Orleans documents grassroots rebuilding efforts in New Orleans neighborhoods after hurricane Katrina and draws lessons on
their contribution to the post disaster recovery of cities The book begins with two chapters that address Katrina s impact and
the planning and public sector recovery policies that set the context for neighborhood recovery Rebuilding narratives for six
New Orleans neighborhoods are then presented and analyzed In the heavily flooded Broadmoor and Village de L Est
neighborhoods residents coalesced around communitywide initiatives one through a neighborhood association and the
second under church leadership to help homeowners return and restore housing get key public facilities and businesses
rebuilt and create new community based organizations and civic capacity A comparison of four adjacent neighborhoods in the
center of the city show how differing socioeconomic conditions geography government policies and neighborhood capacity
created varied recovery trajectories The concluding chapter argues that grassroots and neighborhood scale initiatives can
make important contributions to city recovery in four areas repopulation restoring complete neighborhoods with key services
and amenities rebuilding parts of the small business economy and enhancing recovery capacity It also calls for more
balanced investments and policies to rebuild rental and owner occupied housing and more deliberate collaboration with
community based organizations to undertake and implement recovery plans and proposes changes to federal disaster
recovery policies and programs to leverage the contribution of grassroots rebuilding and more support for city recovery
