New Frontier Vol 8 The American Chronicles:

Aryan Cowboys Evelyn A. Schlatter, 2009-06-03 During the last third of the twentieth century white supremacists moved both literally and in the collective imagination from midnight rides through Mississippi to broadband wired cabins in Montana But while rural Montana may be on the geographical fringe of the country white supremacist groups were not pushed there and they are far from fringe elements of society as many Americans would like to believe Evelyn Schlatter's startling analysis describes how many of the new white supremacist groups in the West have co-opted the region's mythology and environment based on longstanding beliefs about American character and Manifest Destiny to shape an organic home-grown movement Dissatisfied with the urbanized culturally progressive coasts disenfranchised by affirmative action and immigration white supremacists have found new hope in the old ideal of the West as a land of opportunity waiting to be settled by self-reliant traditional families Some even envision the region as a potential white homeland Groups such as Aryan Nations The Order and Posse Comitatus use controversial issues such as affirmative action anti-Semitism immigration and religion to create sympathy for their extremist views among mainstream whites while offering a solution in the popular conception of the West as a place of freedom opportunity and escape from modern society **Aryan Cowboys** exposes the exclusionist message of this American ideal while documenting its dangerous appeal **Reports and Documents** United States. Geppert, 2018-04-25 *Imagining Outer Space* makes a captivating advance into the cultural history of outer space and extraterrestrial life in the European imagination How was outer space conceived and communicated What promises of interplanetary expansion and cosmic colonization propelled the project of human spaceflight to the forefront of twentieth century modernity In what way has West European astroculture been affected by the continuous exploration of outer space Tracing the thriving interest in spatiality to early attempts at exploring imaginary worlds beyond our own the book analyzes contact points between science and fiction from a transdisciplinary perspective and examines sites and situations where utopian images and futuristic technologies contributed to the omnipresence of fantasmatic thought Bringing together state of the art work in this emerging field of historical research the volume breaks new ground in the historicization of the Space Age **The Pageant of America, a Pictorial History of the United States**, 1929 *Subject Index of the Modern Works Added to the British Museum Library* British Museum. Virginia soldier in the Revolutionary War After three years of service on the Kentucky frontier he returned home to participate as a sutler in the Yorktown campaign Following the war he settled in the Piedmont but by 1785 his yearning to return westward led him to take his family to Kentucky where they settled for a few years in the upper Green River country He recorded his narrative in 1827 in the town of Columbia of which he was a founder A keen observer of people and events Trabue captures experiences of everyday life in both the Piedmont and frontier Kentucky His notes on the settling of Kentucky touch on many important moments in the opening of the Bluegrass region **The Book of Mars** Stuart Clark, 2022-11-10 From myth to Musk astrology to astronomy Dr Stuart Clark selects the very best writing about the Red Planet From its very first sighting Mars has been a source of fascination for humanity Named for the Roman god of war this red planet has been explored more than any other beyond Earth and continues to occupy a distinctive place in our imagination It is an environment that may even foster life In *The Book of Mars* Dr Stuart Clark selects one hundred pieces of writing about the planet It is a collection that brings together fact and fiction dreams and fears centuries of observation and more recent feats of interstellar exploration From classic writers of science fiction Stanley G Weinbaum Arthur C Clarke H G Wells Ray Bradbury Pamela Sargent Roger Zelazny to distinguished experts in astronomy astrobiology and aerospace engineering from Hugo and Nebula Award winning authors Kim Stanley Robinson Mary Robinette Kowal to trail blazing journalists and science communicators from Andy Weir's *The Martian* to Elon Musk's SpaceX programme *The Book of Mars* is an extraordinary overview both of the Red Planet and of the way scientific investigation diffuses into culture

Recovering History, Constructing Race Martha Menchaca, 2001 In this book it is my intent to write about the Mexican American people's Indian White and Black racial history In doing so I offer an interpretive historical analysis of the experiences of the Mexican Americans ancestors in Mexico and the United States This analysis begins with the Mexican Americans prehistoric foundations and continues into the late twentieth century My focus however is on exploring the legacy of racial discrimination that was established in the aftermath of the Spanish conquest and was later intensified by the United States government when in 1848 it conquered northern Mexico presently the U S Southwest and annexed it to the United States Menchaca 1999 3 The central period of study ranges from 1570 to 1898 Page 1 **Athenaeum and Literary Chronicle**, 1853 [International Aspects of Development in Latin America](#) Gary S Elbow, 1977 *Neo-Confederacy* Euan Hague, Heidi Beirich, Edward H. Sebesta, 2009-09-15 A century and a half after the conclusion of the Civil War the legacy of the Confederate States of America continues to influence national politics in profound ways Drawing on magazines such as *Southern Partisan* and publications from the secessionist organization League of the South as well as DixieNet and additional newsletters and websites *Neo Confederacy* probes the veneer of this movement to reveal goals far more extensive than a mere celebration of ancestry Incorporating groundbreaking essays on the Neo Confederacy movement this eye opening work encompasses such topics as literature and music the ethnic and cultural claims of white Anglo Celtic southerners gender and

sexuality the origins and development of the movement and its tenets and ultimately its nationalization into a far reaching factor in reactionary conservative politics The first book length study of this powerful sociological phenomenon Neo Confederacy raises crucial questions about the mainstreaming of an ideology that founded on notions of white supremacy has made curiously strong inroads throughout the realms of sexist homophobic anti immigrant and often orthodox Christian populations that would otherwise have no affiliation with the regionality or heritage traditionally associated with Confederate history **Chronicles of Oklahoma** James Shannon Buchanan,1952 [A Global History of Gold Rushes](#) Benjamin Mountford,Stephen Tuffnell,2018-10-16 Nothing set the world in motion like gold Between the discovery of California placer gold in 1848 and the rush to Alaska fifty years later the search for the precious yellow metal accelerated worldwide circulations of people goods capital and technologies A Global History of Gold Rushes brings together historians of the United States Africa Australasia and the Pacific World to tell the rich story of these nineteenth century gold rushes from a global perspective Gold was central to the growth of capitalism it whetted the appetites of empire builders mobilized the integration of global markets and economies profoundly affected the environment and transformed large scale migration patterns Together these essays tell the story of fifty years that changed the world
