Universal (In the Realm of the Sensible) Dorothea Olkowski, 2007-03-02 The Universal In the realm of the sensible Beyond Continental Philosophy proposes a radical new philosophical system that moves from ontology to ethics Dorothea Olkowski develops the concept of an ontological unconscious a connection arising from our sensible relation to the world that conditions encounters with the environment and with others This fundamental ontology rethinks the space time relations opened by Irigaray's notion of the interval Bergson's recollection Merleau Ponty's idea of the flesh and Deleuze's plane of immanence Writing in an original style inspired by literature and the arts Olkowski locates a realm of the senses a field of vulnerability felt as pleasures and pains This presents an aesthetic sense of something universal to all human kind as well as to the organic and inorganic world In addition to this proposal for a wider ontology the relation between traditional ontologies and politics is examined as a means of opening politics beyond a no exit or limit cycle Instead a multiplicity of self organized emergent perspectives emerges eliminating the need for the connections conjunctions and disjunctions of the Kantian paradigm at work in contemporary continental philosophy This is a timely controversial and important book that will contribute enormously to the study of Deleuze and Continental Philosophy

Reading Derrida / Thinking Paul Theodore W. Jennings, 2006 This book explores the interweaving of several of Derrida's characteristic concerns with themes that Paul explores in Romans It argues that the

central concern of Romans is with the question of justice a justice that must be thought outside of law on the basis of grace or gift The many perplexities that arise from thus trying to think justice outside of law are clarified by reading Derrida on such themes as justice and law gift and exchange duty and debt hospitality cosmopolitanism and pardon This interweaving of Paul and Derrida shows that Paul may be read as a thinker who wrestles with real problems that are of concern to anyone who thinks It also shows that Derrida far from being the enemy of theological reflection is himself a necessary companion to the thinking of the biblical theologian Against the grain of what passes for common wisdom this book argues that both Derrida and Paul are indispensable guides to a new way of thinking about justice
