New Left Review 13 Jan Feb 2002

Neil Pyatt

New Left Review 13 Jan Feb 2002:

The Radical Fifties Sophie Scott-Brown, 2025-06-12 The 1950s are usually portrayed as conservative conformist and apathetic but was there more to this much maligned decade than that In Britain the convergence of conflicting political moments the Cold War the Bomb the rise of America the decline of the empire welfare and affluence compelled a rapid rethinking of what it meant to be political along with a series of experiments in democracy and democracy education The Radical Fifties examines the distinctive activist politics emerging from this by focusing on the entwined histories of its main protagonists the Freedom Press anarchists the New Left Club socialists and the Direct Action Committee pacifists Instead of gaining or influencing power in a traditional sense these groups wanted to dispense with it all together and transform democracy into a whole way of life a quality of interaction between people While this upturned conventional political thinking it also posed a dilemma conceding the practice of democracy also meant conceding the ability to determine its ends and direct its activities In contrast to the assertive radicalism of the sixties this appeared dismally unambitious yet it confronted more directly and seriously the defining questions of the times could democratic means produce democratic ends If not was it still democracy

The Strange Careers of the Jim Crow North Brian Purnell, Jeanne Theoharis, 2019-04-23 Did American racism originate in the liberal North An inquiry into the system of institutionalized racism created by Northern Jim Crow Jim Crow was not a regional sickness it was a national cancer Even at the high point of twentieth century liberalism in the North Jim Crow racism hid in plain sight Perpetuated by colorblind arguments about cultures of poverty policies focused more on black criminality than black equality Procedures that diverted resources in education housing and jobs away from poor black people turned ghettos and prisons into social pandemics Americans in the North made this history They tried to unmake it too Liberalism rather than lighting the way to vanquish the darkness of the Jim Crow North gave racism new and complex places to hide The twelve original essays in this anthology unveil Jim Crow's many strange careers in the North They accomplish two goals first they show how the Jim Crow North worked as a system to maintain social economic and political inequality in the nation's most liberal places and second they chronicle how activists worked to undo the legal economic and social inequities born of Northern Jim Crow policies practices and ideas The book ultimately dispels the myth that the South was the birthplace of American racism and presents a compelling argument that American racism actually originated in the North

Blessed Unrest Paul Hawken, 2007-05-10 The New York Times bestselling examination of the worldwide movement for social and environmental change Paul Hawken has spent more than a decade researching organizations dedicated to restoring the environment and fostering social justice From billion dollar nonprofits to single person dot causes these groups collectively comprise the largest movement on earth a movement that has no name leader or location and that has gone largely ignored by politicians and the media Blessed Unrest explores the diversity of the movement its brilliant ideas innovative strategies and centuries of hidden history A culmination of Hawken's many years of leadership in the

environmental and social justice fields it will inspire all who despair of the world's fate and its conclusions will surprise even those within the movement itself *A Philosophical Theory of Citizenship* Steven J. Wulf, 2008-01-01 *A Philosophical Theory of Citizenship* answers seminal questions about legal obligation government authority and political community It employs an idiomatic theory of reality ethical conduct and the self to justify patriotic duty classical liberty and national sovereignty

Revisiting Diaspora Spaces in India: A Contemporary Overview Joydev Maity, 2023-09-12 This edited volume is a detailed and critical study of Indian diaspora writings and its diverse themes It focuses on dynamics and contemporary perspectives of Indian diaspora writings and analyzes emerging themes of this field like the experience of the Bihari diaspora migration to Gulf countries the relation between diasporic experience and self translation uprootedness and resistance discourse through ecocritical praxis and many more With the aid of a subtle theoretical framework the volume closely examines some of the key texts such as *Goat Days* Baumgartner's *Bombay An Atlas of Impossible Longing* *The Circle of Reason* and authors including Shauna Singh Baldwin M G Vassanji Sarat Chandra Chattopadhyay V S Naipaul and others The book also explores diaspora literature written in regional language and later translated into English and how they align with the fundamental Indian diaspora writings A significant contribution to Indian diaspora writings this volume will be of great importance to scholars and researchers of diaspora literature migration and border studies cultural memory and translation studies

