**From the Danube to the Yalu** Mark Clark, 2025-07-07 A frank instructive and on the whole well written account of the problems both military and political which faced General Mark Clark between May 1952 when he was appointed Commander of United Nations Forces in Korea and the signing of the armistice in July 1953. The book is a combination of military prowess honesty of purpose and considerable political sagacity. International Affairs General Clark firmly believes that we could have obtained better truce terms quicker shortened the war and saved lives if we had got tough sooner. His book explains why he thought so and gives as well detailed accounts of the prisoner of war controversy truce negotiations relations with President Syngman Rhee and other matters of administration the honest opinions of a good soldier who obeyed orders even when they were contrary to his deepest convictions. International Journal General Clark gives a blow by blow account of the Korean negotiations leading up to the armistice. General Clark speaks for those Americans who deplore soft handling of Communism and feel that peace will come to us only if we are strong if the Russians and their followers know we are strong and if they are convinced we have the determination and courage to use that strength both politically and militarily to achieve victory. Ordnance A book that should be read by every American citizen who wishes to be well informed on the subject of dealing with the Communists a fascinating account of the first two years of the cold war.

Military Affairs **Truman and MacArthur** Michael D. Pearlman, 2008-03-12 Truman and MacArthur offers an objective and comprehensive account of the very public confrontation between a sitting president and a well known general over the military's role in the conduct of foreign policy. In November 1950 with the army of the Democratic Peoples Republic of Korea mostly destroyed Chinese military forces crossed the Yalu River. They routed the combined United Nations forces and pushed them on a long retreat down the Korean peninsula. Hoping to strike a decisive blow that would collapse the Chinese communist regime in Beijing General Douglas MacArthur the commander of the Far East Theater pressed the administration of President Harry S. Truman for authorization to launch an invasion of China across the Taiwan straits. Truman refused. MacArthur began to argue his case in the press a challenge to the tradition of civilian control of the military. He moved his protest into the partisan political arena by supporting the Republican opposition to Truman in Congress. This violated the President's fundamental tenet that war and warriors should be kept separate from politicians and electioneering. On April 11 1951 he finally removed MacArthur from command. Viewing these events through the eyes of the participants this book

explores partisan politics in Washington and addresses the issues of the political power of military officers in an administration too weak to carry national policy on its own accord It also discusses America's relations with European allies and its position toward Formosa Taiwan the long standing root of the dispute between Truman and MacArthur The Fifties David Halberstam, 2012-12-18 This vivid New York Times bestseller about 1950s America from a Pulitzer Prize winning journalist is an engrossing sail across a pivotal decade Time Joe McCarthy Marilyn Monroe The H bomb Ozzie and Harriet Elvis Civil rights It's undeniable The fifties were a defining decade for America complete with sweeping cultural change and political upheaval This decade is also the focus of David Halberstam's triumphant The Fifties which stands as an enduring classic and was an instant New York Times bestseller upon its publication More than a survey of the decade it is a masterfully woven examination of far reaching change from the unexpected popularity of Holiday Inn to the marketing savvy behind McDonald's expansion A meditation on the staggering influence of image and rhetoric The Fifties is vintage Halberstam who was hailed by the Denver Post as a lively graceful writer who makes you understand how much of our time was born in those years This ebook features an extended biography of David Halberstam This Kind of War T. Command Anthony King, 2019-01-31 In the wake of the troubled campaigns in Afghanistan and Iraq military decision making appears to be in crisis and generals have been subjected to intense and sustained public criticism Taking these interventions as a starting point Anthony King examines the transformation of military command in the twenty first century Focusing on the army division King argues that a phenomenon of collective command is developing In the twentieth century generals typically directed and led operations personally monopolising decision making They commanded individualistically even heroically As operations have expanded in range and scope decision making has multiplied and diversified As a result command is becoming increasingly professionalised and collaborative Through interviews with many leading generals and vivid ethnographic analysis of divisional headquarters this book provides a unique insight into the transformation of command in western armies
