New Internationalism:

Pacific development and the new internationalism Richard H. Solomon, 1988 *Canada, Latin America, and the New Internationalism* Brian J.R. Stevenson, 2000-12-06 In *Canada Latin America and the New Internationalism* Brian Stevenson argues that Canada's foreign policy toward Latin America has been profoundly affected by these three factors and has evolved in response to both changing domestic demands and shifting international circumstances By analysing a pivotal period in Canada Latin American relations he shows us how successive Canadian governments made important initiatives toward closer relationships with Latin America and were also pressured by non governmental organizations to play a bigger role in the region Canada's increased role can be seen in official foreign policy commitments such as the decision to join the Organization of American States and in policy decisions on political refugees He explains that while the United States has played a key role in sometimes constraining Canadian foreign policy in the region it is important to realize that Canadian foreign policy has been steadied by a long standing tradition of internationalism *Canada Latin America and the New Internationalism* demonstrates that the tradition of internationalism in Canadian foreign policy as viewed from the perspective of foreign policy analysis provides the framework within which to understand and accommodate changes in its policy toward Latin America The period which the book explores is critical in order to understand the contemporary nature and future direction of Canada Latin America relations **Globalization, Social Movements, and the New**

Internationalism Peter Waterman, 2001-12-20 In a political climate where loose talk of a third way passes for political idealism Waterman's passionate book examines the possibilities for a new style global solidarity suited to complex capitalist modernity The author examines the past internationalism of Labour and socialists and the present one of radical democratic social movements discussing how the Left might build on this experience to recover a humanist and emancipatory tradition of internationalism which would address our multiple global social problems Internationalism in the Age of Nationalism

Glenda Sluga, 2013-04-11 Glenda Sluga traces internationalism through its rise before World War I its mid century apogee and its decline after 9 11 Drawing on archival material and contemporary accounts this innovative history restores

internationalism as essential to understanding nationalism in the twentieth century **Internationalism and the Ideology**

of Soviet Influence in Eastern Europe Jonathan C. Valdez, 1993-04-29 Valdez argues that the use of the fundamental principles of Marxism Leninism to perform various functions ultimately brought about a change in the basic assumptions of the theory itself This resulted in the abandonment of the previous insistence on a universal model of socialism and of the idea that the international interests of the socialist bloc must take precedence over individual national interest Soviet influence in Eastern Europe rested on little else than these ideological principles and consequently stood little chance of surviving their re interpretation Finally Valdez assesses the re interpretation of the fundamental principles of Soviet East European relations by reformist scholars in the Soviet Union and the response by conservative members of the party apparatus Labour