New Perspectives on Anarchism, Labour and Syndicalism Constance Bantman, Dave Berry, 2010-08-11 This collection presents exciting new research on the history of anarchist movements and their relation to organised labour notably revolutionary syndicalism Bringing together internationally acknowledged authorities as well as younger researchers all specialists in their field it ranges across Europe and from the late nineteenth century to the beginnings of the Cold War National histories are revisited through transnational perspectives on Britain France Italy Germany Poland or Europe as a whole evidencing a great wealth of cross border interactions and reciprocal influences between regions and countries Emphasis is also placed on individual activist itineraries whether of renowned figures such as Errico Malatesta or of lesser known yet equally fascinating characters whose trajectories offer fresh perspectives on the complex interplay of regional and national political cultures evolving political ideologies activist networks and the individual The volume will be of interest to specialists working on the history of anarchism and or trade unionism as well as the political or social history of the countries concerned but it will also be useful to students and the general reader looking for discussion of the most recent thinking on the historiography of labour and anarchist movements or those wanting a comprehensive overview of the history of syndicalism *Anarchism Today* Randall Amster, 2012-03-09 With all of the provocative sometimes highly destructive acts committed in the name of anarchy this enlightening volume invites readers to discover the true meaning of anarchism exploring its vivid history and its resurgent relevance for addressing today's most vexing social problems In *Anarchism Today* an acclaimed scholar and one of the world's foremost advocates for the anarchistic tradition cuts through common

misconceptions and caricatures to explore what is perhaps the most poorly understood of all political theories As author Randall Amster explains rather than being an anti everything rationale for defiance and destruction anarchism is in fact a coherent set of values and practices with a rich history and contemporary relevance Passionate and provocative Amster s book offers readers an expert s perspective on what anarchism really means including its relationship to other political approaches its careful balancing of individual liberty and a functioning society and its controversial image as a wellspring of violence Along the way Amster addresses a number of current issues from the perspective of anarchism including corporate globalization environmentalism warfare nationalism education technology alternative economics criminal justice and even spirituality He concludes with a frank assessment of anarchism s impact and the role it can play in building a more just peaceful and sustainable world

The Play Ethic Pat Kane,2011-08-19 Fizzes with intellectual curiosity Kane writes engagingly and with a humility difficult to find among idea entrepreneurs James Harkin Independent We all think we know what play is Play is what we do as children what we do outside of work what we do for no other reason than for pleasure But this is only half of the truth The Play Ethic explores the real meaning of play and shows how a more playful society would revolutionize and liberate our daily lives Using wide and varied sources from the Enlightenment to Eminem Socrates to Chaos theory Kierkegaard to Karaoke The Play Ethic shows how play is fundamental to both society and to the individual and how the work ethic that has dominated the last three centuries is ill equipped to deal with the modern world With verve wit and intelligence Pat Kane takes us on a tour of the playful world arguing that without it business the arts politics education even our family and spiritual lives are fundamentally impoverished The Play Ethic seeks to change the way you look at your daily life how you interact with others how you view the world It is a guidebook to new exciting and unsettling times

Shocking controversial yet magnificently argued The Play Ethic is a book no one who works or has ever worked can afford to be without Kane s Manifesto for a Different Way of Living is a brave attempt to inject a little playfulness into the dull grind of the working stiff Iain Finlayson The Times

Beyond These Walls Tony Platt,2019-01-08 You should definitely read this book What really struck me in reading Beyond These Walls was that Tony Platt had very seriously and carefully considered the contributions of social movements feminist queer disability and labor Angela Davis Beyond These Walls is an ambitious and far ranging exploration that tracks the legacy of crime and imprisonment in the United States from the historical roots of the American criminal justice system to our modern state of over incarceration and offers a bold vision for a new future Author Tony Platt a recognized authority in the field of criminal justice challenges the way we think about how and why millions of people are tracked arrested incarcerated catalogued and regulated in the United States Beyond These Walls traces the disturbing history of punishment and social control revealing how the criminal justice system attempts to enforce and justify inequalities associated with class race gender and sexuality Prisons and police departments are central to this process but other institutions from immigration and welfare to educational and public health agencies are equally complicit Platt argues

that international and national politics shape perceptions of danger and determine the policies of local criminal justice agencies while private policing and global corporations are deeply and undemocratically involved in the business of homeland security Finally *Beyond These Walls* demonstrates why efforts to reform criminal justice agencies have often expanded rather than contracted the net of social control Drawing upon a long tradition of popular resistance Platt concludes with a strategic vision of what it will take to achieve justice for all in this era of authoritarian disorder *Scales of Justice* Nancy Fraser, 2013-04-24 Until recently struggles for justice proceeded against the background of a taken for granted frame the bounded territorial state With that Westphalian picture of political space assumed by default the scope of justice was rarely subject to explicit dispute Today the scope of justice is hotly contested as human rights activists and international feminists join critics of structural adjustment and the WTO in targeting injustices that cut across borders Seeking to re map the bounds of justice on a broader scale these movements are challenging the view that justice can only be a domestic relation among fellow citizens As their claims collide with those of nationalists and Westphalian democrats we witness new forms of meta political contestation in which the scale of justice is an object of explicit dispute Under these conditions there is no avoiding an issue that had once seemed to go without saying What is the proper frame for theorizing justice Faced with a plurality of competing scales how do we know which scale of justice is truly just *Scales of Justice* tackles this issue Interrogating struggles over globalization Nancy Fraser reconstructs the theory of justice for a post Westphalian world Revising her widely discussed theory of redistribution and recognition she introduces representation as a third political dimension of justice which permits us to re conceive scale and scope as questions of justice Seeking to re imagine political space for a globalizing world she revisits the concepts of democracy solidarity and the public sphere the projects of critical theory the World Social Forum and second wave feminism and the thought of Habermas Rawls Foucault and Arendt

