Historical Dictionary of Botswana Fred Morton,Jeff Ramsay,Part Themba Mgadla,2008-04-23 In September 2006 Botswana celebrated its 40th anniversary of independence During its four decades of freedom the average individual annual income in Botswana has risen from less than 500 in 1966 in today's prices to more than 5 000 in 2006 It has held nine open and free national elections it has expanded the provision of electricity water education and health services to most of its people and it has become an archetype for other nations wanting to put the profits from its natural resources back into the

nation's development While much has improved in the country Botswana still faces three major issues the AIDS epidemic the tens of thousand refugees from South Africa Namibia and Zimbabwe and conflict diamonds The fourth edition of the Historical Dictionary of Botswana through its chronology introductory essay appendixes map bibliography and hundreds of cross referenced dictionary entries on important persons places events institutions and significant political economic social and cultural aspects provides an important reference on this burgeoning African country Historical Dictionary of Botswana Barry Morton, Jeff Ramsay, 2018-06-13 The death of Botswana's last founding father Sir Ketumile Masire in June 2017 marked the end of an era Since the release of the Fourth Edition of Historical Dictionary of Botswana in 2008 Botswana has gone through its most turbulent and divided decade to date Throughout September 2016 when Botswana celebrated its 50th anniversary of independence all the successes of the Seretse and Masire era were sources of massive national pride Botswana had expanded provisions of electricity water education and health services to almost all of its people and become a model nation that owned its natural resources and plowed the profits back into the nation's development Despite these successes Botswana has a high unemployment rate about 20 percent and a much larger cohort of the underemployed This fifth edition of Historical Dictionary of Botswana contains a chronology an introduction appendixes an extensive bibliography and more than 700 cross referenced entries on important personalities and aspects of the country's politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Botswana **Botswana**, 2003 **Botswana** Chris McIntyre, 2003 Botswana's Okavango Delta is a wetland paradise and a top destination in Africa for wildlife enthusiasts who will delight in the thorough coverage of this new Bradt guide The Okavango's unique ecosystem provides a habitat for a multitude of birdlife and plants and its swampland is patrolled by hippos and crocodiles The lure of Chobe National Park as a prime conservation area the Linyanti Swamp central Kalahari Game Reserve and Tsodilo Hills with their wealth of bushman rock art are also covered in depth supplying visitors with a wide range of very accessible attractions and a background to the culture and people of the region Botswana is an ideal guide for visitors heading for lodges and safari camps either as overlanders exploring the wilderness Botswana or those on tailor made tours and fly drive trips The author recognizes the bewildering choice facing the visitor planning a trip to this major safari destination and provides independent guidance on travel options Prospects, 2003 *South African National Bibliography*, 1992 Includes publications received in terms of Copyright Act no 9 of 1916 Green Lands for White Men Meredith McKittrick, 2024-10-08 How an audacious environmental engineering plan fanned white settlers' visions for South Africa stoked mistrust in scientific experts and gave rise to the Apartheid state In 1918 South Africa's climate seemed to be drying up White farmers claimed that rainfall was dwindling while nineteenth century missionaries and explorers had found riverbeds seashells and other evidence of a verdant past deep in the Kalahari Desert Government experts insisted however that the rains weren't disappearing the land long susceptible to periodic drought had

been further degraded by settler farmers agricultural practices an explanation that white South Africans rejected So when the geologist Ernest Schwarz blamed the land itself the farmers listened Schwarz held that erosion and topography had created arid conditions that rainfall was declining and that agriculture was not to blame As a solution he proposed diverting two rivers to the Kalahari s basins creating a lush country where white South Africans could thrive This plan which became known as the Kalahari Thirstland Redemption Scheme was rejected by most scientists But it found support among white South Africans who worried that struggling farmers undermined an image of racial superiority *Green Lands for White Men* explores how white agriculturalists in southern Africa grappled with a parched and changing terrain as they sought to consolidate control over a Black population Meredith McKittrick s timely history of the Redemption Scheme reveals the environment to have been central to South African understandings of race While Schwarz s plan was never implemented it enjoyed sufficient support to prompt government research into its feasibility and years of debate McKittrick shows how white farmers rallied around a plan that represented their interests over those of the South African state and delves into the reasons behind this schism between expert opinion and public perception This backlash against the predominant scientific view McKittrick argues displayed the depth of popular mistrust in an expanding scientific elite A detailed look at the intersection of a settler society climate change white nationalism and expert credibility *Green Lands for White Men* examines the reverberations of a scheme that ultimately failed but influenced ideas about race and the environment in South Africa for decades to come
