programs workshops and conferences      **Russia, the Former Soviet Republics, and Europe Since 1989** Katherine Graney, 2019-08-27 Nearly three decades after the fall of the Berlin Wall early hopes for the integration of the post Soviet states into a Europe whole and free seem to have been decisively dashed Europe itself is in the midst of a multifaceted crisis that threatens the considerable gains of the post war liberal European experiment In Russia the Former Soviet Republics and Europe Since 1989 Katherine Graney provides a panoramic and historically rooted overview of the process of Europeanization in Russia and all fourteen of the former Soviet republics since 1989 Graney argues that deeply rooted ideas about Europe s cultural civilizational primacy and concerns about both ideological and institutional alignment with Europe continue to influence both internal politics in contemporary Europe and the processes of Europeanization in the post Soviet world By comparing the effect of the phenomenon across Russia and the ex republics Graney provides a theoretically grounded and empirically rich window into how we should study politics in the former USSR      Global Antisemitism: A Crisis of Modernity Charles Asher Small, 2013-11-28 This volume contains a selection of essays based on papers presented at a conference organized at Yale University and hosted by the Yale Initiative for the Interdisciplinary Study of Antisemitism YIISA and the International Association for the Study of Antisemitism IASA entitled Global Antisemitism A Crisis of Modernity The essays are written by scholars from a wide array of disciplines intellectual backgrounds and perspectives and address the conference s two inter related areas of focus global antisemitism and the crisis of modernity currently affecting the core elements of Western society and civilization Rather than treating antisemitism merely as an historical phenomenon the authors place it squarely in the contemporary context As a result this volume also provides important insights into the ideologies processes and developments that give rise to prejudice in the contemporary global context This thought provoking collection will be of interest to students and scholars of antisemitism and discrimination as well as to scholars and readers from other fields      *Just Another Major Crisis?* Geir Lundestad, 2008-08-28 In this book some of the world s leading academic experts on American European relations provide the most up to date presentations of the topic available today The Iraq War represented a most serious challenge to American European relations Some of the contributors argue that NATO the key of the Atlantic relationship has been harmed beyond repair The Cold War is over America has become more nationalist than it used to be Europe has become more independent minded vis vis the United States Others argue that the war was just another major crisis like the many crises that had affected NATO even in its golden years during the Cold War Recently the relationship has already improved a great deal it is likely to improve even further      *Politics of Stigmatization* Molly Krasnodebska, 2020-10-27 This book studies how the pursuit of becoming an established insider in an international community shapes a state s foreign policy It looks at Poland s response to three international crises that called for joint action of the EU and its members the Iraq war of 2003 the Russo Georgian war of 2008 and the Ukraine crisis beginning in 2013 The book develops the concept of strategic culture as a collection of historically informed narratives that guide a state s

pursuit of ontological security a basic sense of certainty about the state's role and place in the international environment Building on this concept the author argues that Poland's behavior reflects the awareness of its stigma as a late arrival in the EU and more generally in the West as an identity community The study thus provides insight into how stigmatization and struggle for recognition shape international dynamics      *Trans-Atlantic Divide* John J. Metzler, 2010 *Trans Atlantic Divide* The USA Euroland Rift presents a historical view woven with context infused with informed commentary and presented with clarity The book outlines a contrarian and realistic view that offers a clear common ground for both sides as illustrated in booming business trade and tourism relations between the USA and the EU In spite of the unavoidable diplomatic residue following the Iraq war American relations with Europe remain unquestionably vital for commercial cultural and geopolitical reasons Book Jacket      *Cultural Landscapes of Post-socialist Cities* Mariusz Czepczyński, 2008 Since the velvet revolution of 1989 the totalitarian communist urbanscapes of central European cities have been cleansed or recycled bringing in new architectural functional and social forms to transform how they look and how they are used This book examines the culturally conditional variations between local powers and structures despite the similarities in the general processes and systems It assesses whether these urbanscapes clearly reflect the social cultural and political conditions and aspirations of these transitional countries and so a critical analysis of them provides important insights
