Marx Before Marxism By McLellan David:

Marx Before Marxism David McLellan, 1980 **Karl Marx and Friedrich Engels (RLE Marxism)** Cecil L. Eubanks, 2015-04-17 The project to publish the works of Marx and Engels continues and this book published in 1984 puts together a comprehensive bibliography of their works either written in or translated into English including books monographs articles chapters and doctoral dissertations together with the works of their interpreters The inclusion of the secondary literature makes this a particularly valuable bibliography and contributes greatly to the understanding of the thought of Marx and Engels *Marx's Ecology* John Bellamy Foster, 2000-03 By reconstructing a materialist conception of nature and society Marx's Ecology challenges the spiritualism prevalent in the modern Green movement pointing toward a method that offers more lasting sustainable solutions to the ecological crisis **Marxism, Religion and Ideology** David Bates, Iain MacKenzie, Sean Sayers, 2015-10-05 As austerity measures are put into place the world over and global restructuring is acknowledged by all as an attempt to bolster the economic system that led to the crash there is a great need to come to grips with the economic political and philosophical legacy of Marx Of particular interest are Marx's analyses of alienation and the cycles of boom and bust thought to be integral to the functioning of capitalism Moreover as the Cold War drifts into the history books it is possible to reconsider the lasting impact of Marx's analyses without the shadows cast by the Soviet version of communism Equally though scholars are increasingly turning to Marx for insight into the rise of religion and the corresponding demise of political ideologies that seems to mark the contemporary age Are we witnessing the return of Marx Few scholars have done as much to tease out the intricacies of Marx ideology and religion and their overlapping concerns as the eminent writer and Marx biographer Professor David McLellan This book brings together a group of internationally renowned academics to reflect upon develop and criticise McLellan's analyses of these three themes with a view to contributing more broadly to scholarly debates in these fields This exciting and timely analysis will be of interest to scholars of political theory the history of political thought including historical methodology Marx and Marxism sociology of knowledge particularly in relation to discussions of ideology religion and theology more widely [The Cambridge Companion to Marx](#) Terrell Carver, 1991-10-25 In the wake of political collapse in Eastern Europe the intellectual influence of Marx's thought requires re appraisal Backed by current debate and new perspectives this volume provides comprehensive coverage of his significant contributions **Marx and Mead** Tom Goff, 2014-08-13 It has often been suggested that a resolution of issues generated by the sociological study of ideas might be reached through a synthesis of specific insights to be found in the works of Karl Marx and George Herbert Mead The present study originated in an investigation of this hypothesis particularly as it bears on the central issue of sociological relativism The author began by delineating the specific problems such a synthesis might resolve and in the process became aware that the nature and depth of differences separating the sociology of knowledge and its critics have never been fully analysed or understood This volume therefore

opens with a clarification of these differences a clarification which leads to considerable redefinition of the problem as it has traditionally been understood by critics and proponents of the discipline alike The author points out in particular that it is less a debate than a thorough going contradiction which characterizes the literature dealing with the inadequacies of various formulations of the sociology of knowledge In consequence the study of Marx and Mead presented here is not simply yet another effort to discover a perspective which will satisfy the particular demands of the critics Rather it argues that an adequate perspective fully consistent with the central insight of the discipline that knowledge is radically social in character is to be found in a synthesis of elements in the perspectives of Marx and Mead Philosophy after Marx Christoph

Henning,2014-04-17 Christoph Henning writes a concise history of misreadings of Marx in the 20th century Focussing on German philosophy from Heidegger to Habermas he also addresses the influence of Rawls and Neopragmatism subsequently scrutinizing a previous history of Marx interpretations that had served as the premises upon which these later works were based Henning sketches a historical trajectory in which a theory of socialist politics enters the fields of economics sociology critical theory and theology before finally overloaded with intellectually dead freight entering into philosophy In so doing he takes a hermeneutic approach to how misreadings in a specific field proliferate into further misreadings across a variety of fields leading to an accumulation of questionable preconceptions With the recent resurgence of interest in Marx Henning s historical recursions make evident where and how academic Anti Marxism had previously got it wrong English translation of *Philosophie nach Marx 100 Jahre Marxrezeption und die normative Sozialphilosophie der Gegenwart in der Kritik* Transcript Verlag Bielefeld 2005 **Scare Quotes from Shakespeare** Martin Harries,2000 This book argues that moments of allusion

