New Hotels for Global Nomads Donald Albrecht, Elizabeth Johnson, 2002 Modern hotels are expected to offer more than a bed for the night The hotels featured in this colour illustrated volume reflect the best in modern design and cater to the demands of rich people with an eye for something distinct and different **Great American Hoteliers** Stanley Turkel, 2009-09-16 During the thirty years prior to the Civil War Americans built hotels larger and more ostentatious than any in the rest of the world These hotels were inextricably intertwined with American culture and customs but were accessible to average citizens As Jefferson Williamson wrote in The American Hotel Knopf 1930 hotels were perhaps the most distinctively American of all our institutions for they were nourished and brought to flower solely in American soil and borrowed practically nothing from abroad Development of hotels was stimulated by the confluence of travel tourism and transportation In 1869 the transcontinental railroad engendered hotels by Henry Flagler Fred Harvey George Pullman and Henry Plant The Lincoln Highway and the Interstate Highway System triggered hotel development by Carl Fisher Ellsworth Statler Kemmons Wilson and Howard Johnson The airplane stimulated Juan Trippe John Bowman Conrad Hilton Ernest Henderson A M Sonnabend and John Hammons My research into the lives of these great hoteliers reveals that none of them grew up in the hospitality business but became successful through their intense on the job experiences My investigation has uncovered remarkable and startling true stories about these pioneers some of whom are well known and others who are lost in the Global Nomads Anthony D'Andrea, 2007-01-24 Global Nomads provides a unique introduction to the dustbin of history globalization of countercultures a topic largely unknown in and outside academia Anthony D Andrea examines the social life of mobile expatriates who live within a global circuit of countercultural practice in paradoxical paradises Based on nomadic fieldwork across Spain and India the study analyzes how and why these post metropolitan subjects reject the homeland in order to shape an alternative lifestyle They become artists therapists exotic traders and bohemian workers seeking to integrate labor mobility and spirituality within a cosmopolitan culture of expressive individualism These countercultural formations however unfold under neo liberal regimes that appropriate utopian spaces practices and imaginaries as commodities for tourism entertainment and media consumption In order to understand the paradoxical globalization of countercultures Global Nomads develops a dialogue between global and critical studies by introducing the concept of neo nomadism which seeks to overcome some of the shortcomings in studies of globalization This book is an essential aide for undergraduate postgraduate and research students of Sociology Anthropology of Globalization Cultural Studies and Tourism Studies Hotel Lobbies and Lounges Tom Avermaete, Anne Massey, 2013-01-25 This series investigates the historical theoretical and practical aspects of interiors The volumes in the Interior Architecture series can be used as handbooks for the practitioner and as a critical introduction to the history of material culture and architecture Hotels occupy a particular place in popular imagination As a place of exclusive sociability and bohemian misery a site of crime and murder and as a hiding

place for illicit liaison the hotel has embodied the dynamism of the metropolis since the eighteenth century This book explores the architectural significance of hotels throughout history and how their material construction has reflected and facilitated the social and cultural practices for which they are renowned Contemporary developments in the planning and design of hotels are addressed through a series of interviews and case studies Illustrated throughout this book is an innovative and important contribution to architectural and interior design theory literature The Hotel Robert A. Davidson, 2018-11-05 The Hotel Occupied Space explores the hotel as both symbol and space through the concept of occupancy By examining the various ways in which the hotel is manifested in art photography and film this book offers a timely critique of a crucial modern space As a site of occupancy the hotel has provided continued creative inspiration for artists from Monet and Hopper to genre filmmakers like Hitchcock and Sofia Coppola While the rich symbolic importance of the hotel means that the visual arts and cinema are especially fruitful the hotel s varied structural purposes as well as its historical and political uses also provide ample ground for new and timely discussion In addition to inspiring painters photographers and filmmakers the hotel has played an important role during wartime and more recently as a site of accommodation for displaced people whether they be detainees or refugees seeking sanctuary Shedding light on the diverse ways that the hotel functions as a structure Robert A Davidson argues that the hotel is both a fundamental modern space and a constantly adaptable structure dependent on the circumstances in which it appears and plays a part POP-UP HOTEL REVOLUTION, the architectural innovation about to come in the hotel industry Joseph Di Pasquale, Chiara Butta, Paola Zatti, 2015 WHICH IS MOVING PEOPLE OR ARCHITECTURE In an era where nomadism is the keyword that relates people to the rest of the world architecture is seeking for a concrete response to the recent needs result of the rise of mobility and worldwide travels The proposal of new modular structures for the hospitality market defines the tendency to think movable Sex and Buildings Richard J. Williams, 2013-07-15 Massive modern skyscrapers obelisks towers all are modular flexible structures that thanks to their phallic shape are often associated with sex But other buildings are more subtly connected as they provide the frameworks for our sexual lives and act as reminders of our sexual memories This relationship between sex and buildings mattered more than ever in the United States and Europe during the turbulent twentieth century when a culture of unprecedented sexual frankness and tolerance emerged and came to dominate many aspects of public life Part architectural history part cultural history and part travelogue Sex and Buildings explores how progressive sexual attitudes manifest themselves in architecture asking what progressive sexuality might look like architecturally and exploring the successes and failures of buildings attempts to reflect it In search of structures that reflect the sexual mores of their inhabitants Richard J Williams visits modernist buildings in Southern California the Westin Bonaventure Hotel the Playboy Mansion in Chicago the Seagram in New York communes from the 1960s and more A fascinating and often funny look at a period of extraordinary social change coupled with aesthetic invention Sex and Buildings will change the way we look at the
