Mezhtadzhikskii Konflikt Put K Miru:

Tajikistan Kirill Nourzhanov, Christian Bleuer, 2013-10-08 This book is a historical study of the Tajiks in Central Asia from the ancient times to the post Soviet period For millennia these descendants of the original Aryan settlers were part of many different empires set up by Greek Arab Turkic and Russian invaders as well as their own most notably during the Middle Ages The emergence of the modern state of Tajikistan began after 1917 under Soviet rule and culminated in the promulgation of independence from the moribund USSR in 1991 In the subsequent civil war that raged between 1992 and 1997 Tajikistan came close to becoming a failed state The legacy of that internal conflict remains critical to understanding politics in Tajikistan a generation later Exploring the patterns of ethnic identity and the exigencies of state formation the book argues that despite a strong sense of belonging underpinned by shared history mythology and cultural traits the Tajiks have not succeeded in forming a consolidated nation The politics of the Russian colonial administration the national territorial delimitation under Stalin and the Soviet strategy of socio economic modernisation contributed to the preservation and reification of sub ethnic cleavages and regional identities The book demonstrates the impact of region based elite clans on Tajikistan's political trajectory in the twilight years of the Soviet era and identifies objective and subjective factors that led to the civil war It concludes with a survey of the process of national reconciliation after 1997 and the formal and informal political actors including Islamist groups who compete for influence in Tajik society Tajikistan A Political and Social History is the best source of information on this important country in the English language Drs Nourzhanov and Bleuer present a comprehensive yet detailed account of the past and prospects of this emerging nation and have filled one of the major gaps in Central Asian scholarship This book must be read by those who wish to grasp the vagaries of Central Asia's evolving political and cultural landscapes Reuel Hanks Professor of Geography Oklahoma State University and Editor of the Journal of Central Asian Studies If Tajikistan is known outside its region it is often for the civil war that gravely damaged it This volume authoritatively provides the longer perspective to the unsettling events of the 1990s and skilfully explains them in terms of history social structure and sub state identities In addition to highlighting a wealth of local factors it is insightful on the ways in which antagonists can be transformed into broader ethnic and regional blocs Kirill Nourzhanov and Christian Bleuer are erudite guides to an understudied part of Central Asia while astutely instructing us about larger patterns of state society relations and their impact on the logic of conflict James Piscatori Professor of International Relations Durham University

Democracy and Pluralism in Muslim Eurasia Yaacov Ro'i, 2004-11-23 This book is devoted to the study and analysis of the prospects for democracy among the Muslim ethnicities of the Commonwealth of Independent States CIS both those that have acquired full independence and those remaining within the Russian Federation The nineteen Western academics and scholars from the Muslim countries and regions of the CIS who contribute to this volume view the establishment of democratic institutions in this region in the context of a wide and complex range of influences above all the Russian Soviet

Tunçer-Kılavuz, 2014-06-27 When the five Central Asian republics gained independence from the Soviet Union in 1991 expectations of violent conflict were widespread Indeed the country of Tajikistan suffered a five year civil war from 1992 to 1997 The factors that the literature on civil wars in general and on the Tajikistan civil war in particular cites as the causes of war were also present in Uzbekistan but this country had a peaceful transition Examining this empirical puzzle by isolating the crucial factors that caused war to break out in Tajikistan but not Uzbekistan this book applies a powerful comparative approach to the broader question of why civil wars occur Based on fieldwork in both countries it challenges many common explanations of civil war both generally and in Tajikistan in particular This includes highlighting the importance of elites power perceptions which have their origins in the interaction of structural process and network related variables Without examining these interactions macro structural explanations alone cannot explain the occurrence of civil war in one country and its absence in another Applying the insights of bargaining theories of war from the literature on international relations to the civil war in Tajikistan this book will be of interest to students of violent conflict civil wars Central Asia and Asian Politics

Tajikistan Shirin Akiner, 2001 The author analyzes the internal and external dynamics of the Tajik conflict assessing the relative weight of the political ideological ethnic and regional factors He also considers the impact of developments in Tajikistan for the wider Central Asian region and the prospects for a lasting peace and economic recovery A volume of the Central Asian and Caucasian Prospects Series *Dimensions of Inequality* Christopher Michael Whitsel, 2006 **Central Asia and the Caucasus**, 2000
