**The Early Modern Italian Domestic Interior, 1400-1700** Dr Elizabeth Carroll Consavari, Dr Stephanie R Miller, Professor Erin J Campbell, 2014-01-28 Emphasizing on the one hand the reconstruction of the material culture of specific residences and on the other the way in which particular domestic objects reflect shape and mediate family values and relationships within the home this volume offers a distinct contribution to research on the early modern Italian domestic interior Though the essays mainly take an art historical approach the book is interdisciplinary in that it considers the social implications of domestic objects for family members of different genders age and rank as well as for visitors to the home By adopting a broad chronological framework that encompasses both Renaissance and Baroque Italy and by expanding the regional scope beyond Florence and Venice to include domestic interiors from less studied centers such as Urbino Ferrara and Bologna this collection offers genuinely new perspectives on the home in early modern Italy

**The Domestic Interior and the Self in Contemporary Photography** Jane Simon, 2023-09-18 By carefully conceptualising the domestic in relation to the self and the photographic this book offers a unique contribution to both photography theory and criticism and life narrative studies Jane Simon brings together two critical practices into a new conversation arguing that artists who harness domestic photography can advance a more expansive understanding of the autobiographical Exploring the idea that self representation need not equate to self portraiture or involve the human form artists from around the globe are examined including Rinko Kawauchi Catherine Opie Dayanita Singh Moyra Davey and Elina Brotherus who maintain a personal gaze at domestic detail By treating the representation of interiors domestic objects and the very practice of photographic seeing and framing as autobiographical gestures this book reframes the relationship between interiors and exteriors public and private and insists on the importance of domestic interiors to understandings of the self and photography The book will be of interest

**Old Women and Art in the Early Modern Italian Domestic Interior** Erin J. Campbell, 2016-03-09 Though portraits of old women mediate cultural preoccupations just as effectively as those of younger women the scant published research on images of older women belies their significance within early modern Italy This study examines the remarkable flowering largely overlooked in portraiture scholarship to date of portraits of old women in Northern Italy and especially Bologna during the second half of the sixteenth century when as a result of religious reform the lives of women and the family came under increasing scrutiny *Old Women and Art in the Early Modern Italian Domestic Interior* draws on a wide range of primary visual sources including portraits religious images architectural views prints and drawings as well as extant palazzi and case furnishings and domestic objects created by the leading artists in Bologna including Lavinia Fontana Bartolomeo Passerotti Denys Calvaert and the Carracci The study also draws on an array of historical sources including sixteenth century theories of portraiture prescriptive writings on women and the family philosophical and practical treatises on the home economy sumptuary legislation books of secrets prescriptive writings on old age and household inventories to provide new historical perspectives on the domestic life of the propertied classes in Bologna during the period Author Erin Campbell contends that these images of unidentified women are not only crucial to our understanding of the cultural operations of art within the early modern world but also by working from the margins to revise the center provide an opportunity to present new conceptual frameworks and question our assumptions about old age portraiture and the domestic interior

Interior Design and Identity Susie McKellar, Penny Sparke, 2004-11-27 This chronologically arranged set of case studies looks at how interior design has constantly redefined itself as a manifestation of culture from the eighteenth century to the present day The book looks at the amateur activities of female home makers in search of creative outlets and married couples seeking to modernize their homes as well as the contributions of early professional female interior decorators and later male interior designers It also considers the more anonymous role of commercial enterprises such as hairdressing salons cruise ships or modern offices Issues relating to interiority gender and the relationship of the public sphere are also considered opening up a new level of design historical enquiry

*House and Home in Modern Japan* Jordan Sand, 2020-05-11 A house is a site the bounds and focus of a community It is also an artifact a material extension of its occupants' lives This book takes the Japanese house in both senses as site and as artifact and explores the spaces commodities and conceptions of community associated with it in the modern era As Japan modernized the principles that had traditionally related house and family began to break down Even where the traditional

