Redefining Politics:

Redefining Politics Adrian Leftwich, 2013-04-15 This book challenges conventional conceptions of politics which focus largely on the institutions of government and the associated struggles for power around them. It argues that politics is involved in all the activities of cooperation and conflict whereby people organize the use, production and distribution of human, natural and material resources. Found in all human groups, institutions and societies, politics everywhere influences and reflects the structures of power, social organization, culture and ideology. These central themes are illustrated by drawing on a wide range of societies including the Kung hunter-gatherers, the pre-Columbian Aztecs and the Pastoral Maasai, as well as modern Britain and Third World societies from Chile to China. Other examples of village communities, a typical university department and the World Bank show how institutions may also be analyzed in terms of the definition of politics used here. It is equally central to the argument that many of the most critical problems occurring in societies can be attributed to their politics and this theme is explored looking at such problems as poverty, famines, epidemics, violence and unemployment in Britain and throughout the world.

Women and Politics Worldwide Barbara J. Nelson, Najma Chowdhury, Nājamā Caudhurī, 1994-01-01 This is the first book to analyse the complexities of women's political participation on a cross-national scale and from a feminist perspective. Surveying forty-three countries chosen to represent a variety of political systems, regions and levels of economic development, questions of women's status, power, means and methods of reform are addressed on a global scale. Includes chapters on the following countries: Argentina, Australia, Bangladesh, Bolivia, Brazil, Canada, China, Costa Rica, Cuba, Czechoslovakia, former Egypt, France, Germany, Ghana, Great Britain, Greece, Hong Kong, Hungary, India, Israel, Japan, Kenya, Korea, Republic of South Korea, Mexico, Morocco, Nepal, The Netherlands, Nigeria, Norway, Palestine, Papua New Guinea, Peru, The Philippines, Poland, Puerto Rico, South Africa, Spain, Sudan, Switzerland, Turkey, Union of Soviet Socialist Republics, former United States, Uruguay.

Towards Rethinking Politics, Policy and Polity in the Anthropocene Hans Günter Brauch, 2025-02-24 Humankind faces two anthropogenic threats to its survival that are closely linked The first is the end of the Holocene and the start of the Anthropocene which was marked by the test of a nuclear bomb on 16 July 1945 In the prevailing peace and security narrative nuclear weapons and the other country bloc or alliance pose a perceived threat to humankind s survival In the Anthropocene narrative we are the threat through our way of life and the burning of fossil fuels The start of the Anthropocene coincides with a change in the international order with the setting up of the UN and the Bretton Woods Institutions Three stages of this order are distinguished the Cold War bipolarity the post Cold War era unipolarity and the end of the rule based global liberal order multipolarity on 24 February 2022 In this book ten multidisciplinary perspectives discuss complexity Anthropocene geopolitics peace and security discourses and the debate on the Anthropocene planetary boundaries complex crises and integrative geography in the Anthropocene governance and politics and the Patriacene and gender Both existential threats for humankind are illustrated by cover photos of the first nuclear weapons test on 16 July 1945 and by Category 5 Hurricane Otis an extreme weather event impacting on Acapulco in Mexico on 25 October 2023 The Anthropocene as a new epoch of Earth history coincides in 1945 with a change in the international order In the security and peace narrative the other and nuclear weapons pose an existential threat in the Anthropocene narrative This dual existential change requires a rethinking of politics policy and polity In the social sciences the Anthropocene is being discussed from multidisciplinary perspectives geography political science and peace security and gender studies This is an open access publication **Redefining Politics** Adrian Leftwich, 2009-10 The book provides a clear framework for analyzing politics in all human groups from families to multinational companies and from villages to modern nation states Throughout it is concerned to extend the range of politics beyond its usual institutional focus to stress its interdisciplinary requirements and to expand the conception of politics in societies Politics and the Concept of the Political James Wiley, 2016-05-26 A recent trend in contemporary western political theory is to criticize it for implicitly trying to conquer displace or moralize politics James Wiley s book takes the next step from criticizing contemporary political theory to showing what a more politics centered political theory would look like by exploring the meaning and value of politics in the writings of Max Weber Carl Schmitt Paul Ricoeur Hannah Arendt Sheldon Wolin Claude Lefort and Ernesto Laclau and Chantal Mouffe These political theorists all use the concept of the political to explain the value of politics and defend it from its detractors They represent state centered republic centered and society centered conceptions of politics as well as realist authoritarian idealist republican populist and radical democratic traditions of political thought This book compares these theorists and traditions of the political in order to defend politics from its critics and to contribute to the development of a politics centered political theory Politics and the Concept of the Political will be a useful resource to general audiences as well as to specialists in political theory **Divided We Stand** Michiel Schwarz, Michael Thompson, 1990 This book provides a down to earth account of the virtues and failures of