Other Worlds Here Theresa Warburton, 2021-04-15 *Other Worlds Here* Honoring Native Women's Writing in Contemporary Anarchist Movements examines the interaction of literature and radical social movement exploring the limitations of contemporary anarchist politics through attentive engagement with Native women's literatures Tracing the rise of New Anarchism in the United States following protests against the World Trade Organization in 1999 interdisciplinary scholar Theresa Warburton argues that contemporary anarchist politics have not adequately accounted for the particularities of radical social movement in a settler colonial society As a result activists have replicated the structure of settlement within anarchist spaces All is not lost however Rather than centering a critical indictment of contemporary anarchist politics *Other Worlds Here* maintains that a defining characteristic of New Anarchism is its ability to adapt and transform Through close readings of texts by Native women authors Warburton argues that anarchists must shift the paradigm that another world is possible to one that recognizes other worlds already here stories networks and histories that lay out methods of building reciprocal relationships with the land and its people Analyzing memoirs poetry and novels by writers including Deborah

Miranda Elissa Washuta Heid E Erdrich Janet Rogers and Leslie Marmon Silko *Other Worlds Here* extends the study of Native women's literatures beyond ethnographic analysis of Native experience to advance a widely applicable contemporary political critique [New Left Review](#) ,2007 **Debating Cosmopolitics** Daniele Archibugi,2020-05-05 Cosmopolitics the concept of a world politics based on shared democratic values is in an increasingly fragile state While Western democracies insist ever more vehemently upon a maintenance of their privileges freedom of speech security wealth an increasing number of the world's inhabitants are under threat of poverty famine and war What is needed the writers suggest is a deliberate decision to extend the principles and values of democracy to the sphere of international relations Recent experience does not bode well but their arguments which range from reform of the United Nations reduction of military weapons additional power for international judiciary institutions and an increase in aid to developing countries urge new and inspired action

America's New Working Class Kathleen R. Arnold,2015-08-26 Today's political controversy over immigration highlights the plight of the working class in this country as perhaps no other issue has recently done The political status of immigrants exposes the power dynamics of the new working class which includes the former labor aristocracy women and people of color This new working class suffers exploitation in advanced industrial countries as the social cost of capitalism's success in a neoliberal and globalized political economy Paradoxically as borders become more open they are also increasingly fortified subjecting many workers to the suspension of law In this book Kathleen Arnold analyzes the role of the state's prerogative power in creating and sustaining this condition of severe inequality for the most marginalized sectors of our population in the United States Drawing on a wide range of theoretical literature from Locke to Marx and Agamben whose notion of bare life features prominently in her construal of this as a biopolitical era she focuses attention especially on the values of asceticism derived from the Protestant work ethic to explain how they function as ideological justification for the exercise of prerogative power by the state As a counter to this repressive set of values she develops the notion of authentic love borrowed from Simone de Beauvoir as a possible approach for dealing with the complex issues of exploitation in liberal democracy today [A Companion to Japanese History](#) William M. Tsutsui,2009-07-20 *A Companion to Japanese History* provides an authoritative overview of current debates and approaches within the study of Japan's history Composed of 30 chapters written by an international group of scholars Combines traditional perspectives with the most recent scholarly concerns Supplements a chronological survey with targeted thematic analyses Presents stimulating interventions into individual controversies [Contemporary Art and Community Altruism in Oaxaca](#) Neil Pyatt,2019-01-29 This book relates the longitudinal participant observation and analysis of the behaviour of the Oaxacan art community focusing on the cultural production interaction and collective action of its members as an integrated sector of civil society It presents a theoretical framework that succinctly defines and discusses postmodernism as a globalising force in the development and use of creative expression the media and communications technology in a postcolonial context The theoretical investigation is supported by

ethnography that ascertains how hybrid political thought and community altruism characterise the behaviour and the aesthetic expression practised by a new generation of Oaxacan artists Their collective action towards a pacifistic solution to the Oaxaca Conflict of 2006 a six month socio political uprising caused by actual and historic conditions in the national regional and universal Left Right political duel is detailed The transdisciplinary approach makes the work very relevant for researchers educators and students of social anthropology visual communication and media studies in addition to those interested in Oaxacan Mexican and Latin American art and culture Languages of the Unheard Stephen

