Opera as Soundtrack Jeongwon Joe, 2016-05-13 Filmmakers fascination with opera dates back to the silent era but it was not until the late 1980s that critical enquiries into the intersection of opera and cinema began to emerge Jeongwon Joe focusses primarily on the role of opera as soundtrack by exploring the distinct effects opera produces in film effects which differ from other types of soundtrack music such as jazz or symphony These effects are examined from three perspectives peculiar qualities of the operatic voice various properties commonly associated with opera such as excess otherness or death and multifaceted tensions between opera and cinema for instance opera as live embodied high art and cinema as technologically mediated popular entertainment Joe argues that when opera excerpts are employed on soundtracks they tend to appear at critical moments of the film usually associated with the protagonists and the author explores why it is opera not symphony or jazz that accompanies poignant scenes like these Joe s film analysis focuses on the time period of the post 1970s which is distinguished by an increase of opera excerpts on soundtracks to blockbuster titles the commercial recognition of which promoted the production of numerous opera soundtrack CDs in the following years Joe incorporates an empirical methodology by examining primary sources such as production files cue sheets and unpublished interviews with film directors and composers to enhance the traditional hermeneutic approach The films analysed in her book include Woody Allen s Match Point David Cronenberg s M Butterfly and Wong Kar wai s 2046

Music, Collective Memory, Trauma, and Nostalgia in European Cinema after the Second World War Michael Baumgartner, Ewelina Boczkowska, 2019-09-23 In the wake of World War II the arts and culture of Europe became a site where the devastating events of the 20th century were remembered and understood Exploring one of the most integral elements of the cinematic experience music the essays in this volume consider the numerous ways in which post war European cinema dealt with memory trauma and nostalgia showing how the music of these films shaped the representation of the past The contributors consider films from the United Kingdom Poland the Soviet Union France Italy Germany Sweden Austria and the Netherlands providing a diverse and well rounded understanding of film music in the context of historical memory Memory is often underrepresented within scholarly musical studies with most of these applications found in the disciplines of ethnomusicology popular music studies music cognition and psychology and music therapy Likewise trauma has mainly been studied in relation to music in only a few historical contexts while nostalgia has attracted even less academic attention In three parts this volume addresses each area of study as it relates to the music of European cinema from 1945 to 1989 applying an interdisciplinary approach to investigate how films use music to negotiate the precarious relationships we maintain with the past Music Collective Memory Trauma and Nostalgia in European Cinema

Remixing Wong Kar-wai Giorgio Biancorosso, 2024-11-08 Like his fellow filmmakers Stanley Kubrick Quentin Tarantino and Sofia Coppola Wong Kar wai crafts the soundtracks of his films by jettisoning original scores in favor of commercial recordings In Remixing Wong Kar wai Giorgio Biancorosso examines the combinatorial practice at the heart of Wong s cinema to retheorize musical borrowing appropriation and repurposing Wong s irrepressible penchant for poaching music from other films whether old Chinese melodramas Hollywood blockbusters or European art films subsumes familiar music under his own brand of cinema As Wong combs through musical and cinematic archives and splices disparate music together exceedingly well known music loses its previous associations and acquires an infinite new constellation of meanings in his films Drawing on Claude L vi Strauss s concept of bricolage Biancorosso contends that Wong s borrowing is akin to a practice of creative destruction in which Wong becomes a bricoleur who remixes music at hand to create new and complete self sustaining statements By outlining Wong s modus operandi of indiscriminate borrowing and remixing Biancorosso prompts readers to reconsider the significance of transforming preexisting music into new compositions for film and beyond

Riefenstahl Screened Neil Christian Pages, Mary Rhiel, Ingeborg Majer O'Sickey, 2008-01-01 Leni Riefenstahl is larger than life From the lure of her persona as it enters our homes via television to our pleasure in the recognition of her film images at rock concerts to her place as part of the history of the Nazi period Riefenstahl lives on in our imagination and in our cultural productions Thus the editors introduction to this volume examines the manner in which Riefenstahl haunts debates on aesthetics and politics and how her legacy reverberates in the contemporary cultural scene The editors view the collection as a three part framework The essays in the opening section of the book show that Riefenstahl is still very much alive and well and controversial in popular culture Her films continue to determine the way in which we think about the Nazi period providing instantly recognizable images and messages that often go unquestioned We cannot separate these phenomena from Riefenstahl s years of avid self fashioning The second section of the book offers treatments of the shifting mobile relationship between Riefenstahl s stubborn attempts to create and control her personae and her reactions to others re appropriations of the meanings of her life and work Reading the texts and discourses surrounding Riefenstahl these scholars treat her memoirs and her repeated assertions about herself as a springboard into understanding anew how we might approach her films in a productive way The closing section of the volume comprises essays that go right to the heart of the matter Riefenstahl s films and photography The new contexts theoretical discussions and emerging discourses that animate these essays include Scarry s treatise on beauty justice and the global the problems of history and memory the place of Riefenstahl s filmmaking technique in contemporary cinema and her appropriation of German musical traditions Fueled by the work of a diverse range of scholars then Riefenstahl Screened offers an opportunity to rethink the place of Leni