class markers surrounding the house persisted they became vessels for new meanings as housing was resituated in a new nexus of relations The house as artifact and the artifacts it housed were affected in turn The construction and ornament of houses ceased to be stable indications of their occupants social status the home became a means of personal expression and the act of dwelling was reconceived in terms of consumption Amid the breakdown of inherited meanings and the fluidity of modern society not only did the increased diversity of commodities lead to material elaboration of dwellings but home itself became an object of special attention its importance emphasized in writing invoked in politics and articulated in architectural design The aim of this book is to show the features of this culture of the home as it took shape in Japan *A Companion to Contemporary Design since 1945* Anne Massey, 2019-04-22 A critical overview of contemporary design and its place within the broader context of art history *A Companion to Contemporary Design since 1945* introduces readers to a collection of specially commissioned essays exploring the complex areas of design that emerged through the latter half of the twentieth century design history design methods design studies and more recently design thinking The book delivers a thoughtful overview of all design disciplines and also strives to stimulate inter disciplinary debate and examine unconsidered convergences among design applications in different fields By offering a new perspective on design the articles assembled here present a challenging account of the boundaries between design history and its cognate disciplines especially art history The volume comprises five sections Time Place Space Objects and Audiences that discuss environments for design and how we interact with designed objects and spaces Notable features include 24 new essays reflecting the current state of design history and theory and examining developments on a global basis Contributions by eminent scholars and practitioners from around the globe Enriched throughout with illustrations *A Companion to Contemporary Design since 1945* provides a new and thought provoking revision of our conception and understanding of contemporary design that will be essential reading for students at both undergraduate and graduate levels as well as researchers and teachers working in design history theory and practice and in related fields **The Handbook of Interior Design** Jo Ann Asher Thompson, Nancy Blossom, 2015-02-09 *THE HANDBOOK OF INTERIOR DESIGN* The Handbook of Interior Design offers a compilation of current works that inform the discipline of interior design These examples of design scholarship present a detailed overview of current research and critical thinking The volume brings together a broad range of essays from an international group of scholars who represent the diversity of work in the field Intended to engage those involved in the study and practice of interior design the Handbook considers the connections between theory research and practice that shape the field of interior design as well as the theoretical perspectives that inform the field It contains over thirty essays which together demonstrate the wide range of opinions and knowledge in the discipline grouped in sections to reflect key components of their content A close reading of the essays will uncover contradictory as well as supporting positions on aspects of interior design challenging the reader to think critically and develop a personal stance toward the subject **Interiors and Interiority**

Ewa Lajer-Burcharth, Beate Söntgen, 2015-11-13 Veranschaulichungsformen von Innerlichkeit finden in der Moderne in Darstellungen des Interieurs ihr prägnantes Bild. Die Beiträge der Publikation untersuchen die Verbindungen zwischen architektonischen Innenräumen visuellen und literarischen Darstellungen von Interieurs und dem Konzept der Innerlichkeit vom 18. Jahrhundert bis heute. Jene Darstellungen sind Effekt, aber auch Produzenten spezifischer Vorstellungen von

Innerlichkeit als einer, wenn nicht der subjektkonstituierenden Praxis der Moderne. **Faded and Threadbare Historic Textiles and their Role in Houses Open to the Public** Margaret Ponsonby, 2016-04-15 Many historic houses that open to the public in England and Wales particularly those owned by the National Trust preserve their contents rather than restore them to a particular period. The former owners of these houses often retained objects from various periods and this layering of history produces interiors that look aged and patinated. Although the reason for this preservation and lack of fashionable renewal can be attributed to declining economic fortunes in the twentieth century, there are many examples of families practising this method of homemaking over a much longer period. Taking National Trust properties as its central focus, this book examines three interlocking themes to examine the role of historic textiles. Firstly, it looks at houses with preserved contents together with the reasons for individual families choosing this lifestyle. Secondly, the role of the National Trust as both guardian and interpreter of these houses and their collections, and finally and most importantly, the influence of textiles to contribute to the appearance of interiors and their physical attributes that carry historical resonances of the past. The importance of preserved textiles in establishing the visual character of historic houses is a neglected area, and therefore the prominence given to textiles in this project constitutes an original contribution to the study of these houses. Drawing upon a range of primary sources including literature produced by the National Trust for their sites and documentary sources for the families and their houses such as diaries, letters and household accounts, the study takes a broad approach that will be of interest to all those with an interest in material culture, heritage collecting, studies and cultural history. **Designing the**

**French Interior** Anca I. Lasc, Georgina Downey, Mark Taylor, 2015-10-22 Designing the French Interior traces France's central role in the development of the modern domestic interior from the pre-revolutionary period to the 1970s and addresses the importance of various media including drawings, prints, pattern books, illustrated magazines, department store catalogs, photographs, guidebooks and films in representing and promoting French interior design to a wider audience. Contributors to this original volume identify and historicize the singularity of the modern French domestic interior as a generator of reproducible images, a site for display of both highly crafted and mass-produced objects and the direct result of widely circulated imagery in its own right. This important volume enables an invaluable new understanding of the relationship between architecture, interior spaces, material cultures, mass media and modernity. **The Handbook of Interior**

**Architecture and Design** Graeme Brooker, Lois Weinthal, 2013-10-24 The Handbook of Interior Architecture and Design offers a compelling collection of original essays that seek to examine the shifting role of interior architecture and interior

design and their importance and meaning within the contemporary world Interior architecture and interior design are disciplines that span a complexity of ideas ranging from human behaviour and anthropology to history and the technology of the future Approaches to designing the interior are in a constant state of flux reflecting and adapting to the changing systems of history culture and politics It is this process that allows interior design to be used as evidence for identifying patterns of consumption gender identity and social issues The Handbook of Interior Architecture and Design provides a pioneering overview of the ideas and arrangements within the two disciplines that make them such important platforms from which to study the way humans interact with the space around them Covering a wide range of thought and research the book enables the reader to investigate fully the changing face of interior architecture and interior design while offering questions about their future trajectory
