Psychoanalysis and Gender Rosalind Minsky, 2014-04-23 What is object relations theory and what does it have to do with literary studies How can Freud's phallogocentric theories be applied by feminist critics In *Psychoanalysis and Gender: An Introductory Reader* Rosalind Minsky answers these questions and more offering students a clear straightforward overview without ever losing them in jargon In the first section Minsky outlines the fundamentals of the theory introducing the key thinkers and providing clear commentary In the second section the theory is demonstrated by an anthology of seminal essays which includes *Femininity* by Sigmund Freud *Envy and Gratitude* by Melanie Klein An extract from *Transitional Objects and Transitional Phenomena* by Donald Winnicott *The Meaning of the Phallus* by Jacques Lacan An extract from *Women's Time* by Julia Kristeva An extract from *Speculum of the Other Woman* by Luce Irigaray Love, Hate and Reparation ... Psychology and the Natural Law of Reparation C. Fred Alford, 2006-05-15 Are there universal values of right and wrong good and bad shared by virtually every human The tradition of natural law argues that there is Drawing on the work of psychoanalyst Melanie Klein whose analyses have touched upon issues related to original sin trespass guilt and salvation through reparation in this 2006 book C Fred Alford adds an extra dimension to this argument we know natural law to be true because we have hated before we have loved and have wished to destroy before we have wanted to create Natural law is built upon the desire to make reparation for the goodness we have destroyed or have longed to destroy Through reparation we earn salvation from the most hateful part of ourselves that which would destroy what we know to be good

The Poetics of Psychoanalysis Mary Jacobus, 2005-12-22 *The Poetics of Psychoanalysis: In the Wake of Klein* explores the literary aspects of the twentieth century psychoanalytic tradition that has come to be known as British Object Relations psychoanalysis Focusing on Melanie Klein's legacy to psychoanalysis between the 1930s and 1970s it deals with major figures such as Riviere Isaacs Winnicott Milner and Bion as well as Klein's contemporary Ella Sharpe Mary Jacobus breaks new ground by giving a central place to the literary and aesthetic concerns of the British Object Relations tradition Paying close attention to writing that is often side lined by literary critics and theorists she makes fruitful connections with particular works of literature and art along with pressing contemporary issues The three sections focus on the transitions mediations and transformations that took place in British Object Relations psychoanalysis as Klein's ideas were developed and transformed Situating Kleinian thought in relation to later developments and differences while making it accessible to non psychoanalytic readers *The Poetics of Psychoanalysis* argues against the separation of British and continental traditions and for the continuing links between psychoanalysis and

aesthetics Rather than applying psychoanalytic ideas to literature and aesthetics the book traces the British Object Relations tradition as a form of proto modernist discourse in its own right Linked by a common thread of ideas and structured to reflect a roughly chronological trajectory individual chapters can also be read as free standing critical essays Aimed at literary readers this book will also be of interest to psychoanalytic practitioners and cultural theorists Rethinking Gendered Regulations and Resistances in Education Jessica Ringrose,2014-06-11 Rethinking Gendered Regulations and Resistances in Education highlights key debates on the theme of regulation and resistance focusing on some of the most pressing contemporary issues in the field of gender and education today It underlines the need for educational research to attend to historical and psychosocial specificity chart local complexity and global disparity de colonise our Euro western centered gender analysis and consistently engage with the economic and policy domains of education as researchers and practitioners if we are to effectively tackle the diversity and complexity of gender equality issues in education Chapters in this collection showcase some of the varied and wide ranging theoretical approaches at play in current gender and education scholarship and raise questions about the types of research methods that can open up new ways of documenting processes of social and subjective struggle and transformation in education It stimulates important thinking about what has been what is and what can be as we face the future of gender and educational engagement struggle and debate This book was originally published as a special issue of Gender and Education **The Psychology of War and Peace** Fred van Houten,2013-06-29 Can a Baby

Be an Enemy Our world is in a deep prolonged crisis The threat of global nuclear war the chronic condition of local wars the imperilled environment and mass starvation are among the major forms this crisis takes The dangers of massive overkill overexploitation of the environment and overpopulation are well known but surprisingly little has been said about their potential interactions their bearing upon each other If there were to be a nuclear confrontation between today's superpowers it might not take place in today's world but in a far less friendly habitat such as the world may be some decades hence And it need hardly be added that the era of this particular super power configuration may be waning rapidly its place to be taken by other international arrangements not necessarily less threatening To understand and cope with our situation we need correspondingly serious reflection This volume forms a welcome part of that process Unavoidably a large part of our thinking about the issues of human survival must be oriented to physical and biological aspects of the total danger But it has not escaped the authors of this book that coupled with these aspects there are profound psychological dangers such as loss of the sense of futuristic moral deterioration and a fatalistic decline in the will to struggle to protect our home the Earth

The Emotional Dynamics of Law and Legal Discourse Heather Conway,John Stannard,2016-12-15 In his seminal work Emotional Intelligence Daniel Goleman suggests that the common view of human intelligence is far too narrow and that emotions play a much greater role in thought decision making and individual success than is commonly acknowledged The importance of emotion to human experience cannot be denied yet the relationship between law and emotion is one that has

largely been ignored until recent years. However, the last two decades have seen a rapidly expanding interest among scholars of all disciplines into the way in which law and the emotions interact, including the law's response to emotion and the extent to which emotions pervade the practice of the law. In *The Emotional Dynamics of Law and Legal Discourse*, a group of leading scholars from both sides of the Atlantic explore these issues across key areas of private law, public law, criminal justice, and dispute resolution, illustrating how emotion infuses all areas of legal thought. The collection argues for a more positive view of the role of emotion in the context of legal discourse and demonstrates ways in which the law could, in the words of Goleman, become more emotionally intelligent.

