making is overshadowed by the drama of judicial decision making it is a vital part of the judicial process Peter Graham Fish examines the structure and legislative history of the various institutions of the federal judicial administration their development and their operation He focuses on the lower courts to show that although it is delimited by a network of formal institutions the federal judicial administration is characterized by informality and voluntarism and depends as he emphasizes on the roles played by individual judges As administrators judges become deeply involved in politics and Peter Graham Fish concentrates on the politics of the national judicial administration Within this framework he raises enduring issues Shall local federal judges be wholly independent or must they conform to uniform standards of law and administration Shall administration be separate and diffused or united and centralized Shall politics be superior or subordinate to so called standards of efficiency Shall the interests of trial judges prevail over or be subordinate to the regional and national interests of appellate judges How shall money manpower jurisdictional and structural changes be distributed among the courts To what extent if any should judges modify their behavior or institutions to meet external criticism Originally published in 1973 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905     A Companion to Federico García Lorca Federico Bonaddio, 2007 Lorca icon and polymath in all his manifestations     **Dismantlings** Matt Tierney, 2019-12-15 For the master's tools the poet Audre Lorde wrote will never dismantle the master's house Dismantlings is a study of literary political and philosophical critiques of the utopian claims about technology in the Long Seventies the decade and a half before 1980 Following Alice Hilton's 1963 admonition that the coming years would bring humanity to a crossroads machines for HUMAN BEINGS or human beings for THE MACHINE Matt Tierney explores wide ranging ideas from science fiction avant garde literatures feminist and anti racist activism and indigenous eco philosophy that may yet challenge machines of war control and oppression Dismantlings opposes the language of technological idealism with radical thought of the Long Seventies from Lorde and Hilton to Samuel R Delany and Ursula K Le Guin to Huey P Newton John Mohawk and many others This counter lexicon retrieves seven terms for the contemporary critique of technology Luddism a verbal and material combat against exploitative machines communion a kind of togetherness that stands apart from communication networks cyberculture a historical conjunction of automation with racist and militarist machines distortion a transformative mode of reading and writing revolutionary suicide a willful submission to the risk of political engagement liberation technology a synthesis of appropriate technology and liberation theology and thanatopography a mapping of planetary technological ethics after Auschwitz and Hiroshima Dismantlings restores revolutionary language of the radical Long Seventies for reuse in the digital present against emergent technologies

of exploitation subjugation and death      **New Directions in Teaching Secondary School Science** Paul DeHart Hurd,1969 Ten years ago a massive reform movement was generated to improve science teaching in America New science courses were developed and tested in the schools They not only contained new subject matter but were written in terms of goals representing a new era in science teaching These courses were designed to be taught differently and learned differently from the science courses of the past It is these trends in curriculum development instruction and learning along with their underlying philosophical and psychological assumptions that are critically examined in this book      **The Gospels of the Marginalized** Marvin W. Meyer,2012-10-16 The Gospels of the Marginalized provides an exciting new study of three of the most maligned figures in the New Testament story of Jesus Thomas usually considered the quintessential doubter among the disciples Mary Magdalene characterized as a repentant prostitute during much of the history of the church and Judas Iscariot presented as the despicable disciple of Jesus who betrayed his master for money In this book Marvin Meyer one of the most prominent of the scholars of gnostic texts and other early Christian literature offers fresh and accurate translations of the Gospels of Thomas Mary and Judas with their proclamation of the good news of the wisdom of Jesus and he uses these gospels as the occasion to reexamine the place of Thomas Mary Magdalene and Judas Iscariot in the Jesus movement His striking analysis suggests that Thomas was no doubter that Mary Magdalene was a beloved disciple in the inner circles of disciples around Jesus and that the tale of Judas Iscariot as betrayer of Jesus is a piece of fiction Meyer adds a Gospel of the Redeemed as a vivid illustration of how the gospel story of Jesus might read with Jesus as a Jewish teacher of wisdom and Thomas Mary and Judas restored as loyal followers of the teacher from Nazareth      **NASA Technical Translation** ,1967      **Hearings, Reports and Prints of the Senate Committee on Commerce** United States.