Internationalism in the Global South Robert O'Brien, 2019-01-03 Labour internationalism is often viewed as impossible or inevitable depending upon political perspective O'Brien argues for a more nuanced diverse understanding of labour internationalism identifying six different faces shaped by the national or global orientation of particular groups in the fields of production regulation and ideas Providing a general view of labour's global activity and a case study of the Southern Initiative on Globalisation and Trade Union Rights SIGTUR the book illustrates how the productive and regulatory structures of the global economy are pushing labour internationalism in particular directions It details how leftist unions in Argentina Australia Brazil India the Philippines South Africa and South Korea have tried to bridge their differences and launch collective actions Drawing upon twenty years of participant observation O'Brien reveals a specific Global South approach based upon anti imperialism anti capitalism and empathetic internationalism Feminist International Verónica Gago, 2020-11-17 Recent years have seen massive feminist mobilizations in virtually every continent overturning social mores and repressive legislation In this brilliant and original look at the emerging feminist international Verónica Gago explores how the women's strike as both a concept and collective experience may be transforming the boundaries of politics as we know it At once a gripping political analysis and a theoretically charged manifesto Feminist International draws on the author's rich experience with radical movements to enter into ongoing debates in feminist and Marxist theory from social reproduction and domestic work to the intertwining of financial and gender violence as well as controversies surrounding the neo extractivist model of development the possibilities and limits of left populism and the ever vexed nexus of gender race class Gago asks what another theory of power might look like one premised on our desire to change everything The International Minimum Jessamyn R. Abel, 2015-05-31 The International Minimum tells the history of internationalism in Japan from the 1930s to 1960s shedding light on the deep connections between modes of diplomacy during times of aggressive imperial expansion and of peaceful cooperation For most of the twentieth century a rhetoric of international cooperation for peace and stability persisted as the lingua franca of foreign relations in Japan and around the world even during the years of rampant nationalisms and global war The advocacy and practice of multilateral cooperation though attenuated and often distorted and abused did not disappear during the years of aggression and war but instead were channeled into new and unexpected directions With a broad view of international relations that takes into account but also looks beyond the official sites of multilateral cooperation this book uncovers a continuous evolution of internationalist thought and activity in Japan that extends across the dark valley of war and the historiographical schism of defeat Acknowledging this continuity does not mitigate the violence and atrocities of the wartime regime But recognizing that institutions activities and rhetoric that were derived from the Wilsonian internationalism of the 1920s contributed to imperialism and war as well as to the postwar construction of a peaceful and democratic new Japan does help us understand the enthusiastic participation in war and empire in the years before 1945 by many of the same people in all sectors of Japanese society who eagerly embraced postwar

structures of cooperation for peace and shared prosperity This study rethinks the standard narrative of Japan's international cooperation in three ways by taking seriously those international activities conducted outside of formal state level relations by examining cultural forms of international engagement and by asserting the importance of rhetoric in cultivating what was then referred to as an international mind Rather than signaling the demise of multilateral participation Japan's infamous withdrawal from the League of Nations became in fact the occasion for the diversification of internationalist activities For instance proponents of a people's diplomacy campaigned to bring the 1940 Olympic Games to Tokyo and established the Society for International Cultural Relations a national organization for international cultural exchange But as Japanese society was increasingly mobilized for war even such popular and cultural efforts at international cooperation were made to contribute to the imperialist project In the decade after the war ended familiar internationalist rhetoric became a keystone in the construction of a so called new Japan This book traces the evolution of the internationalist worldview in Japan by examining both official policy and general discourse surrounding epochal moments such as Japan's withdrawal from the League and admission into the United Nations the failed and successful attempts to host a Tokyo Olympiad and wartime and postwar regional conferences in Tokyo and Bandung Indonesia Bringing these varied elements together produces a synthetic history of internationalism imperialism and the performance of diplomacy in the twentieth century when new global norms required a minimum level of international engagement This story is told through the materials of both high diplomacy and mass culture Unpublished documents in government and private archives reveal one layer of the formation of Japanese internationalism The public discourse found in popular journals books newspapers advertisements poems and songs articulates what would become the common sense views of international relations that helped delineate the realm of the possible in imperial and postwar Japanese foreign policy

An Introduction to International Relations Richard Devetak, Anthony Burke, Jim George, 2007-11-13 Leading Australian scholars introduce a range of theories actors issues institutions and processes that animate international relations today

Contender States and Modern Chinese International Thought Ferran Perez Mena, 2024-05-17 This book contends that the development of modern Chinese international thought has been profoundly shaped by the distinctive nature of the Chinese state as a contender state and its global positioning since 1912 The argument posited demonstrates that notwithstanding the varied perspectives on the international held by Chinese intellectuals throughout the 20th century there exist commonalities across the periods analyzed in this book In essence the book emphasizes that the shared elements influencing the production of modern Chinese international thought do not derive from a unified cultural Chinese identity but rather stem from China's evolving geopolitical position in the modern world