to the supernatural in Shakespeare are occasions where Karl Marx and John Maynard Keynes register the perseverance of haunted structures in modern culture This reenchantment at the heart of modernity and of literary and political works central to our understanding of modernity is the focus of this book The author shows that allusion to supernatural moments in Shakespeare scare quotes allows writers to both acknowledge and distance themselves from the supernatural phenomena that challenge their disenchanted understanding of the social world He also uses these modern appropriations of Shakespeare as provocations to reread some of his works notably Hamlet and Macbeth Two pairs of linked chapters form the center of the book One pair joins a reading of Marx concentrating on The Eighteenth Brumaire to Hamlet the other links a reading of Keynes focusing on The Economic Consequences of the Peace to Macbeth The chapters on Marx and Keynes trace some of the strange circuits of supernatural rhetoric in their work Marx s use of ghosts and Keynes s fascination with witchcraft The sequence linking Marx to Hamlet for example has as its anchor the Frankfurt School s concept of the phantasmagoria the notion that it is in the most archaic that one encounters the figure of the new Looking closely at Marx s association of the Ghost in Hamlet with the coming revolution in turn illuminates Hamlet s association of the Ghost with the supernatural beings many believed haunted mines An opening chapter discusses Henry Dircks a nineteenth century English

inventor who developed and then lost his claim to a phantasmagoria or machine to project ghosts on stage Dircks resorted to magical rhetoric in response to his loss which is emblematic for the book as a whole charting ways the scare quote can paradoxically continue the work of enlightenment The Antinomies of Classical Thought: Marx and Durkheim (Theoretical Logic in Sociology) Jeffrey Alexander,2014-04-24 This volume challenges prevailing understanding of the two great founders of sociological thought In a detailed and systematic way the author demonstrates how Marx and Durkheim gradually developed the fundamental frameworks for sociological materialism and idealism While most recent interpreters of Marx have placed alienation and subjectivity at the centre of his work Professor Alexander suggests that it was the later Marx s very emphasis on alienation that allowed him to avoid conceptualizing subjectivity altogether In Durkheim s case by contrast the author argues that such objectivist theorizing informed the early work alone and he demonstrates that in his later writings Durkheim elaborated an idealist theory that used religious life as an analytical model for studying the institutions of secular society Film and Reform Ian Aitken,2013-12-13 Best known for his documentaries such as *Drifters* *North Sea* and *Housing Problems* John Grierson was the most important figure in the British documentary film movement and one of the most influential of British film theorists This major assessment of Grierson and the documentary film movement examines the intellectual and aesthetic influences on his work focusing on the material he produced in the inter war years and comparing the idealistic strain of Grierson s social commentary with other social reformists such as the Next Five Years Group and writers like Orwell and Priestley Underlining the link between film and reform the book clarifies the meaning and significance of Grierson s ideas and the historical role of the documentary film movement Originally published in 1990

Social Theories of the Press Hanno Hardt,2001-10-11 Hanno Hardt has thoroughly revised and expanded his pre history of communication research in the United States With the notable addition of Karl Marx s journalism focused writings and a new foreword by James W Carey this edition covers intellectual contributions from several German theorists in the late nineteenth and early twentieth centuries as well as first generation U S sociologists who were influenced by this scholarship A new concluding chapter explores the continuing influence of German social thought and the contemporary shift of paradigms in U S communication research including approaches such as critical Marxist and cultural studies 'True Democracy' as a Prelude to Communism Alexandros Chrysis,2017-12-10 This book constitutes a critical intervention in the theoretical discussion over the political relationship between democracy and communism Shedding light on the philosophical origins of the democracy debate it draws a clear demarcation line between liberalism and republicanism arguing that after rejecting the former and supporting the latter the young Marx endorsed true democracy as a prelude to his forthcoming theory of communism To this end while following the dynamics of the Marxian history of political ideas and pre communist theory of the state the book takes into account the thought of a vast range of philosophers and political theorists starting from the Ancient times Aristotle passing through the Age of Enlightenment Spinoza Rousseau the German Idealist tradition