Sally Bick's dual study of Copland and Eisler pairs interpretations of their writings on film composing with a close examination of their first Hollywood projects Copland's music for *Of Mice and Men* and Eisler's score for *Hangmen Also Die*. Bick illuminates the different ways the composers treated a film score as means of expressing their political ideas on society, capitalism, and the human condition. She also delves into Copland's and Eisler's often conflicted attempts to adapt their music to fit Hollywood's commercial demands, an enterprise that took place even as they wrote hostile critiques of the film industry.

Film Music in the Sound Era Jonathan Rhodes Lee, 2020-02-11 *Film Music in the Sound Era: A Research and Information Guide* offers a comprehensive bibliography of scholarship on music in sound film, 1927-2017. Thematically organized sections cover historical studies, studies of musicians and filmmakers, genre studies, theory, and aesthetics, and other key aspects of film music studies. Broad coverage of works from around the globe, paired with robust indexes and thorough cross-referencing, make this research guide an invaluable tool for all scholars and students investigating the intersection of music and film. This guide is published in two volumes. Volume 1, *Histories, Theories, and Genres*, covers overviews, historical surveys, theory, and criticism; studies of film genres; and case studies of individual films. Volume 2, *People, Cultures, and Contexts*, covers individual people, social and cultural studies, studies of musical genre, pedagogy, and the industry. A complete index is included in each volume. *On Slowness* Lutz Koepnick, 2014-10-07 Speed is an obvious facet of contemporary society, whereas slowness has often been dismissed as conservative and antimodern. Challenging a long tradition of thought, Lutz Koepnick instead proposes to understand slowness as a strategy of the contemporary, a decidedly modern practice that gazes firmly at and into the present's velocity. As he engages with late twentieth and early twenty-first century art, photography, video, film, and literature,

Koepnick explores slowness as a critical medium to intensify our temporal and spatial experiences. Slowness helps us register the multiple layers of time, history, and motion that constitute our present. It offers a timely and untimely mode of aesthetic perception and representation that emphasizes the openness of the future and undermines any conception of the present as a mere replay of the past. Discussing the photography and art of Janet Cardiff, Olafur Eliasson, Hiroshi Sugimoto, and Michael Wesely, the films of Peter Weir and Tom Tykwer, the video installations of Douglas Gordon, Willie Doherty, and Bill Viola, and the fiction of Don DeLillo, Koepnick shows how slowness can carve out spaces within processes of acceleration that allow us to reflect on alternate temporalities and durations.

Film Music Kathryn Marie Kalinak, 2023. Film music is as old as cinema. The first projected moving images were accompanied by music through a variety of performers, from single piano players to small orchestras that brought images to life. Film music has since become its own industry, an aesthetic platform for expression, creative visions, and a commercial vehicle for growing musical stars of all varieties. This Very Short Introduction takes the reader behind the scenes to understand both the practical aspects of film music and the theories behind why it works. The updated second edition includes the music from film industries in Africa, Asia, and South Asia, and Latin America, and the stories of musicians from previously underrepresented groups.

Music in Films about the Shoah Elias Berner, 2024-08-13. This book focuses on the aural and musical sphere of fictional audio-visual reconstructions of the Holocaust, a defining event in the history of the 20th century. Musicology has seen an increasing number of works on the function of film music and the construction of identity in media contexts in recent years. This project analyses the use of music in feature films about the Shoah. The analysis of the sound of Nazi violence, as well as the escape from and resistance against it, not only reveals a lot about the construction of the filmic characters' emotive states but also tells us more about our own relationship to the past. The author understands the soundtrack of these films as an affective mediator of time, which connects filmic representations of the past with the present. Analysis focuses on the soundtracks of four films: Schindler's List, The Pianist, Taking Sides, and Inglourious Basterds.
