003-07 Examining the diversity of perspectives and approaches in family law scholarship and drawing upon this work this book provides an analysis of recent trends in family law from a socio legal and feminist perspective and questions the nature of the nuclear family

Management Ethics Stewart R. Clegg, Carl Rhodes, 2012-11-12 Ethics has become big business but have businesses become ethical This is a central question for today's managers Managing ethics is critical in an era characterized by unprecedented corporate power and a myriad of competing ethical traditions Giving new insights into the understanding of ethics for today's organization practice and managerial behaviour this timely volume edited by well respected industry authorities provides an overview and critique of ethics as they relate to contemporary challenges and issues such as globalization sustainability consumerism neo liberalism corporate collapses leadership and corporate regulation This book an essential read for postgraduate students of business and ethics is organized around the core question What are the ethics of organizing in today's institutional environment and what does this mean for the practice of management and the organization of business In response to this the contributors examine ethics as it is deeply embedded in the everyday practice of management Interdisciplinary contributions from the fields of sociology philosophy management organization studies and public administration provide unique perspectives while case studies and real life examples illustrate the challenges and dilemmas faced in practice Each chapter has a brief overview and editor's introduction which skilfully summarizes key points and draws connections between the chapters

Corporations and Cultural Industries Scott W. Fitzgerald, 2012-01-01 Corporations and Cultural Industries Time Warner Bertelsmann and News Corporation by Scott Warren Fitzgerald fills an important neglected area in communication and media studies through its sustained theoretically grounded and empirically rich analysis of three of the most important global media conglomerates of our time Time Warner Bertelsmann and News Corp The book examines how financialization processes regeared the internal operations of media corporations in a manner that pits one sector against another

The Economics of Trade Unions: New Directions J.J. Rosa, 2013-04-17 The crisis in trade unionism is now a prevailing concern in the United States as well as in Europe Its main symptom is of course the decrease in union membership Still other less observable elements account for the concern namely the obsolescence of discourse the decrease of militant motivation and the question of efficiency of strikes or collective bargaining One must keep in mind however that trade unions will evolve differently from one country to another What we know about trade unions has changed over the years We can now more accurately assess the effects of union action especially with regard to labor market wages and productivity This book adds to the assessment by integrating the new theories of organizations contracts and property rights In doing so we shift from a study of markets to one of hierarchies Thus the current literature comes back to its sources but with improved analytical instruments by returning to the Ross Dunlop debate on the nature of the trade union This more complex outlook of trade unions as an organization not only as an abstract or bodyless supplier of monopolistic labor allows one to understand better the apparent differences between unions mainly American whose action is oriented towards work relationships and labor contract management and unions European or Latin who are closer to a pressure group wielding power on the political front

Corporate Business Responsibility Justin O'Brien, 2017-03-02 The 2008 9

crisis in global commercial debt markets exposed glaring deficiencies in corporate and regulatory operational and strategic risk management systems This collection provides an overview of how narrow conceptions of responsibility in corporate law organizational practice and regulatory dynamics facilitated the crisis The first section revisits the debates about the role of the corporation prompted by the publication of *The Modern Corporation and Private Property* 1932 The second section explores why the conception of enlightened shareholder interest gained and retained potency despite demonstrable failure The third section explores how the interaction between the foundational assumptions of corporate law and the questionable efficacy of shareholder control framed regulatory responses to the growth of financial capitalism The fourth section examines ways in which excess can be restrained by the interaction between hard law softer governance arrangements such as principles and crucially norms

Motivational Perspectives on Chronic Pain Paul Karoly, Geert Crombez, 2018-08-07

Motivational Perspectives on Chronic Pain is one of the first volumes to present a cohesive account of the adaptation to chronic pain from a motivational perspective Contributing authors from diverse areas of pain research offer comprehensive summaries of the concepts findings and applied methodologies that converge on the role of goals and goal related cognitive processes self regulatory support mechanisms contextual forces and emotionality as they influence and are influenced by the experience of chronic pain This volume provides readers with an up to date compendium of cutting edge research and interventions that collectively illustrate the utility of viewing chronic pain neither as a disease nor an imposed lifestyle but as the emergent and potentially flexible product of a complex transactional system that is bounded by both sociocultural factors and by biogenetic and neural moderating forces Within its pages chapters capture the vibrancy of current theory research and practice while pointing toward unexplored new directions Among the important topics addressed by this distinguished group of authors include the nature and relevance of control systems the role of neural mechanisms on pain processing the influence positive and negative emotion regulation play on pain management the impact of learning and conditioning and the often neglected influence of interpersonal processes on adjustment to chronic pain
