New Left Thought An Introduction:

The New Left Allan C. Brownfeld, United States. Congress. Senate. Committee on the Judiciary. Subcommittee to Investigate the Administration of the Internal Security Act and Other Internal Security Laws, 1968 **The New Left and Labor in 1960s** Peter B. Levy, 2024-04-22 It is a powerful story the relationship between the 1960s New Left and organized labor was summed up by hardhats confronting students and others over US involvement in Vietnam But the real story goes beyond the Love It or Leave It signs and melees involving blue collar types attacking protesters Peter B Levy challenges these images by exploring the complex relationship between the two groups Early in the 1960s the New Left and labor had cooperated to fight for civil rights and anti poverty programs But diverging opinions on the Vietnam War created a schism that divided these one time allies Levy shows how the war combined with the emergence of the black power movement and the blossoming of the counterculture drove a permanent wedge between the two sides and produced the polarization that remains to this day *China and New Left Visions* Jie Lu, Ban Wang, 2012-07-20 Against the dire consequences of China's market development a new intellectual force of the New Left has come on the scene since the mid 1990s New Left intellectuals debate the issues of social justice distributive equality markets state intervention the socialist legacy and sustainable development Against the neoliberal trends of free markets liberal democracy and consumerism New Left critics launched a critique in hopes of seeking an alternative to global capitalism This volume takes a comprehensive look at China's New Left in intellectual cultural and literary manifestations The writers place the New Left within a global anti hegemonic movement and the legacy of the Cold War They discover grassroots literature that portrays the plight and resilience of the downtrodden and disadvantaged With historical visions the writers also shed light on the present by drawing on the socialist past **History and the New Left** Paul Buhle, 1991-02-27 Madison Wisconsin has long been known as a dynamic cultural center and focus of political intellectual ferment in the middle of America This collection of essays and interviews traces the rise of an intellectual New Left from 1950 to 1970 as experienced by activists and scholars with ties to the University of Wisconsin Its thirty two contributors including prominent historians journalist scholars and veteran political activists re examine their own personal histories in different eras and draw fresh often surprising conclusions The city and campus of Madison provide a veritable laboratory for the study of deep continuities in American dissenting thought Photographs and cultural documents accompany these poignant candid oral histories The volume explores a crucial period of Madison's intellectual life as a crossroad of history and culture Interviews with the scholars and former students who politicized historical analysis in light of the Cold War McCarthyism nuclear and environmental holocaust civil rights and the Vietnam War recall the debates and alliances that kept Madison in a state of ferment Author note Paul Buhle is Director of the Oral History of the American Left Project at the Tamiment Library of New York University and teaches U S History at the Rhode Island School of Design **Why War? Ideology, Theory, and History** Keith L. Nelson, Spencer C. Olin, 2023-09-01 Instead

of proposing another theory of war their goal is a more modest one of raising the theoretical consciousness of historians Specifically they argue that 1 ideology does influence theory 2 historians do have ideologies as well as theories about which they are not always conscious or consistent and 3 we can better understand compare and evaluate what historians are saying when we comprehend their ideological and theoretical perspectives They attempt then to classify historical interpretations of war according to their ideological theoretical orientations however covert Perspective Nelson and Olin are concerned with enhancing history's social utility by advancing its capacity to produce generalizations that can explain or predict events and are subject to empirical testing Their exploration of historical generalization focuses on an issue itself of the highest importance the causes of war but their aim is also to create a model for historical generalization applicable to other issues They argue that to understand generalizations in history one must recognize their roots in theory and that historians theories in turn proceed from their own ideologies To demonstrate they survey theories about the causes of war that have come out of conservative liberal and radical ideologies any historian will profit from this rigorous approach to the problem Choice Learned and suggestive this book clarifies much of what is already known and points toward new ways of understanding Library Journal Instead of proposing another theory of war their goal is a more modest one of raising the theoretical consciousness of historians Specifically they argue that 1 ideology does influence theory 2 historians do have ideologies as well as theories Global Capitalist Crisis and the Second Great Depression Armando Navarro,2012 This book provides a comprehensive political economic and historical analysis of the events and circumstances from the 1920s to 2010 that impacted the rise of today's Global Capitalist Crises Global Economic Crises and the U S's Second Great Depression It argues that liberal capitalism is a failed political and economic system in dire need of systemic change into either social democracy or democratic socialism via the creation of a New Movement American Left Rhodri Jeffreys-Jones,2013-10-31 Only the American right has ever really recognised the potency of the American left Now Rhodri Jeffreys Jones fully details the left's numerous achievements including the welfare state opposing militarism reshaping of American culture black rights a

