Revolutionary Citizens:

Revolutionary Citizens Daniel C. Littlefield, 1997-04-03 It is not entirely clear who provoked the British musket fire at the Custom House in Boston on March 5 1770 but the volley wounded eight men and killed five Crispus Attucks a tall young mulatto was one of the men who died in the confrontation He would later become a revolutionary hero celebrated as the first to defy and the first to die in the cause of colonial liberty that went down in history as the Boston Massacre When the American Revolution broke out six years later African Americans like Crispus Attucks were among the first to rally to Patriot banners As they fought to free their country they also fought to free themselves from slavery This nation's fight for independence from Great Britain laid bare the contradictions between slavery and freedom for African Americans It was a contradiction many resolved to settle Some joined with other colonists in striking direct blows for liberty Others meanwhile heard the pleas for loyalty to the British crown and with the promise of emancipation as their reward remained faithful to the old order only to see it vanish before them But whether in the poems of Phillis Wheatley the legal action of Quok Walker or the efforts of businessman Paul Cuffe Americans of African descent helped define what it meant to be revolutionary citizens By 1804 however slavery seized a new lease on life King Cotton demanded black slaves and produced a generation born into servitude Unlike their immigrant forefathers these African Americans had no memory of a homeland and depended upon stories handed down around fireplaces campfires and bedsides for their knowledge of their ancestors They might hear of people who had fought with the British or against them or of people who had gone overseas or run away and formed communities of their own Unfortunately they would have few opportunities for such heroics in the 19th century In *Revolutionary Citizens* author Daniel C Littlefield brings to life African American heroes and heroines who both shaped and were shaped by the times in which they lived From their embrace of religion to the formation of independent institutions such as the Free African Union Society African Americans inserted themselves into the social and cultural life of the country Ever aware of the implication of freedom they spread word of their own efforts throughout the Americas

Revolutionary Women in Postrevolutionary Mexico Jocelyn H. Olcott, 2006-01-17 A history of women's political organizing and state formation in Mexico before and during the populist regime of Cardenas challenging assumptions that all Mexican women were conservative and anti revolutionary

The Citizenship Revolution Douglas Bradburn, 2009-07-13 Most Americans believe that the ratification of the Constitution in 1788 marked the settlement of post Revolutionary disputes over the meanings of rights democracy and sovereignty in the new nation In *The Citizenship Revolution* Douglas Bradburn undercuts this view by showing that the Union not the Nation was the most important product of independence In 1774 everyone in British North America was a subject of King George and Parliament In 1776 a number of newly independent states composed of American citizens began cobbling together a Union to fight their former fellow countrymen But who was an American What did it mean to be a citizen and not a subject And why did it matter Bradburn's stunning reinterpretation requires us to

rethink the traditional chronologies and stories of the American Revolutionary experience He places battles over the meaning of citizenship in law and in politics at the center of the narrative He shows that the new political community ultimately discovered that it was not really a Nation but a Union of States and that it was the states that set the boundaries of belonging and the very character of rights for citizens and everyone else To those inclined to believe that the ratification of the Constitution assured the importance of national authority and law in the lives of American people the emphasis on the significance and power of the states as the arbiter of American rights and the character of nationhood may seem strange But as Bradburn argues state control of the ultimate meaning of American citizenship represented the first stable outcome of the crisis of authority allegiance and identity that had exploded in the American Revolution a political settlement delicately reached in the first years of the nineteenth century So ended the first great phase of the American citizenship revolution a continuing struggle to reconcile the promise of revolutionary equality with the pressing and sometimes competing demands of law order and the pursuit of happiness

