New Ghosts Old Dreams Chinese Rebel Voices:

New Ghosts, Old Dreams Geremie Barmé, Linda Jaivin, 1992 **China beyond the Headlines** Lionel M. Jensen, Timothy B. Weston, 2000-03-22 This unique book takes the reader beyond the headlines to explore a China few Westerners have seen. The authors argue that the great gap between what specialists understand and the general public believes has led to distorted and potentially dangerous misunderstandings of China. Seeking to bridge that gap, a group of prominent scholars and activists challenge readers to move past the usual images of China presented by the media and to think about the common problems shared by China and the United States. In a morally engaged spirit, they explore such issues as environmental degradation, unemployment, growing inequality, ethnicity, human rights, corruption, and changing images of women to bring to life the fabric of contemporary Chinese life and how it twines around the political consciousness of Americans.

Chinese Society Elizabeth J. Perry, Mark Selden, 2003 This new edition brings the text fully up to date, adding three new chapters on Falun Gong, Christianity, and land struggles. *Chinese Society* provides a comprehensive resource for both undergraduates and specialists in Chinese Studies.

The Oxford History of Modern China Jeffrey N. Wasserstrom, 2022-01-27 excellent LSE Review of Books China is the world's most populous country and newest superpower, whose place on the international stage can only be understood through the lens of its modern history. *The Oxford History of Modern China* is essential reading for anyone who wants to understand this rising power in what promises to be the Chinese century. Covering the period of dramatic shifts and surprising transformations which comprise China's modern history, the book spans from the founding of the Qing Dynasty 1644-1912 to the present day. It introduces readers to important but often overlooked events in China's past, such as the bloody Taiping Civil War 1850-1864, and also sheds new light on more familiar landmarks in Chinese history, such as the Opium War 1839-1842, the Boxer Uprising of 1900, the rise to power of the Chinese Communist Party in 1949, the Tiananmen protests and Beijing Massacre of 1989, and China's rise to economic superpower status in the 21st century. A new chapter for this edition brings the story into the era of Xi Jinping.

Popular Protest And Political Culture In Modern China Jeffrey N. Wasserstrom, 2018-02-07 This innovative and widely praised volume uses the dramatic occupation of Tiananmen Square as the foundation for rethinking the cultural dimensions of Chinese politics. Now in a revised and expanded second edition, the book includes enhanced coverage of key issues such as the political dimensions of popular culture, addressed in a new chapter on Chinese rock and roll by Andrew Jones, and the struggle for control of public discourse in the post-1989 era, discussed in a new chapter by Tony Saich. Two especially valuable additions to the second edition are art historian Tsao Tsing-yuan's eyewitness account of the making of the Goddess of Democracy and an exposition of Chinese understandings of the term revolution, contributed by Liu Xiaobo, one of China's most controversial dissident intellectuals. The volume also includes an analysis by noted social theorist and historical sociologist Craig C. Calhoun of the similarities and differences between the new social movements of recent decades and the old social movements of earlier

eras TEXT CONCLUSION To facilitate classroom use the volume has been reorganized into groups of interrelated essays The editors introduce each section and offer a list of suggested readings that complement the material in that section **In the Red** Geremie Barmé,1999 A leading observer of Chinese literature society and politics lifts the veil on the culture wars that have raged between officials and dissidents in the period before and after the June 4 1989 Tiananmen Square massacre

Tiananmen Fictions outside the Square Belinda Kong,2012-05-04 An exciting analysis of the myriad literary effects of Tiananmen Belinda Kong s *Tiananmen Fictions Outside the Square* is the first full length study of fictions related to the 1989 movement and massacre More than any other episode in recent world history Tiananmen has brought a distinctly politicized Chinese literary diaspora into stark relief Kong redefines Tiananmen s meaning from an event that ended in local political failure to one that succeeded in producing a vital dimension of contemporary transnational writing today She spotlights key writers Gao Xingjian Ha Jin Annie Wang and Ma Jian who have written and published about the massacre from abroad Their outsider distanced perspectives inform their work and reveal how diaspora writers continually reimagine Tiananmen s relevance to the post 1989 world at large Compelling us to think about how Chinese culture identity and politics are being defined in the diaspora *Tiananmen Fictions Outside the Square* candidly addresses issues of political exile historical trauma global capital and state biopower Chinese Entertainment Kwok-Bun Chan,2014-06-11 Scholarly studies of Chinese culture history and society both within and outside of China generally pay little attention to leisure entertainment and amusement though it has long been known that this aspect of life gives a deep understanding of the psyche and soul and the hopes and fears of a person Leisure is a less coerced upon mandatory human conduct than work certainly leisurely conduct is more voluntary expressive and creative But when seen as human behaviour leisure and entertainment cannot be separated from history heritage ethnicity the community family and kin rituals and customs thus a collective activity and its constraints on the person This book examines a variety of genre of Chinese entertainment from singing clubs Cantonese opera and film to Chinese rock and tourism Though formally voluntary Chinese entertainment when entangled with ethnicity heritage and history is ironically a site of both enjoyment and struggle both pleasure and suffering This book was originally published as a special issue of *Visual Anthropology* *The Oxford Illustrated History of Modern China* Jeffrey N. Aspirational Chinese in Competitive Social Repositionings Jia Gao, 2023-08-08 In the past four or so decades a significant amount of research

