Committee on Conservation of Cultural Resources, 1942 **Art & métiers du livre** ,2000 *Archives de la recherche* Jérôme Fromageau, Marie Cornu, Bertrand Müller, 2014-05-01 Ce livre engage une réflexion sur les usages des archives g n r es par l acte de recherche dans le processus de production des connaissances et dans la mise en m moire de la science Quels sont le statut et la fonction de l archive dans la construction du savoir quelle est la place des archives scientifiques dans les institutions d archives et quelle pourrait tre la seconde vie de ces archives Lessons Learned Aïcha Ben Abed, Martha Demas, Thomas Roby, 2008-07-15 Mosaik Konservierung Restaurierung Safeguarding Cultural Property and the 1954 Hague Convention Emma Cunliffe, Paul Fox, 2022 Significant attention today focusses on heritage destruction but the key international laws prohibiting it the 1954 Hague Convention for the Protection of Cultural Property in the Event of Armed Conflict and its First and Second Protocols 1954 1999 lay out two core strands to limit the damage the measures of respect for armed forces and the safeguarding measures states parties should put in place in peacetime This volume incorporates wide ranging international perspectives from those in the academy together with practitioner insights from the armed forces and heritage professionals to explore the safeguarding regime Its contributors consider such questions as whether state parties have truly taken all possible steps as the Convention tasks them what we can learn from past practice and how the Convention is implemented today the implications of new trends in heritage law and management such as the rise of the World Heritage Convention and in the increasing focus on safe havens rather than refugees whether new methods of heritage management such as Risk Assessment theory can be applied and in a Convention specifically focussed on state parties what of their opponents armed non state actors Using a mix of case studies and theoretical explorations of new and existing methodologies the contributions cover a broad timespan from World War II to today with examples from Europe the Middle East and Africa Overall the volume s purpose is to promote wider understanding of the practical effectiveness of the Convention in the contemporary world by investigating the perceived opportunities and constraints the Convention offers today to protect cultural property in armed conflict and firmly establishing that such protection must begin in peace

**Moungbakou: Production des Connaissances en Scienc** ,2023-04-13 This book addresses the epistemological ethical

and methodological challenges faced by African scholars in their research practices The epistemological domain addresses three interrelated topics how African university students ethnocentric choice of research topics hampers the production of knowledge researchers adaptation of their research methods to improve validity and the challenge of knowledge production on community museums plagued by gross inertia irregularities uncooperative gatekeepers and inadequate funding The methodological domain foregrounds issues around scientific rigour the criteria for what counts as quality research and reporting standards Contributors contend that the use of mixed methods provides the best scope for the effective study and evaluation of social issues They also detail how better funded projects tend to improve the respect of ethical standards especially as they pertain to the protection of subjects confidentiality Self financed researchers on the other hand tend to be less compliant a challenge that afflict especially younger and inexperienced researchers This volume thus contributes not only to a critical understanding of the challenges faced by social scientists in contemporary Africa but also the prospects and mechanisms on how to improve knowledge production processes