Trauma and Forgiveness C. Fred Alford, 2014-01-09 Contrary to the view of trauma popularized by literary theorists, *Trauma and Forgiveness* argues that the traumatized are capable of representing their experience and that we should therefore listen more and theorize less. Using stories and case studies, including testimonies from Holocaust survivors as well as the victims of ordinary trauma, C. Fred Alford shows that while the traumatized are generally capable of representing their experience, this does little to heal them. He draws on the British Object Relations tradition in psychoanalysis to argue that forgiveness, which might be expected to help heal the traumatized, is generally an attempt to avoid the hard work of mourning losses that can never be made whole. Forgiveness is better seen as a virtue in the classical sense: a recognition of human vulnerability. The book concludes with an extended case study of the essayist Jean Amry and his refusal to forgive.

Islamic Terror Avner Falk, 2008-07-30 Independent scholar Falk analyzes the genesis of Islamic terror from many standpoints, including religious, cultural, historical, political, social, economic, and above all, psychological. Drawing on his training as a clinical psychologist, Falk's writings specialize in psychohistory and political psychology. Here he examines topics including infantile experience and adult terrorism, the meaning of terror, terrorists, and their mothers' narcissistic rage and Islamic terror, and whether terrorists are normal people, as some scholars claim. He also describes the infantile development of terrorist pathology, non-psychoanalytic theories of terrorism, globalization's effect on terrorism, and the notion of the clash of civilizations. Other topics addressed in this reader-friendly analysis include history's first Islamic terrorists and three important cases: two recent deadly terrorists and a primary figure in our current war on terror.

He also describes the infantile development of terrorist pathology, non-psychoanalytic theories of terrorism, globalization's effect on terrorism, and the notion of the clash of civilizations. Examining the emotional structure of traditional Muslim families, Falk shows us the Muslim child's ambivalence toward his or her parents, ways in which Muslims abuse women and children, and the roots of Muslim rage and why all of that plays into the development of

future terrorism Other topics addressed in this reader friendly analysis include history's first Islamic terrorists and three important cases two recent deadly terrorists and a primary figure in our current war on terror The central idea throughout the book is that a person's attitude toward terror and terrorism as well as whether he or she becomes a murderous terrorist or even who wages a global war on terror has much to do with that person's own terrifying experiences in infancy and childhood Such terror usually experienced first in the earliest interactions with the mother is symbolically expressed as Falk shows in fairy tales and myths about terrifying witches and female monsters Further terror may be experienced in the relationship with the father and also in various other traumatic ways It is these early terrors when extreme and uncontrollable that most often produce terrorists and wars on terror Falk argues Thus his book focuses on the conscious but also on the irrational and unconscious causes of terrorism *The Democratic Arts of Mourning* Alexander Keller

Hirsch,David W. McIvor,2019-01-21 The Democratic Arts of Mourning reflects on the variety of ways in which mourning affects political and social life In recent decades political theorists have increasingly examined and explored the themes of loss grief and mourning With an introduction that contextualizes the turn to mourning in previous scholarship on the politics of tragedy this book includes twelve chapters that clarify the intertwinement between politics and mourning The chapters are organized into five thematic sections that each shed light on how democratic societies relate to loss grief suffering and death Collectively the chapters explore the concept of mourning and its relationship to civic rituals memorials taboos social movements and popular music Chapters examine how social groups defend their members against experiences of grief or mourning or how poetic expressions such as ancient Greek tragedy can address the catastrophes of human life Other chapters explore the politics of symbols and bodies and how they can become fraught objects that stand in for a society's undigested unmourned losses and absences The book concludes with an interview with Bonnie Honig whose own work on mourning has been deeply influential in contemporary political theory *Sincerity and Other Works* Donald

Meltzer,2018-05-30 The author formulates here the existence of an anxiety apparatus whose functioning is a part of the ego and the personality structure and illustrates how in attacking this apparatus the ego is attacking itself An example is given of the workings of the death instinct and a differentiation is made between the ego's defence mechanisms and other pathological character devices *The Criminal Law's Person* Claes Lernestedt,Matt Matravers,2022-02-10 The state's use of

the threat and imposition of punishments to regulate conduct is thought or at least said by many to be legitimised by the idea that the criminal law's burdens only fall on those who are blameworthy for their conduct However the formal concept of blameworthiness needs to be made substantive This puts various ideas regarding the criminal law's person at the heart of debates about blame guilt and responsibility How is the criminal law's person constructed by whom and with what disciplinary norms How is it threatened by new knowledge and how do those threats play out amongst the various stakeholders who claim the criminal law's person as theirs To address these and cognate questions this volume brings

together an international group of academics to engage with the criminal law's person from a range of disciplinary perspectives