efforts has been made to examine the rapid and constant social changes in China. However, most of the literature has focused on either macro or micro level issues and what has not been adequately analysed is how the majority of ordinary people has reacted to and influenced the changes. This inadequacy has affected our understanding of Chinese society, its dynamics and the changing trends. Drawing upon a new perspective of competitive social repositioning and the evidence recorded in numerous recent publications and interview data, this book seeks to re-examine the ever-changing but under-researched societal dynamics driving social transformations in China from 1964 when the communist heir narrative was rebranded and utilised to 2000 when Jiang Zemin formulated the Three Represents theory to modify the ideological political thinking of China's ruling elites. This analysis focuses on how a high proportion of aspirational citizens have kept repositioning themselves in China's changing distributions of social resources and social structure, how their attitudes and behaviours have been shaped over time, what characteristics of their choices are at different stages and how their preferences have resulted in the zig-zag patterns of China's recent social change.

Language Arts in Asia Christina DeCoursey, 2012-01-17

This volume is the first of a series contributing to the academic study of Language Arts as an English language teaching paradigm. Language Arts has been widely used in native English speaking countries including Australia and New Zealand. Its recent adoption into the second language teaching curriculum in Hong Kong as well as similar initiatives within secondary and tertiary education in mainland China enhances its interest to scholars studying second language teaching and learning in Asian contexts. This book offers many papers and discussions of interest to teachers, language professionals, scholars and administrators. Its chapters explore current topics in Language Arts research including trends in the rapprochement of stylistics and linguistics, teaching approaches and learning outcomes. At the same time, they offer diverse theoretical and methodological approaches of interest to the practitioner and policy maker as well as the researcher. The value of this volume lies particularly in strengthening the theoretical and methodological foundations of Language Arts. The use of literature and the arts in humanist education has a long history within Europe, being traditionally appreciated for its ability to transform leaders, instill finer sensibilities and question social ills. In its postcolonial incarnations, as the traditional subject areas were informed by critical and linguistic theories, language arts subject areas were less often used as they were understood to offer opportunities to analyse their functions as apology for leaders coopting the young and pacifying dissent, but less often used to teach second language skills. Language Arts curricula arising since the 1980s have increasingly embraced authentic voices, styles and genres. Contemporary Language Arts curricula use literature to teach reading-based and communication skills in conjunction with critical and creative thinking. The movement of English language education beyond native English shores has placed Language Arts into a World Englishes frame and therefore its curricula have included the teaching of ethics, civics and intercultural sensitivity. The explosion of media and digital communications of the 1990s led to the adoption of media literacy as a crucial Language Arts skill. As digital innovations continue to impact the teaching of English, Language Arts has

adopted multiliteracies These developments are represented in the papers included in this volume **China's Great Proletarian Cultural Revolution** Woei Lien Chong, 2002 Treating China's Cultural Revolution as much more than a political event this innovative volume explores its ideological dimensions The contributors focus especially on the CR's discourse of heroism and messianism and its demonization of the enemy as reflected in political practice official literature and propaganda art arguing that these characteristics can be traced back to hitherto neglected undercurrents of Chinese tradition Moreover while most studies of the Cultural Revolution are content to point to the discredited cult of heroism and messianism this book also explores the alternative discourses that have flourished to fill the resulting vacuum The contributors analyze the intense intellectual and artistic ferment in post Mao China that embody resistance to CR ideology as well as the urgent quest for authentic individuality new forms of social cohesion and historical truth Contributions by Anne Marie Brady Woei Lien Chong Lowell Dittmer Monika Gaenssbauer Nick Knight Stefan R Landsberger Nora Sausmikat Barend J ter Haar Natascha Vittinghoff and Lan Yang *The Spirit of Individualism* Lansheng Zhang, 2023-02-02 This book is about avant garde art in Shanghai in the 1980s which challenges the narrative in the current discourse on the appearance of contemporary art in China Offering fresh perspectives and new insights into the art and the artists of this period the book includes critical events in Shanghai that will attract the serious attention of art professionals and collectors The emergence of the Shanghai art scene in the 1980s mirrors the revitalisation of Shanghai that was tasked to lead China's economic development trajectory onto the world stage Shanghai with its semi colonial political economic and cultural history including the strong legacy of the early twentieth century modernist art movement has played a vital role in China's modernisation and presents itself as a unique case in the evolution of contemporary art in China
