Routledge

Companion to Real Estate Development Graham Squires, Erwin Heurkens, Richard Peiser, 2017-09-07 Real estate development shapes the way people live and work playing a crucial role in determining our built environment Around the world real estate development reflects both universal human needs and region specific requirements and with the rise of globalization there is an increasing need to better understand the full complexity of global real estate development This Companion provides comprehensive coverage of the major contemporary themes and issues in the field of real estate development research Topics covered include social and spatial impact markets and economics organization and management finance and investment environment and sustainability design land use policy and governance A team of international experts across the fields of real estate planning geography economics and architecture reflect the increasingly interdisciplinary nature of real estate studies providing the book with a depth and breadth of original research Following on from the success of the textbook International Approaches to Real Estate Development the Routledge Companion to Real Estate Development provides the up to date research needed for a full and sophisticated understanding of the subject It will be an invaluable resource to students researchers and professionals wishing to study real estate development on an international scale

The Impact of the Global Financial Crisis on Emerging Financial Markets Jonathan Batten, Peter G. Szilagyi, 2011-03-02 The Global Financial Crisis of 2007 2009 has highlighted the resilience of the financial markets and economies from the developing world This title investigates and assesses the impact and response to the crisis from an emerging markets perspective including asset pricing contagion financial intermediation market structure and regulation

Handbook on the Geographies of Money and Finance Ron Martin, Jane Pollard, 2017-03-31 The aim of this timely work which appears in the wake of the worst global financial crisis since the late 1920s is to bring together high quality research based contributions from leading international scholars involved in constructing a geographical perspective on money Topics covered include the crisis the spatial circuits of finance regulation mainstream financial markets banking equity etc through to the various alternative and disruptive forms of money that have arisen in recent years It will be of interest to geographers political scientists sociologists economists planners and all those interested in how money shapes and reshapes socio economic space and conditions local and regional development

Sustainable Finance and the Global Health Crisis Pasquale Marcello Falcone, Edgardo Sica, 2023-08-01 The speed with which the various economies recover from the Covid 19 pandemic will significantly determine the economic pressure placed on the environment in the medium to long term Furthermore the pandemic has highlighted the strong interrelations between natural and societal systems with societal resilience depending on a resilient environmental support system In this context the book argues that the pandemic represents a wake up call for financial systems to be better prepared for the climate crisis and social risk and has provided a stimulus to scale down the reliance of the global economy on fossil fuels The first part of the book provides a deep and creative discussion between leading international researchers and experts on the policy options and financial instruments

which can help to catalyze the green finance transition in the post Covid 19 era The contributions show that sustainable finance is emerging as a powerful tool to advance the transition towards a more environmentally and socially sustainable economic model Instruments such as sovereign green bonds green securities and other sustainability related securities can play a significant role in the post Covid 19 world to fund economic stimulus and to lead the way to new and more sustainable future The second part of the book supports the debate by highlighting a number of selected case studies on financing transitions in different regional contexts including Africa Asia Europe and Latin America The book marks a significant contribution to the literature on environmental economics and finance climate change and sustainability transitions Chapter 12 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license
