Paterson Great Falls Marcia Dente, 2012-09-04 The story of Paterson is the story of its Great Falls. European settlers were awed by the natural wonder that the Leni Lenape called Acquackanonk. Fulfilling Alexander Hamilton's vision, the Falls fueled Paterson's development into the leader of the nation's Industrial Revolution, powering mills and factories into the twentieth century. In 1967, the Great Falls became a National Natural Landmark, and then a National Historic Landmark District in 1976. Finally, in 2011, the Falls was designated a National Historic Park. Join Patersonian Marcia Dente as she explores the beauty and industry of Paterson's Great Falls.

Great Falls of Paterson Marcia A. Dente, 2010-08-30 In 1778, the Great Falls became the Paterson area's natural energy source. The innovative hydraulic Raceway used an intricate network of canals to channel millions of gallons of water to power local mills and factories. In 1791, Alexander Hamilton helped to organize the Society for the Establishment of Useful Manufactures, which aimed to develop a planned industrial city in the United States. Hamilton believed that the country needed to reduce its dependence on foreign goods and develop its own industries, and the falls were chosen as the site for the planned city. The industries in Paterson were powered by the 77-foot Great Falls, and the city became known as The Cradle of American Industry. Today, the falls are not only a national historic landmark and a state park, but on March 30, 2009, Pres Barack Obama signed a bill creating Great Falls National Historical Park.
