Master Text II:

Young Children's Dyadic Pretend Play Ursula Verena Schwartz, 1991 Pretend play in early childhood arises in the context of social interaction and as such constitutes a form of discourse indigenous to the child's world. The present study is a first detailed investigation of thematic ideational structure in young children's dyadic pretend play with special emphasis on major generative strategies involved in the realization of coherent play action sequences. Play was conceptualized as a story in a dramatic mode where two actors jointly generate or attempt to generate ideationally coherent action sequences or play plots resulting in a complex ever evolving thematic structure at a number of levels of analysis. Methodological problems of analysis resulted in the creation of an analytic procedure Master Text that simultaneously addresses structural and processual features of play and is able to deal with lengthy play segments. The results characterize playing as a form of discourse which proceeds according to patterned regularities at the level of Thematic Core Structures and associated schemata which underly the plot surface. The realization of such structurizations comes about during the play process in a complex interplay with features of the setting and requires establishing and modifying a shared knowledge base. These findings are discussed in light of their significance for childhood socialization.

The Royal Inscriptions of Sargon II, King of Assyria (721-705 BC) Grant Frame, 2020-11-25 The Neo Assyrian king Sargon II was one of the most important and famous rulers of ancient Mesopotamia. In this volume of critically important ancient documents, Grant Frame presents reliable updated editions of Sargon's approximately 130 historical inscriptions as well as several from his wife, his brother, and other high officials. Beginning with a thorough introduction to the reign of Sargon II and an overview of the previous scholarship on his inscriptions, this modern scholarly edition contains the entire extant corpus. It presents more than 130 inscriptions preserved on stone wall slabs from his palace, paving slabs, colossal steles, prisms, cylinders, bricks, metal, and other objects along with brief introductions, commentaries, comprehensive bibliographies, accurate transliterations, and elegant English translations of the Akkadian texts. This monumental work is complemented by more than two dozen photographs of the inscribed objects, indices of museum and excavation numbers, selected publications, and proper names and translations of relevant passages from several other Akkadian texts including chronicles and king lists. Informed by advances in the study of the Akkadian language and featuring more than twice as many texts as previous editions of Sargon II's inscriptions, this will be the *editio princeps* for Assyriologists and students of the Sargonic inscriptions for decades to come.

Schweig, 2024-02-19 Posthumous Editing of a Great Master's Work Special Focus on the Writings of A C Bhaktivedanta Swami Prabhupada examines how a leading figure's hallowed written and published works which remain so important to the religious community should be editorially treated following the leader's departure from this world The volume addresses the theological ethical social and legal implications of posthumous editing and even improving a great

The Constitution of Ireland Oran Doyle, 2018-11-29 This book provides a contextual analysis of constitutional governance in Ireland It presents the 1937 Constitution as a seminal moment in an ongoing constitutional evolution rather than a foundational event The book demonstrates how the Irish constitutional order revolves around a bipartite separation of powers The Government is dominant but is legally constrained by the courts particularly in their interpretations of the fundamental rights protected by the Constitution In recent decades the courts have weakened the constitutional constraints on the Government Political constraints imposed by opposition parties in Parliament and new accountability institutions such as the Ombudsman have moderately strengthened but the Government remains by far the most powerful political actor There is a risk that such executive dominance could lead to democratic decay however the referendum requirement for constitutional amendment has prevented Governments from accumulating greater constitutional power The book begins with an overview of Irish constitutional history leading to the enactment of the 1937 Constitution before exploring the foundational decisions made by the Constitution in relation to territory people and citizenship Particular attention is paid to the constitutional relationship with Northern Ireland currently unsettled by the decision of the United Kingdom to leave the European Union The book details the key institutions of state Government Parliament President and courts before analysing how different constitutional actors exercise their respective powers of governance contestation and oversight A thematic approach is taken to the courts interpretation of fundamental rights showing how judicial attitudes have markedly changed over time Further attention is paid to both formal amendment and informal constitutional change The Constitution today is markedly different from 1937 it is non committal on national reunification less influenced by Roman Catholic natural law teaching and generally more permissive of Government action It is perhaps these developments however that explain its continued success or at least its longevity
