Rory Naismith

Saxon London:

Saxon London A. G. Vince, 1990 **Citadel of the Saxons** Rory Naismith, 2018-11-29 With a past as deep and sinewy as the famous River Thames that twists like an eel around the jutting peninsula of Mudchute and the Isle of Dogs London is one of the world's greatest and most resilient cities Born beside the sludge and the silt of the meandering waterway that has always been its lifeblood it has weathered invasion flood abandonment fire and bombing The modern story of London is well known Much has been written about the later history of this megalopolis which like a seductive dark star has drawn incomers perpetually into its orbit Yet as Rory Naismith reveals in his zesty evocation of the nascent medieval city much less has been said about how close it came to earlier obliteration Following the collapse of Roman civilization in fifth century Britannia darkness fell over the former province Villas crumbled to ruin vital commodities became scarce cities decayed and Londinium the capital was all but abandoned Yet despite its demise as a living city memories of its greatness endured like the moss and bindweed which now ensnared its toppled columns and pilasters By the 600s a new settlement Lundenwic was established on the banks of the River Thames by enterprising traders who braved the North Sea in their precarious small boats The history of the city's phoenix like resurrection as it was transformed from an empty shell into a court of kings and favoured setting for church councils from across the land is still virtually unknown The author here vividly evokes the forgotten Lundenwic and the later fortress on the Thames Lundenburgh of desperate Anglo Saxon defenders who retreated inside their Roman walls to stand fast against menacing Viking incursions Recalling the lost cities which laid the foundations of today's great capital this book tells the stirring story of how dead Londinium was reborn against the odds as a bulwark against the Danes and a pivotal English citadel It recounts how Anglo Saxon London survived to become the most important town in England and a vital stronghold in later campaigns against the Normans in 1066 Revealing the remarkable extent to which London was at the centre of things from the very beginning this volume at last gives the vibrant early medieval city its due *London* Francis Sheppard, 2000 London has for most of 2000 years been the hub of the political economic and cultural life of the British Isles No other city has held such a dominant national position for so long This new study by the doyen of London historians describes London's diverse past from its origins as a Roman settlement at the first bridging of the Thames to the world class metropolis it is today It provides a vivid account of a city which was the deere sweete place which Chaucer loved more than any other city on earth which was for Dickens his magic lantern and to Keats a great sea howling for more wrecks It is also a story of much contrast and remarkable resilience through great fires and pestilence civil war and the Blitz London has rebuilt and reinvented itself for each generation **London** Max John Christian Meiklejohn, 1898 **Excavations at Medieval Cripplegate, London** Gustav Milne, 2013-01-15 The Cripplegate area of London was the site of a Roman fort and later of medieval structures and artefacts Excavations between 1946 and 1968 by Professor W F Grimes for the Roman and Medieval London Excavation Council were carried out on 25 bomb damaged sites and were preliminarily reported by him in 1968 As

part of a major post excavation programme funded by English Heritage from 1992 to 1997 the archived material from these excavations are being fully published in a series of five volumes of which this book is one This report analyses the material afresh and re appraises Grimes work It discusses the post Roman structures and artefacts of the medieval defences secular buildings including evidence of Saxon London parish churches and a medieval hospital Finally these structures are put into a more contextual framework in a discussion of the dating and development of the street pattern of medieval Cripplegate
