Signs & Test the Urinary Tract The first sign that the urinary tract is infected is the feeling of burning or stinging when urinating. There may also be a frequent need to urinate, even if only a small amount is passed. The urine may be cloudy or have a strong odor. In some cases, there may be blood in the urine. If you experience any of these symptoms, it is important to see a doctor as soon as possible. The doctor will perform a urinalysis and may also order a urine culture to confirm the diagnosis. Treatment typically involves a course of antibiotics. If the infection is not treated, it can spread to the kidneys and cause more serious complications.
