Sufis Idries Shah,2020-06-20 The Sufis is the best introduction ever written to the philosophical and mystical school traditionally associated with the Islamic world Powerful concise and intensely thought provoking it sums up over a thousand years of Eastern thought the product of some of the greatest minds humanity has ever produced into a single work presenting timeless ideas in a fresh and contemporary style When the book was originally published in 1964 it launched its author Idries Shah on to the international stage attracting the attention of thinkers and writers such as J D Salinger Doris Lessing Ted Hughes and Robert Graves It introduced to the Western world concepts which have subsequently become

commonly accepted varying from the psychological importance of attention and humour to the use of traditional tales as teaching instruments what Shah termed teaching stories and the historical debt owed by the West to the Middle East in matters scientific literary and philosophical As a primer for the many dozens of Sufi books that Shah later produced it is unsurpassed offering a clear window onto a community whose system of thought and action has long concerned itself with the advancement of the whole of humankind and whose ideas about individuals and society their purpose and direction need to be understood now more than ever before Mystical Dimensions of Islam Annemarie Schimmel,2011 Thirty five years after its original publication Mystical Dimensions of Islam still stands as the most valuable introduction to Sufism the main form of Islamic mysticism This edition brings to a new generation of readers Annemarie Schimmel s his *Gabriel's Wing* Annemarie Schimmel,1963 This books presents the views of Muhammad Iqbal in regards to the essentials of Islam This includes the five Pillars of Earth and the Creed which is taught to every Muslim child The authors aims to presents Iqbal s way of thinking arguing suffering and the finding of mental peace in the security of his religion **Christian-Muslim Relations. Talib son in law and cousin of the Prophet Muhammad first Shi'i imam and fourth caliph is a monumental figure within the Islamic tradition. But despite the immense importance of Imam Ali, there is a dearth of literature in Western languages about his life and thought. This book, the first serious engagement in English with the intellectual principles underpinning his teachings, is therefore a welcome and valuable addition to the sources available. It consists of three parts. Part one introduces the person of Ali in a general manner and focuses particularly on the spiritual and ethical content of his teachings. Part two evaluates Ali's sacred conception of justice. Part three addresses the theme of spiritual realization through the remembrance of God, the central mystical practice of the Sufis. Justice and Remembrance will be of great value to students and scholars of Islamic thought as well as to those interested in the relationship between spirituality and ethics.
