**A New House for the Morrisons** Penny Carter,1993 Mr Sharkey a flashy real estate agent shows the Morrisons many different houses but none seems to suit them *Fonthill Recovered* Caroline Dakers,2018-05-16 Fonthill in Wiltshire is traditionally associated with the writer and collector William Beckford who built his Gothic fantasy house called Fonthill Abbey at the end of the eighteenth century The collapse of the Abbey s tower in 1825 transformed the name Fonthill into a symbol for overarching ambition and folly a sublime ruin Fonthill is however much more than the story of one man s excesses Beckford s Abbey is only one of several important houses to be built on the estate since the early sixteenth century all of them eventually consumed by fire or deliberately demolished and all of them oddly forgotten by historians Little now remains a tower a stable block a kitchen range some dressed stone an indentation in a field Fonthill Recovered draws on histories of art and architecture politics and economics to explore the rich cultural history of this famous Wiltshire estate The first half of the book traces the occupation of Fonthill from the Bronze Age to the twenty first century Some of the owners surpassed Beckford in terms of their wealth their collections their political power and even in one case their sexual misdemeanours They include Charles I s Chancellor of the Exchequer and the richest commoner in the nineteenth century The second half of the book consists of essays on specific topics filling out such crucial areas as the complex history of the designed landscape the sources of the Beckfords wealth and their collections and one essay that features the most recent appearance of the Abbey in a video game **The Morrisons** Glenn Hamilton Morrison,1994 The Morrison family originated in Scotland The earliest tracable ancestor in the United States was Daniel Morrison who was in the Georgia state legislature in about 1800 He was the grandfather of Major Alexander C Morrison 1807 1875 who was born in Georgia and married Mary Clements They were the parents of six children He and several of his sons fought in the Confederate Army during the Civil War In 1874 Alex and his family moved to Arkansas Descendants live in Arkansas Texas and other parts of the United States **The Morrisons** Margaret Hosmer,1864 *Londonderry* ,2004 Situated only forty miles north of Boston Londonderry is one of the fastest growing towns in a rapidly developing region of New England With the opening of Interstate 93 in 1963 the town s transformation from rural farming community to metropolitan suburb began Today as progress inevitably changes the appearance of Londonderry the town strives to maintain its small town appeal and rich agricultural heritage In words and pictures Londonderry captures the character of the town from the mid nineteenth century through World War II Included are early photographs of farms homesteads and taverns that have changed very little and many more photographs of mills churches barns and rail depots that disappeared years ago Londonderry is also a record of people engaged in a more simple way of life apple picking collecting maple syrup bringing in the hay and tobogganing on Ela s Hill now the site of a fast food restaurant Londonderry tells a fascinating story to be enjoyed by lifelong residents and newcomers alike **The Story of the L.M.S.** Charles Silvester Horne,1904 *Association Men* ,1927 **Redlining Culture** Richard Jean So,2020-12-15 The

canon of postwar American fiction has changed over the past few decades to include far more writers of color. It would appear that we are making progress recovering marginalized voices and including those who were for far too long ignored. However, is this celebratory narrative borne out in the data? Richard Jean So draws on big data literary history and close readings to offer an unprecedented analysis of racial inequality in American publishing that reveals the persistence of an extreme bias toward white authors. In fact, a defining feature of the publishing industry is its vast whiteness, which has denied nonwhite authors, especially black writers, the coveted resources of publishing reviews, prizes, and sales with profound effects on the language, form, and content of the postwar novel. Rather than seeing the postwar period as the era of multiculturalism, So argues that we should understand it as the invention of a new form of racial inequality, one that continues to shape the arts and literature today. Interweaving data analysis of large-scale patterns with a consideration of Toni Morrison's career as an editor at Random House and readings of individual works by Octavia Butler, Henry Dumas, Amy Tan, and others, So develops a form of criticism that brings together qualitative and quantitative approaches to the study of literature. A vital and provocative work for American literary studies, critical race studies, and the digital humanities, *Redlining Culture* shows the importance of data and computational methods for understanding and challenging racial inequality.

Folk Women and Indirection in Morrison, N Dhuibhne, Hurston, and Lavin Jacqueline Fulmer, 2017-11-30 Focusing on the lineage of pivotal African American and Irish women writers, the author argues that these authors often employ strategies of indirection via folkloric expression when exploring unpopular topics. This strategy holds the attention of readers who would otherwise reject the subject matter. The author traces the line of descent from Mary Lavin to N Dhuibhne and from Zora Neale Hurston to Toni Morrison, showing how obstacles to free expression, though varying from those Lavin and Hurston faced, are still encountered by Morrison and N Dhuibhne. The basis for comparing these authors lies in the strategies of indirection they use, as influenced by folklore. The folkloric characters these authors depict, wild denizens of the Otherworld and wise women of various traditions, help their creators insert controversy into fiction in ways that charm rather than alienate readers. Forms of rhetorical indirection that appear in the context of folklore, such as signifying practices, masking sly civility, and the grotesque or bizarre, come out of the

mouths and actions of these writers magical and magisterial characters Old traditions can offer new ways of discussing issues such as sexual expression religious beliefs or issues of reproduction As differences between times and cultures affect what can and cannot be said folkloric indirection may open up a vista to discourses of which we as readers may not even be aware Finally the folk women of Morrison N Dhuibhne Hurston and Lavin open up new points of entry to the discussion of fiction rhetoric censorship and folklore
