Outbreak! Hilary Evans, Robert E. Bartholomew, 2009 From fads crazes and manias to collective delusions scares panics and mass hysterias history is replete with examples of remarkable social behavior Many are fueled by fear and uncertainty others are driven by hope and expectation For others still the causes are more obscure This massive collection of extraordinary social behaviors spans more than two millennia and attempts to place many of the episodes within their greater historical and cultural context Perhaps the most well known example of unusual collective behavior occurred in 1938 when a million or more Americans were frightened or panicked after listening to a realistic radio drama about a Martian invasion of New Jersey based on an adaptation of the H G Wells novel War of the Worlds Less known but equally remarkable scares based on Wells book occurred in Chile in 1944 when Army units were mobilized in Ecuador in 1949 when riots broke out leaving more than a dozen dead as well as in Buffalo in 1968 Rhode Island in 1974 and Europe in 1988 and 1998 The modern civilized world is by no means immune to such peculiar episodes In the late 20th century scores of people in the U S and Europe were wrongly incarcerated following claims of Satanic ritual abuse by authorities untutored in False Memory Syndrome This episode recalls the European witch terror of the late Middle Ages when innocent people were tortured and executed for consorting with the Devil based on the flimsiest of evidence

Visitors Harold A. Skaarup, 2000-09-04 Suppose you could communicate with a visitor who was not from this place time space or even this dimension What would you want to ask them The answers probably lie in what our own response would be if we were them This book is based on a collection of interviews I have had with a few individuals who may have actually had such an experience The idea is that if enough of us are ready to ask the questions and gain the answers then our collective knowledge and understanding of the multiverse about us can only continue to be enhanced Sometimes the responses that you will read here are similar often they are diametrically opposed to each other An open but highly skeptical mind is extremely necessary if you are going to sift through the data that is presented in this book The intent is that it should peak your curiosity to learn more about visitors In this way we may be better informed and prepared and thus in some sort of coherent shape to deal with their arrival If you read this book you must be well prepared to choose for yourself what you will or will not believe

Missing Time Budd Hopkins, 1983 The arrival of extraterrestrial visitors is one of the most momentous events of our time In INTRUDERS Budd Hopkins explored the shocking truth about the contact between earthling and alien that human beings are temporarily abducted and taken aboard UFOs But Hopkins could not have told the stories of those victims without first having discovered the one experience common to all who report alien encounters the phenomenon known as missing time MISSING TIME tells how the people who have experienced abductions retained no memory of them all traces of the trauma were effectively erased from their memory Yet under hypnosis many abductees were able to recall in vivid convincing detail the harrowing experiments that left mysterious scars on their bodies the eerie interiors of UFOs where they were held captive and the astonishing faces of their alien hosts The stories of seven victims of these otherworldly intruders are told here in detail at once dispassionate and dramatic fully supported by scientific documentation They are stories that could belong to anyone your neighbors your loved ones even you [Alien Abductions and UFO Sightings 5-Book Bundle](#) Chris A.