Hegel the Young Hegelians Republicanism Bauer Ruge Feuerbach and reaching our own times Arendt Colletti MacPherson Castoriadis Poulantzas It will be of interest to students and scholars interested in the history of political thought theories of democracy and Marxism **Cultural Political Economy** Jacqueline Best, Matthew Paterson, 2010-01-21 This book examines the multitude of ways in which the political the cultural and the economic interconnect and intersect and provides case studies focusing on finance tourism contemporary business discourse the war on terror and migration Critical International Theory Richard Devetak, 2018-07-04 Whether inspired by the Frankfurt School or Antonio Gramsci the impact of critical theory on the study of international relations has grown considerably since its advent in the early 1980s This book offers the first intellectual history of critical international theory Richard Devetak approaches this history by locating its emergence in the rising prestige of theory and the theoretical persona As theory's prestige rose in the discipline of international relations it opened the way for normative and metatheoretical reconsiderations of the discipline and the world The book traces the lines of intellectual inheritance through the Frankfurt School to the Enlightenment German idealism and historical materialism to reveal the construction of a particular kind of intellectual persona the critical international theorist who has mastered reflexive dialectical forms of social philosophy In addition to the extensive treatment of critical theory's reception and development in international relations the book recovers a rival form of theory that originates outside the usual inheritance of critical international theory in Renaissance humanism and the civil Enlightenment This historical mode of theorising was intended to combat metaphysical encroachments on politics and international relations and to prioritise the mundane demands of civil government over the self-reflective demands of dialectical social philosophies By proposing contextualist intellectual history as a form of critical theory Critical International Theory defends a mode of historical critique that refuses the normative temptations to project present conceptions onto an alien past and to abstract from the offices of civil government The Ideas of Karl Marx Stefano Petrucciani, 2020-09-10 This book offers a complete presentation of the most important themes of Marx's thought following the development of Marx's theory from the beginning to his death and offering a reconstruction and analysis that covers the whole of Marx's life and works Each chapter presents one of the central topics of Marx's reflection the confrontation with the Hegelian theory of the State 1843 the critique of political liberalism in the On the Jewish Question the discovery of Political Economy in the Manuscripts of 1844 the new theory of history developed in The German Ideology the political theory and the revolution of 1848 the critique of political economy from the Grundrisse to Capital and the political thought of the last Marx the Paris Commune and the critique of the German Social Democratic Party Stefano Petrucciani is Professor of Political Philosophy at the University of Rome La Sapienza Italy

History and Human Existence—From Marx to Merleau-Ponty James Miller, 2023-04-28 From the Introduction The present essay provides an introduction to the treatment of human existence and individuality in Marxist thought The work will be primarily concerned with two related topics the evaluation by Marxists of individual emancipation and their

assessment of subjective factors in social theory By taking up these taking up these topics within a systematic and historical framework I hope to generate some fresh light on several familiar issues First I pursue a reading of Marx focused on his treatment of subjectivity individuation and related methodological and practical matters second I apply this interpretation to analyzing the dispute between Marxist orthodoxy and heterodoxy over such matters as class consciousness and the philosophy of materialism finally I employ this historical context to clarify the significance of existential Marxism Maurice Merleau Ponty s and Jean Paul Sartre s contribution to Marxist thought This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1979 From the Introduction The present essay provides an introduction to the treatment of human existence and individuality in Marxist thought The work will be primarily concerned with two related topics the evaluation by Marxists of individual emancipation

State Theories Kenneth Murray Knuttila, Wendee Kubik, 2000 This text updates the historical context of theories of the state by considering the impact of the decline of the welfare state in the post Fordist era the collapse of communism and the emergence of global information based economies

Central Asia, Security, and Strategic Imperatives Tabassum Firdous, 2002 The present study offers an assessment of security concerns in Central Asia after the collapse of Soviet Union in 1991 It deals with the transition period for the five Central Asian States from the communist system to a democratic and pluralistic one Essentially the focus of the writer is on bilateral multilateral and international commitments of these States to ensure peace and security in the region The withdrawal of nuclear warheads from Kazakhstan collective security formula bilateral agreements and the role of the big powers all make an interesting study The author has discussed these concerns in the context of the stance of neighbouring States vis a vis Central Asia Economic interests also figure wherever necessary This work is highly useful to those who would like to concentrate on any aspect of history in Central Asia and adjoining regions in the post Soviet period

Antisemitism and the Constitution of Sociology Marcel Stoetzler, 2014-07-01 Modern antisemitism and the modern discipline of sociology not only emerged in the same period but antagonism and hostility between the two discourses notwithstanding also overlapped and complemented each other Sociology emerged in a society where modernization was often perceived as destroying unity and social cohesion Antisemitism was likewise a response to the modern age offering in its vilifications of the Jew an explanation of society s deficiencies and crises Antisemitism and the Constitution of Sociology is a collection of twelve essays providing a comparative analysis of modern antisemitism and the rise of sociology This volume addresses three key areas the strong influence of writers of Jewish background and the rising tide of antisemitism on the formation of sociology the role of antisemitism in the historical development of sociology through its treatment by leading figures in the field such as Emile Durkheim Talcott Parsons and Theodor W Adorno and the

discipline's development in the aftermath of the Nazi Holocaust. Together the essays provide a fresh perspective on the history of sociology and the role that antisemitism, Jews, fascism, and the Holocaust played in shaping modern social theory.

The Fascist Persuasion in Radical Politics A. James Gregor, 2015-03-08. How valid are the assertions of contemporary radicals who insist that they are Marxists? A. James Gregor measures the distance that separates today's radicals from the belief system of Marx and Engels. He finds that the characteristic qualities of modern mass mobilizing movements bear more impressive similarities to the paradigmatic Fascism of Benito Mussolini than to classical Marxism. Thus he offers a new conceptual framework for the analysis of contemporary totalitarian movements and established regimes.
