New Latins Fateful Change In South Cen:

The New Latins Georgie Anne Geyer,1970 *The Decline Of Military Regimes* Constantine P Danopoulos,Robin A Remington,James Brown,Claude Welch,2019-06-21 Many generous people deserve special thanks for their assistance in the preparation and completion of this project I wish to express my gratitude to each of the contributors for agreeing to tackle a difficult and inherently controversial subject I am only sorry that C I Eugene Kim did not live long enough to see the fruits of his labor he will be sorely missed by all of us who knew him The Third World and the military do not respond easily to scrutiny by social scientists Many colleagues and referees read all or part of the manuscript I am grateful to Professors Richard Lane Roy Christman and Bob Kumamoto of San Jose State University and Timothy Lukes of Santa Clara University who offered numerous helpful comments My parents Panos and Athanasia Danopoulos my brother George and his wife Niki my aunt Areti Paraskevopoulou and my koumbaro George Nikoletopoulos have provided boundless moral support Polly Taylor s expert typing and coding made the preparation of the typescript possible Finally my wife Vickie and our two sons Panos and Andreas deserve special thanks for their willingness to endure the long hours that writing and manuscript preparation entail Though helpful none of these people bear any responsibility for any problems associated with this volume Responsibility for the accuracy and scholastic quality of what follows belongs to the contributors and myself Female and Male in Latin America Ann Pescatello,2010-11-23 A pioneering study of Latin American women that views contemporary perceptions and realities of women s lives women s roles in modernization versus tradition the conflicts of class struggles among women and the future of women s participation in Cuban society Changing Woman Karen Anderson,1997-07-24 While great strides have been made in documenting discrimination against women in America our awareness of discrimination is due in large part to the efforts of a feminist movement dominated by middle class white women and is skewed to their experiences Yet discrimination against racial ethnic women is in fact dramatically different more complex and more widespread and without a window into the lives of racial ethnic women our understanding of the full extent of discrimination against all women in America will be woefully inadequate Now in this illuminating volume Karen Anderson offers the first book to examine the lives of women in the three main ethnic groups in the United States Native American Mexican American and African American women revealing the many ways in which these groups have suffered oppression and the profound effects it has had on their lives Here is a thought provoking examination of the history of racial ethnic women one which provides not only insight into their lives but also a broader perception of the history politics and culture of the United States For instance Anderson examines the clash between Native American tribes and the U S government particularly in the plains and in the West and shows how the forced acculturation of Indian women caused the abandonment of traditional cultural values and roles in many tribes women held positions of power which they had to relinquish subordination to and economic dependence on their husbands and the loss of meaningful authority over their children

Ultimately Indian women were forced into the labor market the extended family was destroyed and tribes were dispersed from the reservation and into the mainstream all of which dramatically altered the woman's place in white society and within their own tribes The book examines Mexican American women revealing that since U S job recruiters in Mexico have historically focused mostly on low wage male workers Mexicans have constituted a disproportionate number of the illegals entering the states placing them in a highly vulnerable position And even though Mexican American women have in many instances achieved a measure of economic success in their families they are still subject to constraints on their social and political autonomy at the hands of their husbands And finally Anderson cites a wealth of evidence to demonstrate that in the years since World War II African American women have experienced dramatic changes in their social positions and political roles and that the migration to large urban areas in the North simply heightened the conflict between homemaker and breadwinner already thrust upon them Changing Woman provides the first history of women within each racial ethnic group tracing the meager progress they have made right up to the present Indeed Anderson concludes that while white middle class women have made strides toward liberation from male domination women of color have not yet found in feminism any political remedy to their problems

Dependency And Intervention José M. Aybar de Soto, 2019-04-10 This book describes the interlocking relationship of government and multinational corporations MNCs that led to U S intervention in Guatemala in 1954 It explains the intervention in terms of the continuous penetration of the extended domain of the metropole
