Pension Security in the 21st Century Gordon L. Clark,Noel Whiteside,2003-11-20 Future pension provision is highly controversial it juxtaposes the challenges of old age security with the exigencies of global finance Clearly demography finance and public accountability are crucial to current political debate But there are other important issues The problems of paying for the retirement of the baby boom generation has exposed profound differences in the advanced economies in terms of their financial institutions and infrastructure Pension security has been re conceptualised in part as an issue of global finance and international comparative advantage bringing with it a re definition of risk and pension security This book examines how major continental European and Anglo American countries are dealing with these pressures to what extent these responses are beginning to redraw the boundaries between public and private responsibility for pension security and what the implications of public private partnerships are for the financial organisation and infrastructure of European and global financial markets and the nation based welfare state The contributors all involved in policy development in their respective countries assess the comparative strengths and weaknesses of recent pension initiatives in the light of continuing fiscal constraints and current market instabilities Using a tight comparative framework the book questions assumed divisions between states and markets as new divisions between public and private spheres of pension responsibility require new regulatory machinery to guarantee future security This book provides a vital reference point in understanding pension security in the 21st century for academics and

postgraduates in the social sciences economics and finance geography politics and social policy policy makers in OECD countries and industry professionals

The Egyptian Economy Hanā' Khayr al-Dīn, 2008 This volume aims to evaluate the impact of recent reform policies and highlight priority areas for further reform at the macroeconomic and institutional levels Topics addressed include growth distribution and poverty reduction unemployment and job creation and the new pension system

The Evolution of Pension Systems in Eastern Europe and Central Asia David C. Lindeman, Michal Rutkowski, Oleksiy Sluchynskyy, 2000-01-01 Since the early 1990s the transition economy countries of Eastern Europe and Central Asia have had to adapt their pension systems in minor and often very major ways Some of the changes relate to shrinking contribution bases and the inability of government s to finance prior commitments while still having to protect the pensioned populations from poverty Other changes however reflect the need to make pension systems more sustainable in light of forthcoming demographic changes The reforms entail a move away from a single pillar pay as you go defined benefit systems toward multi pillar systems that include a funded defined contribution component and change that convert remaining pay as you go components into ones that are more self sustaining and transparent The paper describes ongoing developments assesses the effects of current and forthcoming challenges in light of potential labor market changes and examines choices for a new pensions system with respect to the organization administration guarantees transition arrangements participation requirements role of the government annuitization and other factors The paper concludes that though a one size fits all approach is clearly not appropriate some practices emerging from the experiences in this region and elsewhere may offer useful guidance to others as they undertake deeper pension reforms
