Satiric Eye Forms Of Satire In The Romantic Period:

The Satiric Eye Steven Edward Jones, 2003 The Satiric Eye is a compelling collection of essays on satiric writing images and theatrical performances from 1780-1832. The title alludes to Wordsworth's famous inward eye which is the bliss of solitude and is meant to raise significant critical questions about inwardness, solitude, sincerity, and authenticity in the period. Questions which all these essays address. These diverse contributions range from advertising to Jane Austen, graphic pamphlets to the pantomime and illuminate with a satiric eye many presuppositions about early nineteenth-century literature. Taken together, they challenge the critical conventions about what matters in the Romantic period: the preoccupation with nature, the Gothic revolution, sentiment, beauty, and literary aesthetics. In their stunning range, the essays both decenter Romanticism and reorient the canonical works, authors, and the critical constructs that have defined it. *Neoclassical Satire and the Romantic School 1780-1830* Rolf P. Lessenich, 2012 Romanticism was not only heterogeneous and disunited. It also had to face the hostile counter-movement of the Enlightenment and Augustan Neoclassicism, still going strong at the time of and in the decades following the French Revolution, due to support from the ruling Establishment, the ancien régime of the Crown and Church of England. Neoclassicists regarded Romanticism as a heteretical amalgam of dissenting new schools which threatened the monopoly of the Classical Tradition. The acrimonious debates in aesthetics and politics were conducted with the traditional strategies of the classical *ars disputandi* on both sides. Under the duress of the heaviest satirical attacks, Romanticism began gradually to see itself as one movement, giving rise to the problematic opposition of Classical and Romantic. The construction of this rough divide, however, was indispensable for the clarification of different positions in the hubbub of conflicting voices and has also proved critical in literary and cultural studies which cannot do without such subsumptions. The Classical Tradition encompassing Christianity emerges as an ongoing event from Greek and Latin antiquity running through to our time. Mary Robinson and the Genesis of Romanticism Ashley Cross, 2016-08-19 First coming to prominence as an actress and scandalous celebrity, Mary Robinson created an identity for herself as a Romantic poet and novelist in the 1790s. Through a series of literary dialogues with established writers, Robinson put herself at the center of Romantic literary culture as observer, participant, and creator. Cross argues that Robinson's dialogues shaped the nature of Romantic writing both in content and form and influenced second-generation Romantics. These dialogues further establish the idea of Romantic discourse as essentially interactive and conversational, not the work of original geniuses working in isolation and positions Robinson as a central player in its genesis. *Key Concepts in Romantic Literature* Jane Moore, John Strachan, 2010-09-10 *Key Concepts in Romantic Literature* is an accessible and easy-to-use scholarly guide to the literature, criticism, and history of the culturally rich and politically turbulent Romantic era, 1789-1832. The book offers a comprehensive and critically up-to-date account of the fascinating poetry, novels, and drama which characterized the Romantic period, alongside an historically informed account of the important social, political, and aesthetic contexts which shaped that body of

writing The epochal poetry of William Wordsworth William Blake Mary Robinson S T Coleridge Charlotte Smith P B Shelley Lord Byron John Keats Felicia Hemans and Letitia Elizabeth Landon the drama of Joanna Baillie and Charles Robert Maturin the novels of Jane Austen and Mary Shelley all of these figures and many more are insightfully discussed here together with clear and helpful accounts of the key contexts of the age s literature including the French Revolution slavery industrialisation empire and the rise of feminism as well as accounts of perhaps less familiar aspects of late Georgian culture such as visionary spirituality atheism gambling fashion music and sport This is the broadest guide available to late eighteenth and early 19th century British and Irish literature history and culture A Handbook of Romanticism Studies Joel Faflak, Julia M. Wright, 2016-01-19 The Handbook to Romanticism Studies is an accessible and indispensable resource providing students and scholars with a rich array of historical and up to date critical and theoretical contexts for the study of Romanticism Focuses on British Romanticism while also addressing continental and transatlantic Romanticism and earlier periods Utilizes keywords such as imagination sublime poetics philosophy race historiography and visual culture as points of access to the study of Romanticism and the theoretical concerns and the culture of the period Explores topics central to Romanticism studies and the critical trends of the last thirty years Romanticism and Form A. Rawes, 2007-04-26 This book offers new analyzes of canonical texts contextualizations of Romantic forms in relation to war nationalism and empire reassessments of neglected and marginalized writers and explorations of the relationship between form and reader It showcases a range of new approaches that are informed by deconstruction theology and new technology **The Encyclopedia of Romantic Literature, 3 Volume Set** Frederick Burwick, Nancy Moore Goslee, Diane Long Hoeveler, 2012-01-30 The Encyclopedia of Romantic Literature is an authoritative three volume reference work that covers British artistic literary and intellectual movements between 1780 and 1830 within the context of European transatlantic and colonial historical and cultural interaction Comprises over 275 entries ranging from 1 000 to 6 500 words arranged in A Z format across three fully cross referenced volumes Written by an international cast of leading and emerging scholars Entries explore genre development in prose poetry and drama of the Romantic period key authors and their works and key themes Also available online as part of the Wiley Blackwell Encyclopedia of Literature providing 24 7 access and powerful searching browsing and cross referencing capabilities Distance, Theatre, and the Public Voice, 1750-1850 M. Nuss, 2012-12-05 As theatres expanded in the eighteenth and nineteenth centuries the distance between actor and audience became a telling metaphor for the distance emerging between writers and readers Nuss explores the ways in which theatre helped authors imagine connecting with a new mass audience Staging Romantic Chameleons and Imposters William D. Brewer, 2015-01-15 Examining chameleonic identities as seen in theatrical performances and literary texts during the Romantic period this study explores cultural attitudes toward imposture and how it reveals important and much debated issues about this time period Brewer shows chameleonism evoked anxieties about both social instability and British selfhood *Satirizing Modernism* Emmett

Stinson, 2017-06-01 *Satirizing Modernism* examines 20th century novels that satirize avant garde artists and authors while also using experimental techniques associated with literary modernism. These novels, such as Wyndham Lewis's *The Apes of God*, William Gaddis's *The Recognitions*, and Gilbert Sorrentino's *Imaginative Qualities of Actual Things*, were under-recognized and received poor reviews at the time of publication but have increasingly been acknowledged as both groundbreaking and deeply influential. *Satirizing Modernism* analyzes these novels in order to present an alternative account of literary modernism which should be viewed neither as a radical break with the past nor an outmoded set of aesthetics overtaken by a later postmodernism. In self-reflexively critiquing their own aesthetics, these works express an unconventional modernism that both revises literary history and continues to be felt today.