Making Peace with the 60s David Burner,2021-07-13 David Burner's panoramic history of the 1960s conveys the ferocity of debate and the testing of visionary hopes that still require us to make sense of the decade He begins with the civil rights and black power movements and then turns to nuanced descriptions of Kennedy and the Cold War the counterculture and its antecedents in the Beat Generation the student rebellion the poverty wars and the liberals war in Vietnam As he considers each topic Burner advances a provocative argument about how liberalism self destructed in the 1960s In his view the civil rights movement took a wrong turn as it gradually came to emphasize the identity politics of race and ethnicity at the expense of the vastly more important politics of class and distribution of wealth The expansion of the Vietnam War did force radicals to confront the most terrible mistake of American liberalism but that they also turned against the social goals of the New Deal was destructive to all concerned Liberals seemed to rule in politics and in the media Burner points out yet they

failed to make adequate use of their power to advance the purposes that both liberalism and the left endorsed And forces for social amelioration splintered into pairs of enemies such as integrationists and black separatists the social left and mainline liberalism and advocates of peace and supporters of a totalitarian Hanoi Making Peace with the 60s will fascinate baby boomers and their elders who either joined denounced or tried to ignore the counterculture It will also inform a broad audience of younger people about the famous political and literary figures of the time the salient moments and above all the powerful ideas that spawned events from the civil rights era to the Vietnam War Finally it will help to explain why Americans failed to make full use of the energies unleashed by one of the most remarkable decades of our history Sixties Radicals, Then and Now Ron Chepesiuk,2007-12-26 Aroused by gains in civil rights and galvanized by the antiwar movement radical leaders of the 1960s sought to make revolutionary changes in American society Partly through their leadership a generation was awakened by the call for a counterculture That generation is now responsible for the same social and political structures they so adamantly and sometimes violently opposed How did the sixties affect the counterculture leaders And what are they doing now Paul Krassner Cleveland Sellers Jane Adams Dave Dellinger Bill Ayers Warren Hinckle Peter Berg Noam Chomsky Tim Leary Philip Berrigan Anita Hoffman Jerry Rubin Erica Huggins Jim Fouratt Bernadine Dohrn Barry Melton Peter Coyote and Abbie Hoffman reflect on the seminal events that dominated the sixties and discuss the major issues and problems facing America and them today The New Left and the 1960s Herbert Marcuse,2004-10-14 The New Left and the 1960s is the third volume of Herbert Marcuse s collected papers In 1964 Marcuse published a major study of advanced industrial society One Dimensional Man which was an important influence on the young radicals who formed the New Left Marcuse embodied many of the defining political impulses of the New Left in his thought and politics hence a younger generation of political activists looked up to him for theoretical and political guidance The material collected in this volume provides a rich and deep grasp of the era and the role of Marcuse in the theoretical and political dramas of the day This volume contains articles letters talks and interviews including On the New Left a transcription of the 1968 talk at the Guardian newspaper s twentieth anniversary Reflections on the French Revolution which contains comments on the 1968 French student and worker uprising Liberation from the Affluent Society which presents Marcuse s contribution to the 1967 Dialectics of Liberations conference and United States Questions of Organization and the Revolutionary Subject a conversation between Marcuse and the German writer Hans Magnus Enzenberger published here in English for the first time Edited by Douglas Kellner this volume will be of interest to all those previously unfamiliar with Herbert Marcuse generally acknowledged as a major figure in the intellectual and social mileux of the 1960s and 1970s as well as to specialists who will here have access to papers and articles collected in one volume for the first time **Extremism in America** Lyman Tower Sargent,1995-05 Contains primary source material **Motherhood Reconceived** Lauri Umansky,1996-08 Motherhood Reconceived reveals the emphasis on motherhood that lies at the heart of modern feminism as both a utopian frontier for countercultural ideals and a metaphorical cement for a

The Secular Religion of Franklin Merrell-Wolff Dave Vliegenthart, 2018-01-16 In *The Secular Religion of Franklin Merrell Wolff: An Intellectual History of Anti-intellectualism in Modern America* Dave Vliegenthart offers an account of the life and teachings of the modern American mystic Franklin Merrell Wolff 1887-1985 who combined secular and religious sources from eastern and western traditions in order to elaborate and legitimate his metaphysical claim to the realization of a transcendental reality beyond reason Using Merrell Wolff as a typical example of a modern western guru Vliegenthart investigates the larger sociological and historical context of the ongoing grand narrative that asserts a widespread anti-intellectualism in modern American culture exploring developments in religious, philosophical and psychological discourses in North America from 1800 until the present

Perry Anderson Gregory Elliott, 1998 This first full reconstruction of Perry Anderson's distinguished career provides an overview of the evolution of the British New Left since 1956 and reveals a great deal about the vicissitudes of Marxist theory and political practice in the era of post-Stalinist communism Gregory Elliott ultimately argues that notwithstanding significant discontinuities in his intellectual development Anderson remains a critically engaged thinker of the intransigent Left a contemporary historian whose commitment to the long view renders him an indispensable commentator on our times Elliott also sketches the collective career of *New Left Review* one of the most influential international journals of the postwar period

The Historical Development of West Germany's New Left after 1968 Matthias Dapprich, 2018-03-14 There is a gap in the existing literature as to why the New Left in West Germany entered a phase of rapid decline by the end of the 1970s The overarching aim of this thesis is to offer a politico-theoretical explanation for the historical development of the New Left and why the red decade between 1967 and 1976-77 ended so abruptly Within this context the thesis will focus on the Maoist K Gruppen and particular emphasis will be placed on the Marxistische Gruppe which defied the general decline of West Germany's New Left and developed into its largest organisation during the 1980s Furthermore the Red Cells movement will be analysed from which both currents emerged in the wake of the student movement In conclusion this thesis will reveal that the influence of politico-theoretical aspects on the historical development of the New Left has been given too little consideration and that the New Left's fate cannot be adequately explained by external factors but demands the consideration of the very development of theories and the practical conclusions organisations reached regarding their social economic and cultural circumstances This work will be the first to provide an insight into the potential of such a theoretical explanation for an understanding of the specific developments of the post-1968 West German New Left