environmental risk assessment The assessment process involves politics technology and issues of social choice an unstructured grouping that often presents contradictory and confusing standpoints the virtues of science and the scientific method are extolled on the one hand and condemned on the other no viable solutions are offered and there is no real understanding of the issues being discussed This chaotic situation is analyzed using cultural theory to offer a powerful and groundbreaking account of such topics as technological decision making politics energy engineering and technology as a whole

Rethinking Home Economics Sarah J. Stage, Virginia B. Vincenti, 2018-07-05 Until recently historians tended to dismiss home economics as little more than a conspiracy to keep women in the kitchen This landmark volume initiates collaboration among home economists family and consumer science professionals and women s historians What knits the essays together is a willingness to revisit the subject of home economics with neither indictment nor apology The volume includes significant new work that places home economics in the twentieth century within the context of the development of women s professions *Rethinking Home Economics* documents the evolution of a profession from the home economics movement launched by Ellen Richards in the early twentieth century to the modern field renamed Family and Consumer Sciences in 1994 The essays in this volume show the range of activities pursued under the rubric of home economics from dietetics and parenting teaching and cooperative extension work to test kitchen and product development Exploration of the ways in which gender race and class influenced women s options in colleges and universities hospitals business and industry as well as government has provided a greater understanding of the obstacles women encountered and the strategies they used to gain legitimacy as the field developed

Rethinking Democracy Rajni Kothari, 2005 *Rethinking Democracy* is an insightful and reflective monograph on democracy in general and Indian democracy in particular In this work Rajni Kothari revisits the core arguments he has laid down in his various writings in the past four decades *Politics in India State Against Democracy Communalism in India* etc While revisiting his writings Kothari reflects interrogates and even contests some of his earlier formulations on democracy state and civil society developing a new paradigm on the basis of his intellectual experience and activist experience Kothari makes a powerful critique of prevailing democratic theory and practice in a changing global as well as Indian context and concludes that democracy has failed to achieve its objective of human emancipation and survives merely as a dream However this disillusionment with democracy does not deter him from searching for an alternative model of a decentralized participatory and emancipatory democracy

Corporate Risk and National Security Redefined Karen Lund Petersen, 2012-02-06 Contemporary security policy is no longer a matter of protecting borders or fighting an identified foreign enemy With counterterrorism high on the security agenda private citizens and companies have all come to be seen as central to the aim of providing security Situated within the debate on terrorism risk and security *Corporate Risk and National Security Redefined* offers a detailed analysis of the role of private companies in American and Danish counter terrorism policies The book shows that a responsabilization strategy is central to both the

American and Danish security policy a strategy which tends to portray security as a duty rather than the right that it traditionally has been considered as The study however finds that such strategies have been received very differently in the business communities of the two countries The book brings the corporate understandings of the relation between corporate risk and national security to the fore and let the reader in on a constant conceptual battle and negotiation on the meaning of national security and corporate risk Corporate Risk and National Security Redefined will be of interest to students and scholars of international relations critical security business and terrorism *After Politics* Glen Newey,2000-12-18 Why do political philosophers why away from politics After Politics The Rejection of Politics in Contemporary Liberal Philosophy offers a challenging and original critique of liberalism the dominant political philosophy of our time tackling key issues like state legitimacy value pluralism neutrality the nature of politics public reasons and morality in politics Analyzing major liberal theorists like Rawls Habermas Rorty Barry Gray Raz Larmore Ackerman and others Glen Newey argues that liberalism by passes politics because it ignores or misunderstands human motivation and elevates academic system building over political realities of conflict and power **The Politics of Environmental Performance** Detlef Jahn,2016-10-27 As the world faces the prospect of climate change nuclear disasters and water scarcity it is clear that environmental degradation is an increasingly serious challenge with economic and social consequences In this book Detlef Jahn analyzes political processes in a macro comparative study in order to estimate the role of politics in the field of environmental performance in twenty one OECD countries His model demonstrates various styles of politics used to combat environmental degradation He finds that economic and environmental performance are still closely linked and that moving towards a service society does not by itself solve the environmental challenge The close relationship of these areas was made strikingly clear in the economic crisis of the new millennium He argues that economic globalization fosters environmental deterioration and undermines efforts in domestic politics and international coordination to improve the environmental record **Women and Politics in France 1958-2000** Dr Gill Allwood,Gill Allwood,Dr Khursheed Wadia,Khursheed Wadia,2002-01-04 An essential guide to the role of women in the political life of France under the Fifth Republic It shows that the unique political history of France ensures that it remains an important and exceptional example of women s participation in the politics of a Western European country Its study is essential in order to have a complete understanding of women and politics today This is the first English language study to capture the new enthusiasm engendered by the campaign for parity in 1992 which produced constitutional reform and a record number of deputies and ministers **Communication, Consumers, and Citizens: Revisiting the Politics of Consumption** Dhavan V. Shah,Lewis Friedland,Chris Wells,Young Mie Kim,Hernando Rojas,2012-12-04 Revisiting the Politics of Consumption The ANNALS of the American Academy of Political and Social Science Series Politics of the Past David Cowan,2024-04-11 The inter war period 1918 1939 is still remembered as a period of mass deprivation the hungry thirties But how did this impression emerge Thousands of conversations about life in

