Sea of Grass Dave Hage, Josephine Marcotty, 2025-05-27 A vivid portrait of the American prairie which rivals the rainforest in its biological diversity and with little notice is disappearing even faster This book describes in loving living prose one of the world's greatest and most important landscapes And it does so while there's still time to save some serious part of it Bill McKibben author of *The End of Nature* The North American prairie is an ecological marvel a lush carpet of grass that stretches to the horizon and home to some of the nation's most iconic creatures bison elk wolves pronghorn prairie dogs and bald eagles Plants microbes and animals together made the grasslands one of the richest ecosystems on Earth and a massive carbon sink but the constant expansion of agriculture threatens what remains When European settlers encountered the prairie nearly two hundred years ago rather than a natural wonder they saw an alien and forbidding place But with the steel plow artificial drainage and fertilizers they converted the prairie into some of the world's most productive farmland a transformation unprecedented in human history American farmers fed the industrial revolution and made North America a global breadbasket but at a terrible cost the forced dislocation of Indigenous peoples pollution of great rivers and catastrophic loss of wildlife Today industrial agriculture continues its assault on the prairie plowing up one million acres of grassland a year Farmers can protect this extraordinary landscape but trying new ideas can mean ruin in a business with razor thin margins and will require help from Washington D C and from consumers Veteran journalists and midwesterners Dave Hage and Josephine Marcotty reveal humanity's relationship with this incredible land offering a deep compassionate analysis of the difficult decisions as well as opportunities facing agricultural and Indigenous communities *Sea of Grass* is a vivid portrait of a miraculous ecosystem that makes clear why the future of this region is of essential concern far beyond the heartland

Manuel Gausa,Jordi Vivaldi,2021-04-15 During the last 30 years Advanced Architecture has consolidated an interactive and informational logic that differs from that of Modernity and Postmodernity This logic is threefold it is modulated through three coexisting protocols modes of action whose peaks of intensity occur in three different decades Conformative Protocols 1990 2000 Distributive Protocols 2000 2010 and Expansive Protocols 2010 2020 This work proposes a threefold cultural narrative whose interactive and informational logic differs from that of modernity and postmodernity It positions three different ethos by critically approaching the architectural side of a cultural mutation that has been affecting the Western experimental areas of knowledge and practice since the end of the last century A transformative process constituted by a constellation of transdisciplinary manifestations accelerations turns shortcuts and clusterizations that by no means can be read under one single epistemological umbrella In this sense rather than approaching the practice of architecture focusing on its disciplinary inner specificity this book approaches the research of experimental architecture focusing on its extra disciplinary entanglements It argues that a vast multiplicity of fields of knowledge participates in a cultural endeavour modulated through three protocols forms of action that singularize three decades Conformative Protocols 1990 2000 Distributive Protocols 2000 2010 and Expansive Protocols 2010 2020 These three periods shouldn t be read as three hermetic and concatenated monades but as three different modulations of the same narrative that is as three overlapping and coexisting systems whose peaks of intensity occur in three different decades However the main purpose of this book is not limited to unveiling the ethos of these three conjugations It also aims at using this framework as a time field a narrative map that moves from the classificatory to the cartographical in order to vectorize the last 30 years of experimental architecture In this sense this book argues that this threefold set of protocols represents the progressive attempt to constitute critical interiorities looking for and produced through interactions that are increasingly more intimate and whose agents are increasingly more diverse A tendency oriented towards the consolidation of an intimacy between strangers that highly resonates with the cultural and technological landscape in which experimental architecture operates Landscape Michael Spens,2007-04-23 Charting the latest advances in thinking and practice in 21st century landscape this edition of AD looks at the degree to which landscape architects and architects have rethought and redefined the parameters for the interaction of

buildings infrastructures and surrounding landscape Landscape Architecture Site Non Site defines the key moves affected in the revision of landscape using a compilation of some of the most current work in the field Featured designers include James Corner of Field Operations Kathryn Findlay Adriaan Geuze of West 8 Gross Max Bernard Lassus Gustafson Porter Maggie Ruddick Ken Smith and Michael van Valkenburgh There are contributions from Lucy Bullivant Peter Cook Jayne Merkel Juhani Pallasmaa and Grahame Shane *Westering Women and the Frontier Experience, 1800-1915* Sandra L. Myres, 1982 Contains letters journals and reminiscences showing the impact of the frontier on women s lives and the role of women in the West Sacred Gardens and Landscapes Michel Conan, 2007 Studies of rituals in sacred gardens and landscapes offer tantalizing insights into the significance of gardens and landscapes in the societies of India ancient Greece Pre Columbian Mexico medieval Japan post Renaissance Europe and America Sacred gardens and landscapes engaged their visitors into three specific modes of agency as anterooms spurring encounters with the netherworld as journeys through mystical lands and as a means of establishing a sense of locality metaphorically rooting the dweller s own identity in a well defined part of the material world Each section of this book is devoted to one of these forms of agency Together the essays reveal a profound cultural significance of gardens previously overlooked by studies of garden styles **Reimagining Environmental History** Christian Knoeller, 2017-10-11 Christian Knoeller presents a radical reinterpretation of environmental history set in the heartland of America In an excellent model of narrative based scholarship this book dynamically reimagines American environmentalism across generations of writers artists and scientists Knoeller starts out with Audubon and cites Thoreau s journals in the 1850s as he assesses an early 17th century account of New England s natural resources by William Wood showing the epic decline in game and bird populations in Concord This reading of environmental history is replicated throughout with a gallery of novelists poets essayists and other commentators as they explore ecological memory and environmental destruction In apt discussions of Matthiessen Lopez Wendell Berry William Stafford and many others Knoeller offers vibrant insights into literary history He also cites his own memoir of perpetual development on his family s farm in Indiana enriching the scholarship and making an urgent plea for the healing aesthetics of the imagination Reading across centuries and genres Knoeller gives us a vibrant new appraisal of Midwestern North American interior literary traditions and makes clear how vital environmental writing is to this region To date no one has written such an eloquent and comprehensive cross genre analysis of Midwestern environmental literature Across the Prairie with Percy the Ox Pasquale De Marco, 2025-05-03 Across the Prairie with Percy the Ox is a heartwarming and inspiring story about a brave ox who embarked on an epic journey across the American frontier Join Percy as he faces challenges makes new friends and discovers the true meaning of determination In this captivating book children will learn about the hardships and triumphs of westward expansion They will follow Percy s journey as he travels across rivers mountains and vast prairies Along the way they will encounter Native Americans dangerous animals and unpredictable weather But through it all Percy never gives up He is a
