Regard Sur Chopin:

Music for Piano F. E. Kirby, 2023-09-21 This historical survey focuses on music for piano solo but also includes important compositions for piano duet and two pianos Scholarly yet readable it covers the entire repertoire from the Renaissance to the late 20th century and incorporates a bibliography of 1 100 sources for further study **Chopin and His Work in the Context of Culture** International Musicological Congress, 2003 **Sonic Transformations of Literary Texts** Siglind Bruhn, 2008 Among the possible relationships between art forms that express themselves in different sign systems the pairing of words and images is the one that is most thoroughly explored And in fact the most securely established terminology is found in a field that has experienced a significant revival in recent years ekphrasis The literary topos through which a poem or any other text addresses itself to the visual arts has received much attention in recent years and been subjected to intense scrutiny **BOOK JACKET The Mystery of Chopin's Préludes** Anatole Leikin, 2016-03-03 Chopin's twenty four Préludes remain as mysterious today as when they were newly published What prompted Franz Liszt and others to consider Chopin's Préludes to be compositions in their own right rather than introductions to other works What did set Chopin's Préludes so drastically apart from their forerunners What exactly was the morbid the feverish the repellent that Schumann heard in Opus 28 in that wild motley of strange sketches and ruins Why did Liszt and another anonymous reviewer publicly suggest that Lamartine's poem Les Préludes served as an inspiration for Chopin's Opus 28 And if that is indeed the case how did the poem affect the structure and the thematic contents of Chopin's Préludes And lastly is Opus 28 a random assortment of short pieces or a cohesive cycle In this monograph richly illustrated with musical examples Anatole Leikin combines historical perspectives hermeneutic and thematic analyses and a range of practical implications for performers to explore these questions and illuminate the music of one of the best loved collections of music for the piano

Accenting the Classics Deborah Mawer, Barbara L. Kelly, Rachel Moore, Graham Sadler, 2023 Brings new insights to the music of well known European composers by telling a fascinating little known story about French music publishing specifically through the lens of Jacques Durand's edition *Classique* French composers performers and musicologists acted as editors of eighteenth and nineteenth century European classics primarily for piano Among these editors were Fauré Saint Saëns Debussy Ravel and Dukas the objects of their enquiries included core works by Rameau Bach Mozart Beethoven Mendelssohn Schumann and Chopin Presenting six composer editor case studies the volume shows that the French accent both musical and cultural upon this predominantly Austro-German music was highly varied Editorial responses range from scholarly approaches to those directed by performance or compositional agendas and from pan-European to strongly patriotic stances Intriguing intersections are revealed between old and new and between French and cross-European canons Beyond editing the book explores the edition's role in pedagogy and performance including by pianists Robert Casadesu and Yvonne Loriod and in the reassertion of contemporary French composition especially regarding innovation around

neoclassicism It will interest a wide readership including musicologists performers and concert goers cultural historians and other humanities scholars

Mercure de France Alfred Louis Edmond Vallettee,1912 **Mercure de France** ,1912 Journals: 1928-1939 Andr Gide,2000 Beginning with a single entry for the year 1889 when he was twenty and continuing intermittently but indefatigably through his life theJournals of Andr Gideconstitute an enlightening moving and endlessly fascinating chronicle of creative energy and conviction Astutely and thoroughly annotated by Justin O Brien in consultation with Gide himself this

translation is the definitive edition of Gide's complete journals. The complete journals representing sixty years of a varied life testify to a disciplined intelligence in a constantly maturing thought. These pages contain aesthetic appreciations, philosophic reflections, sustained literary criticism, notes for the composition of his works, details of his personal life and spiritual conflicts, accounts of his extensive travels and comments on the political and social events of the day from the Dreyfus case to the German occupation. Gide records his progress as a writer and a reader as well as his contacts and conversations with the bright lights of contemporary Europe from Paul Valéry, Paul Claudel, Léon Blum and Auguste Rodin to Marcel Proust, Stephen Mallarmé, Oscar Wilde and Nadia Boulanger. Devoid of affectation, alternately overtaken by depression and animated by a sense of urgency and hunger for literature and beauty, Gide read voraciously, corresponded voluminously and thought profoundly, always questioning and doubting in search of the unadulterated truth. The only drama that really interests me and that I should always be willing to depict anew, he wrote, is the debate of the individual with whatever keeps him from being authentic, with whatever is opposed to his integrity, to his integration. Most often the obstacle is within him. And all the rest is merely accidental.
