The Real Facts Of Life Margaret Jackson, 2005-08-04 During the last twenty years feminist research into the history of sexuality has made important contributions to the theoretical understanding of the relationship between sexuality and male power When sexology became established as a science feminists had for many years been engaged in a struggle to change male sexuality by waging campaigns against male sexual violence and abuse of women and children by challenging the institutions of marriage and prostitution and by asserting in theory and in practice the right to female sexual autonomy Despite the excellent research published in this important and fascinating aspect of feminist history there are still gaps in our knowledge The Real Facts of Life aims to fill these gaps Why and when did sexuality become an important political issue for the 19th century feminist What was the history of campaigns against double standards of sexual morality Why were feminists so divided in their views about sexual freedom and its relationship to women's emancipation The analysis of these issues illuminates past and present feminists ideas and theories about sexuality Margaret Jackson's main aims in The Real Facts of Life are to make a contribution towards understanding the history of the struggle for female sexual autonomy to provide a revolutionary feminist analysis of the social construction of sexuality and its relationship to male power and to provide a critique of sexology and the male defined concept of sexual liberation

Resources in Education, 1994-05 Ding Dong! Avon Calling! Katina Manko, 2021-06-04 The Avon Lady acquired iconic status in twentieth century American culture This first history of Avon tells the story of a direct sales company that was both a giant in its industry and a kitchen table entrepreneurial venture With their distinctive greeting at the homes across the country Ding

Dong Avon Calling sales ladies brought door to door sales of makeup perfume and other products to American women beginning in 1886 Working for the company enabled women to earn money on the side and even become financially independent in a respectable profession while selling Avon's wares to friends family and neighborhood networks Ding Dong Avon Calling is the story of women and entrepreneurship and of an innovative corporation largely managed by men that empowered women to exploit networks of other women and their community for profit Founded in the late nineteenth century Avon grew into a massive international direct sales company in which millions of ambassadors of beauty sat in their customers living rooms with a sample case catalogue and a conversational sales pitch Avon was unique in American business history for its reliance on women as representatives promising them not just sales positions but a chance to have a business of their own Being an Avon Lady avoided the stigma that was often attached to middle class women's work outside the home and enabled women to maintain the delicate balance of work and family Drawing for the first time on company records she helped acquire for archives Katina Manko illuminates Avon's inner workings uncovers the lives of its representatives and shows how women slowly rose into the company's middle and upper management Avon called itself The Company for Women and championed its high flyers but its higher echelons remained dominated by men well into the 1990s Avon is more than perfumes and toiletries but a brand built on women knocking on doors and chatting up neighbors It thrived for more than a century through the deceptively simple technique of women directly selling beauty to women at home *Feminist*

Perspectives on Family Care Nancy R. Hooyman, Judith Gonyea, 1995-08-29 Today women find themselves playing an ever increasing role in caring for older family members who are frail developmentally disabled or suffering from serious mental illness While this role of women as caregivers has been documented the actual impact on the lives of women has remained largely unstudied In this volume the authors examine caregiving as a central feminist issue looking at its impact on women socially personally and economically The authors review how changing family structures the changing economy and workforce and the changing health care demands of needy adults have impacted on women's lives They critique existing public and private policies demonstrating a need for fundamental structural changes in social institutions and attitudes to improve the lives of women Finally they propose a social model of care that is oriented toward gender justice recognition of the work of caring and its impact upon women socially personally and economically For students scholars and practitioners in the field of gerontology gender studies and social work this book is a must **Abortion and Woman's Choice**