The Emergence of International Society in the 1920s Daniel Gorman, 2012-08-20 Chronicling the emergence of an international society in the 1920s Daniel Gorman describes how the shock of the First World War gave rise to a broad array of overlapping initiatives in international cooperation Though national rivalries

continued to plague world politics ordinary citizens and state officials found common causes in politics religion culture and sport with peers beyond their borders The League of Nations the turn to a less centralized British Empire the beginning of an international ecumenical movement international sporting events and audacious plans for the abolition of war all signaled internationalism s growth State actors played an important role in these developments and were aided by international voluntary organizations church groups and international networks of academics athletes women pacifists and humanitarian activists These international networks became the forerunners of international NGOs and global governance

Politics, Paradigms, and Intelligence Failures Ofira Seliktar, 2015-05-20 Washington s failure to foresee the collapse of its superpower rival ranks high in the pantheon of predictive failures The question of who got what right or wrong has been intertwined with the deeper issue of who won the Cold War Like the disputes over who lost China and Iran this debate has been fought out along ideological and partisan lines with conservatives claiming credit for the Evil Empire s demise and liberals arguing that the causes were internal to the Soviet Union The intelligence community has come in for harsh criticism for overestimating Soviet strength and overlooking the symptoms of crisis the discipline of Sovietology has dissolved into acrimonious irrelevance Drawing on declassified documents interviews and careful analysis of contemporaneous literature this book offers the first systematic analysis of this predictive failure at the paradigmatic foreign policy and intelligence levels Although it is focused on the Soviet case it offers lessons that are both timely and necessary

China Turns to Multilateralism Guoguang Wu, 2007-09-12 China s recent rapid economic growth has drawn global attention to its foreign policy which increasingly has had an impact on world politics In contrast with China s long standing preference for bilateralism or unilateralism in foreign policy recent decades have seen changes in the PRC s attitude and in its declaratory and operational policies with a trend toward the accepting and advocating of multilateralism in international affairs Whilst China s involvement has been primarily in the economic arena for example participation in the World Trade Organization and ASEAN Plus Three it has more recently expanded into international security institutions such as the Shanghai Cooperation Organization This book records analyzes and attempts to conceptualize this phenomenal development in Chinese foreign policy and its impact on international relations with the emphasis on China s active participation in multilaterally oriented regional security regimes Written by an impressive team of international scholars this book is the first collective effort in the field of China studies and international relations to look at China s recent turn to multilateralism in foreign affairs It will appeal to students and scholars of Chinese politics and foreign policy security studies and international relations

China's Emergent Political Economy Christopher A. McNally, 2007-09-12 This edited volume represents the first collaborative effort to explicitly view China s rapid international ascent as associated with the same process that catapulted Great Britain the United States Germany and Japan to international prominence the emergence of a capitalist political economy Each chapter therefore applies the capitalist lens to analyze aspects of China s monumental social economic and political transition

Topics addressed range from examinations of China's industrial capitalism and its new multinational corporations to studies of China's changing polity state media relations and foreign policy. With contributors writing from highly varied backgrounds, each chapter approaches the subject from a slightly different perspective, but the underlying findings show considerable common ground. China is developing a unique form of capitalism by combining elements rooted in Chinese history, such as the prevalence of networked forms of capital and the continued dominance of the state, with the growing influence of global capital, including the rapid adaptation of recent organizational and technological innovations. Concluding chapters draw out what capitalism in the dragon's lair implies for our 21st century world, cautioning that China's rise is likely to challenge the present world order along both political and economic dimensions.