the inter war period between parents and children around the dinner table among workmates at the pub shaped these understandings In turn these fed into popular politics Stories about the embryonic welfare system in the early twentieth century informed how people felt towards the National Health Service memories of the Great Depression shaped arguments about state intervention in the economy Challenging accounts of widespread political disengagement in the twentieth century Politics of the Past shows how re telling family stories about the inter war period offered ordinary people an accessible way of engaging in politics Drawing on six local case studies across Scotland and England this book explains how stories about the inter war working class experience in industrial areas came to appear commonplace nationwide

From Statism To Pluralism Paul Hirst, Birkbeck College Paul Hirst Professor of Social Theory, 2013-02-01 Modern societies currently lack positive alternative visions of the future Many writers have claimed that the only option is a return to free market capitalism in which success and survival depend on being as competitive as possible whether as a nation firm or individual Paul Hirst argues that there are viable alternative futures and widely applicable models that can be used to structure change Hirst's distinctive approach to political theory reasons from real political problems rather than confining itself to abstract concepts Presenting an innovative political position this collection of essays represents an attempt to re state a practical third way between the discredited ideals of state socialism and laissez faire capitalism

Understanding Third World Politics Brian Clive Smith, 2003 Praise for the first edition this masterful and concise volume overviews the range of approaches social scientists have applied to explain events in the Third World Journal of Developing Areas Understanding Third World Politics is a comprehensive critical introduction to political development and comparative politics in the non Western world today Beginning with an assessment of the shared factors that seem to determine underdevelopment B C Smith introduces the major theories of development development theory modernization theory neo colonialism and dependency theory and examines the role and character of key political organizations political parties and the military in determining the fate of developing nations This new edition gives special attention to the problems and challenges faced by developing nations as they become democratic states by addressing questions of political legitimacy consensus building religion ethnicity and class

Gender Justice, Development, and Rights Maxine Molyneux, Shahra Razavi, 2002-11-07 This text examines contemporary issues such as neoliberal policies democracy and multiculturalism analyzing them from a gender perspective It examines how liberal rights and ideas of democracy and justice have been absorbed into the political agendas of women's movements

Towards a New Concept of the Political Giacomo Marramao, 2023-12-11 This book addresses the current crisis of democratic politics and its phase of interregnum in which the past finds it hard to die and the future finds it difficult to be born by proposing a radical redefinition of the concept of the Political Drawing on the thoughts of Antonio Gramsci and Walter Benjamin among others it explores the meaning of the lemma *auctoritas* the opposition between authority and power and offers a comparison of the Frankfurt School's radical critique of power with Georges Bataille's critique of political

economy and consumerist productivism demonstrating how the two ultimately converge Based on an ontology of the present that is critical of identity obsession and advances instead a universalism of difference the author proposes a new understanding of politics founded not on vertical domination but on a horizontal recomposition of subjectivities allowing interaction and acting in common between different forms of life This book will therefore appeal to scholars of social and political theory *Rethinking Local Democracy* Desmond S. King, Gerry Stoker, 1996-07-10 The transformation of British local government into a new and complex system of local governance raises fundamental theoretical questions as well as empirical ones *Rethinking Local Democracy* argues that traditional defences of local government are no longer adequate and that the case for local autonomy and local democracy needs to be radically rethought It brings together a set of specially commissioned chapters by leading academics designed to stimulate and contribute to debate on these issues