Rosalind Pollack Petchesky, 2024-03-12 The best book I have read on the politics of reproduction It raises complex theoretical and strategic questions in a clear and accessible way and represents an important breakthrough in feminist thinking Leslie Doyal author of *What Makes Women Sick* This prize winning study is the definitive work on the politics of abortion and fertility Rosalind Pollack Petchesky provides overwhelming evidence against the anti abortion forces and in the process takes up issues of teenage sexuality the politics of eugenics and women's relationship to medical technology The book's continuing

relevance is a tribute to the author and a sad indictment of contemporary politics The Cultural Study of Work Douglas A. Harper, Douglas Harper, Helene M. Lawson, 2003-11-11 A reader for a sociology course reprinting 23 articles from professional journals They cover work as social interaction socialization and identity experiencing work work cultures and social structure and deviance at work **Tidal Wave** Sara Evans, 2010-05-11 Forty years ago few women worked married women could not borrow money in their own names schools imposed strict quotas on female applicants and sexual harassment did not exist as a legal concept Yet despite the enormous changes for women in America since 1960 and despite a blizzard of books that continue to argue about women's proper place there has not been a serious definitive history of what happened until now Sara M Evans is one of our foremost historians of women in America Her book *Personal Politics* is a classic that captured the origins of the modern women's movement its successor *Born for Liberty* set the standard for sweeping histories of women In *Tidal Wave* Evans again sets the standard by drawing on an extraordinary range of interviews archives and published sources to tell the incredible story of the past forty years in women's history Encompassing both the so called Second Wave of feminism's initial explosion in the 1960s and 1970s and the Third Wave of the 1980s and 1990s she challenges traditional interpretations at every step She shows that the Second Wave was beset by fragmentation and infighting from the beginning its slogan the personal is political was both a rallying cry and the seed of its self destruction Yet the Third Wave has been surprisingly strong and almost all women today might be thought of as feminists in practice if not in name From national events and from leaders of institutions such as NOW and Emily's List to little known local stories of women who simply wanted more out of their lives only to discover that they were creating a movement *Tidal Wave* paints a vast canvas of a society in upheaval from politics to economics to popular culture to marriage and the family Today Evans argues the women's movement is as alive and vital as ever precisely because it has enjoyed such stunning success Though not all women are comfortable with the term feminist the vast majority hold jobs and enjoy previously unimaginable personal freedoms Never before in American or world history have women experienced full and equal citizenship and opportunity At last the extraordinary story can be told **Elusive Equality** Susan Gluck Mezey, 2003 All men may be created equal in the United States but more than 30 years after Congress proposed the Equal Rights Amendment can the same be said for women *Elusive Equality* offers a clear understanding of how government institutions the executive branch Congress and state legislatures as well as the federal courts affect the legal status of women Surveying the judicial and public policy issues central to the identification and protection of women's rights Susan Mezey traces the developing legal parameters of gender equality From early court rulings that prohibited employment discrimination and sexual harassment through today's decisions on reproductive rights and same sex relationships Mezey analyzes the broader political context within which critical judicial decisions have been made **Off-ramps and On-ramps** Sylvia Ann Hewlett, 2007 Examines the impact that a leave to care for children or elderly parents has on the career of professional

women and proposes strategies that companies can undertake to retain and reintegrate talented female employees *Self Knowledge and Guide to Sex Instruction: Vital Facts of Life for All Ages* Thomas W. Heading Home Shani Orgad, 2019-01-08 Women in today's advanced capitalist societies are encouraged to lean in The media and government champion women's empowerment In a cultural climate where women can seemingly have it all why do so many successful professional women lawyers financial managers teachers engineers and others give up their careers after having children and become stay at home mothers How do they feel about their decision and what do their stories tell us about contemporary society Heading Home reveals the stark gap between the promise of gender equality and women's experience of continued injustice Shani Orgad draws on in depth personal and profoundly ambivalent interviews with highly educated London women who left paid employment to take care of their children while their husbands continued to work in high powered jobs Despite identifying the structural forces that maintain gender inequality these women still struggle to articulate their decisions outside the narrow cultural ideals that devalue motherhood and individualize success and failure Orgad juxtaposes these stories with media and policy depictions of women work and family detailing how even as their experiences fly in the face of fantasies of work life balance and marriage as an egalitarian partnership these women continue to interpret and judge themselves according to the ideals that are failing them Rather than calling for women to transform