Cuba's Foreign Policy In The Middle East Damian J

Fernandez, 2021-11-18. In spite of the growing academic interest in Cuba's international relations in the revolutionary period, Cuba's policy toward the Middle East has been a neglected field of study. Although the Middle East has not been a high priority item on Fidel Castro's agenda, various factors have combined to propel the regime into taking a more active stance in the region, not least of which is the importance of the Middle East to the Soviet Union. Some of these factors have been ideological, such as the nature of Castroism itself. Other factors have been more pragmatic: the need to increase Cuba's leverage with the Soviet Union, the desire to establish spheres of interest of its own in the Third World, the attempt to use external politics to soothe internal problems, and the wish to maximize the prestige of the Cuban revolution, and by extension that of its leader, *maximo*. Since 1959, Havana's Middle Eastern policy has experienced four stages: 1. 1959-1973: Autonomous foreign policy marked by a dual relationship with both Israel and the Arab states. 2. 1973-1977: Accommodation to the Soviet line, anti-Israeli policy combined with an expansion of relations with progressive states, signalled by the establishment of Cuban military missions. 3. 1977-1980: Activist policy in the region, expanded role and development of diplomatic relationships. 4. 1981 to the present: Cautious involvement, restrained activism, emphasizing socio-economic cooperation. Cuba's incursion into the Arab world illuminates how Cuban foreign policy works, especially in relation to autonomy, convergence, and subordination, dependence, pragmatism, and ideology. The island's entrance into Middle East politics has introduced new risks into the island's foreign policy, in return for the benefits which have been derived. A theory to explain Cuba's foreign policy in its interaction with the Soviet Union in the Third World must include heretofore neglected variables: time, regime type, and factionalism, bureaucratic politics, in addition to external events. The study of Cuba's initiatives in the Middle East will serve to test this theory.

Building

Global Labor Solidarity Kim Scipes, 2020-10-13. Efforts to build bottom-up global labor solidarity began in the late 1970s and continue today, having greater social impact than ever before. In *Building Global Labor Solidarity: Lessons from the Philippines, South Africa, Northwestern Europe, and the United States*, Kim Scipes, who worked as a union printer in 1984 and has remained an active participant in research about and writing chronicling the efforts to build global labor solidarity ever

since compiles several articles about these efforts Grounded in his research on the KMU Labor Center of the Philippines Scipes joins first hand accounts from the field with analyses and theoretical propositions to suggest that much can be learned from past efforts which though previously ignored have increasing relevance today Joined with earlier works on the KMU AFL CIO foreign policy and efforts to develop global labor solidarity in a time of accelerating globalization the essays in this volume further develop contemporary understandings of this emerging global phenomenon The Gospel of the Kingdom, 1914 Sites of International Memory Glenda Sluga, Kate Darian-Smith, Madeleine Herren, 2023-08-08 Whether we think of statues plaques street names practices material or intangible forms of remembrance the language of collective memory is everywhere installed in the name of not only nations or even empires but also an international past The essays in Sites of International Memory address the notion of a shared past and how this idea is promulgated through sites and commemorative gestures that create or promote cultural memory of such global issues as wars genocide and movements of cross national trade and commerce as well as resistance and revolution In doing so this edited collection asks Where are the sites of international memory What are the elements of such memories of international pasts and of internationalism How and why have we remembered or forgotten sites of international memory Which elements of these international pasts are useful in the present Some contributors address specific sites and moments World War II liberation movements in India and Ethiopia commemorations of genocide while other pieces concentrate more on the theoretical on the idea of cultural memory UNESCO's presence looms large in the volume as it is the most visible and iconic international organization devoted to creating critical heritage studies on a world stage Formed in the aftermath of World War II UNESCO was instrumental in promoting the idea of a humanity that exists beyond national regional or cultural borders or definitions Since then UNESCO's diplomatic and institutional channels have become the sites at which competing notions of international world and human communities have jostled in conjunction with politically specific understandings of cultural value and human rights This volume has been assembled to investigate sites of international memory that commemorate a past when it was possible to imagine identify and invoke international ideas institutions and experiences in diverse historically situated contexts Contributors Dominique Biehl Kristal Buckley Roland Burke Kate Darian Smith Sarah C Dunstan David Goodman Madeleine Herren Philippa Hetherington Rohan Howitt Alanna O Malley Eric Paglia Glenda Sluga Sverker Srin Carolien Stolte Beatrice Wayne Ralph Weber Jay Winter **Report of the Annual Meeting of the Conference of Foreign Mission Boards in Canada and in the United States**, 1918