Revolutionary Parks Emily Wakild, 2025-10-28 Winner of the Alfred B Thomas Award Southeastern Council of Latin American Studies Revolutionary Parks tells the surprising story of how forty national parks were created in Mexico during the latter stages of the first social revolution of the twentieth century By 1940 Mexico had more national parks than any other country Together they protected more than two million acres of land in fourteen states Even more remarkable L zaro C rdenas president of Mexico in the 1930s began to promote concepts akin to sustainable development and ecotourism Conventional wisdom indicates that tropical and post colonial countries especially in the early twentieth century have seldom had the ability or the ambition to protect nature on a national scale It is also unusual for any country to make conservation a political priority in the middle of major reforms after a revolution What emerges in Emily Wakild s deft inquiry is the story of a nature protection program that takes into account the history society and culture of the times Wakild employs case studies of four parks to show how the revolutionary momentum coalesced to create early environmentalism in Mexico According to Wakild Mexico s national parks were the outgrowth of revolutionary affinities for both rational science and social justice Yet rather than reserves set aside solely for ecology or politics rural people continued to inhabit these landscapes and use them for a range of activities from growing crops to producing charcoal Sympathy for rural people tempered the radicalism of scientific conservationists This fine balance between recognizing the morally valuable if not always economically profitable work of rural people and designing a revolutionary state that respected ecological limits proved to be a radical episode of government foresight

History of the French Revolution. Translated by C. Coeks, etc Jules Michelet, 1848 *Literature and Citizenship in the Age of Revolution* Mitchell Gauvin, 2024-09-11 Citizenship is at the forefront of popular imagination as political movements and state governments around the world traffic in anti immigrant rhetoric and call for increased policing of borders Literature and Citizenship in the Age of Revolution A Wish for Air and Liberty looks back to a critical historical juncture in the development of citizenship to uncover how

literature contoured and contested imaginings of citizenship While territory and the nation state often frame our understanding of citizenship this book focuses on how non citizens foreigners and strangers have long been central to citizenship s coherence Rather than rootedness literary texts exposed the circulations of persons ideas and affections at the heart of citizenship This book brings together an unlikely combination of writers Olaudah Equiano Jane Austen Mary Shelley and Herman Melville to show how literature in the Age of Revolution exposed contradictions in notions of liberty and slavery that impacted how citizenship was conceived and practiced **Muslims and Citizens** Ian Coller,2020-03-20 A

groundbreaking study of the role of Muslims in eighteenth century France This elegant braided history of Muslims and French citizenship is urgently needed It will be a must read for students of the French Revolution and anyone interested in modern France Carla Hesse University of California Berkeley From the beginning French revolutionaries imagined their transformation as a universal one that must include Muslims Europe s most immediate neighbors They believed in a world in which Muslims could and would be French citizens but they disagreed violently about how to implement their visions of universalism and accommodate religious and social difference Muslims too saw an opportunity particularly as European powers turned against the new French Republic leaving the Muslim polities of the Middle East and North Africa as France s only friends in the region In *Muslims and Citizens* Coller examines how Muslims came to participate in the political struggles of the revolution and how revolutionaries used Muslims in France and beyond as a test case for their ideals In his final chapter Coller reveals how the French Revolution s fascination with the Muslim world paved the way to Napoleon s disastrous invasion of Egypt in 1798 *The Scots Magazine, Or, General Repository of Literature, History, and Politics*

American life rich in gripping first person accounts and short character sketches that invite readers to relive history as African Americans experienced it We begin in Africa with the growth of the slave trade and follow the forced migration of what is estimated to be between ten and twenty million people witnessing the terrible human cost of slavery in the colonies of England and Spain We read of the Haitian Revolution which ended victoriously in 1804 with the birth of the first independent black nation in the New World and of slave rebellions and resistance in the United States in the years leading up to the Civil War There are vivid accounts of the Civil War and Reconstruction years the backlash of notorious Jim Crow laws and mob lynchings and the founding of key black educational institutions The contributors also trace the migration of blacks to the major cities the birth of the Harlem Renaissance the hardships of the Great Depression and the service of African Americans in World War II the struggle for Civil Rights in the 1950s and 60s and the emergence of today's black middle class From Harriet Tubman and Frederick Douglass to Martin Luther King Jr and Louis Farrakhan To Make Our World Anew is an unforgettable portrait of a people