D'Arcy,2014-03-13 Martin Luther King once insisted that a riot is the language of the unheard Since 2011 swathes of protest rebellion and rioting have covered the globe A new disenfranchised generation is fighting for its voice as once again scores of police line the streets and pop icons demand a political revolution Challenging us to consider arson attacks against empty buildings black bloc street fighting tactics and industrial sabotage amongst an array of other militant action philosopher Stephen D Arcy asks if it is ever acceptable to use or threaten to use armed force Drawing a clear line between justifiable and unjustifiable militancy Languages of the Unheard shows that the crucial contrast is between democratic and undemocratic action rather than violence and non violence Both a consideration of the ethics and politics of militant protest and the story of dissidents and their actions post 1968 this book argues that militancy is not a danger to democratic norms of consensus building Instead it is a legitimate remedy for elite intransigence and unresponsive systems of power that ignore or silence the people *Take Back Higher Education* Henry A. Giroux,Susan Searls Giroux,2004-05-10 Higher education is

under siege No longer viewed as a public good it is attacked by businesses who want to refashion institutions in the image of the marketplace Higher education is the target of cultural conservatives who have undermined academic freedom and access by deriding the academy as a hotbed of left multicultural radicalism and anti Americanism The historic mission to educate students as citizens motivated by democratic values is overshadowed by profit margins Giroux and Giroux argue that the greatest danger faced by higher education comes from corporatization and educational apartheid If higher education is to meet the challenges of a democratic future it must encourage students to be critical thinkers and citizens as it vouchsafes conditions for educators to produce scholarship in the service of an inclusive democracy *Cultural Activism* Begüm Özden

Firat,Aylin Kuryel Aylin Kuryel,2011-03 This volume addresses contemporary activist practices that aim to interrupt and reorient politics as well as culture The specific tactics analyzed here are diverse ranging from culture jamming sousveillance media hoaxing adbusting subvertising street art to hacktivism billboard liberation and urban guerilla to name but a few Though indebted to the artistic and political movements of the past this form of activism brings a novel dimension to public protest with its insistence on humor playfulness and confusion This book attempts to grasp both the old and new aspects of contemporary activist practices as well as their common characteristics and internal varieties It attempts to open up space for the acknowledgement of the ways in which contemporary capitalism affects all our lives and for the reflection on possible

modes of struggling with it. It focuses on the possibilities that different activist tactics enable the ways in which those may be innovative or destructive as well as on their complications and dilemmas. The encounter between the insights of political social and critical theory on the one hand and activist visions and struggles on the other is urgent and appealing. The essays collected here all explore such a confrontational collaboration testing its limits and productiveness in theory as well as in practice. In a mutually beneficial relationship theoretical concepts are rethought through activist practices while those activist practices are developed with the help of the insights of critical theory. This volume brings scholars and activists together in the hope of establishing a productive dialogue between the theorizations of the intricacies of our times and the subversive practices that deal with them.

Anarchism Seán Sheehan, 2004-04-04

Anarchism re-emerged on the world stage at the end of 1999 on the streets of Seattle when the World Trade Organization was brought close to collapse. Anarchist groups shared pavement space with environmentalists, pacifists and a whole host of other groups. The anti-capitalism, anti-globalization movement can be seen as a post-Cold War development rejecting the terms of the old debate whether capitalism or Soviet style Communism. This new oppositional voice is allied to anarchism not just because specific anarchist groups are part of the movement sharing a common criticism of the status quo but also in a broader sense arising from the non-hierarchical nature of the movement and its rejection of traditional party politics. Anarchism is as much an attitude as it is a set of formulated doctrines and in this book Sean Sheehan provides an engaging introduction to what anarchism means describing its history through anecdote and dramatic events and offering explanations of the issues behind this movement. He avoids a narrowly political or polemical viewpoint using examples from all over the world and images from anarchist inspired ideas and forms. Anarchist thinking and influences emerge in many different aspects of contemporary culture and history and the author looks at instances in areas of political thought, history of ideas, philosophy, theories of education and ecology as well as film and literary criticism. Systems of thought such as Buddhism and Taoism, art movements such as Dada and Surrealism, literary treatments of anarchist ideas in the work of Blake, Wilde, Whitman, Kafka and Eugene O'Neill, anarchism in relation to sex and psychology in the work of Reich and Fromm as well as aspects of Nietzsche's philosophy as expressions of anarchist individualism all these and other topics are also tackled. This combination of history, anecdote and cultural analysis is an informative and lively study that is guaranteed to provoke debate.

Whispering the Strategies of Language: An Emotional Quest through **New Left Review 13 Jan Feb 2002**

In a digitally-driven world where monitors reign supreme and instant conversation drowns out the subtleties of language, the profound strategies and emotional subtleties hidden within words often go unheard.
