Michael Collins And The Making Of The Irish State:

Michael Collins and the Making of the Irish State Gabriel Doherty, Dermot Keogh, 2006 An evaluation of the contribution made by Michael Collins to the making of the Irish state A series of specially commissioned essays written by some of Ireland's leading historians academic and popular on the contribution made by Michael Collins to the making of the Irish state This is a professional evaluation of Michael Collins which brings to light his multi faceted and complex character The contributors examine Collins as Minister for Finance his role in intelligence his policy towards the north his career as Commander in Chief the origins of the Civil War his relationship w *Michael Collins and the Making of a New Ireland* Piaras S. Béaslaí, 1926 *The Irish Republican Brotherhood, 1914-1924* John O'Beirne Ranelagh, 2024-06-20 This captivating book delves into the secretive world of the Irish Republican Brotherhood IRB and its profound impact on Ireland's political landscape between 1914 and 1924 With the aid of new documentation Ranelagh unravels the true influence of the oath bound society without which the 1916 Rising might never have taken shape For Michael Collins the IRB was the true custodian of the Irish Republic and the only body he pledged his loyalty to but its legacy remains obscured by its intense secrecy This book re introduces the IRB as the organisation that created and furnished the IRA influenced the result of the critical 1918 election and changed the face of Irish history From amon de Valera's recollections of how he first learned of the Treaty to narratives from Nora Connolly O'Brien Emmett Dalton et al testimonies from key figures paint a vivid picture of the IRB's inner workings and external influence A fascinating exploration of secret societies political manoeuvres and personal sacrifices *The Irish Republican Brotherhood 1914-1924* casts new light on a pivotal chapter in Ireland's quest for independence

Commemorating the Irish Civil War Anne Dolan, 2006-04-27 After civil war can the winners commemorate their victory hailing their conquering heroes with the blood of their former comrades still fresh on their boots Or should they cover themselves in shame and hope that the nation soon forgets In this book Anne Dolan explores the tensions between memory and forgetting in twentieth century Ireland By examining the memory of winning the Irish Civil War she discusses the extent to which it has been used to serve party political ends where private grief finds consolation when the dead have fallen from political favour and how the dead are remembered when no one wanted to fight the war The book addresses the Irish Civil War at its most public point at the statues and crosses and in the ritual and rhetoric of commemoration It will be of central interest to all students and scholars of European history and politics

Histories of Nationalism in Ireland and Germany Shane Nagle, 2016-12-15 Focusing on the era in which the modern idea of nationalism emerged as a way of establishing the preferred political cultural and social order for society this book demonstrates that across different European societies the most important constituent of nationalism has been a specific understanding of the nation's historical past Analysing Ireland and Germany two largely unconnected societies in which the past was peculiarly contemporary in politics and where the meaning of the nation was highly contested this volume examines

how narratives of origins religion territory and race produced by historians who were central figures in the cultural and intellectual histories of both countries interacted it also explores the similarities and differences between the interactions in these societies *Histories of Nationalism in Ireland and Germany* investigates whether we can speak of a particular common form of nationalism in Europe The book draws attention to cultural and intellectual links between the Irish and the Germans during this period and what this meant for how people in either society understood their national identity in a pivotal time for the development of the historical discipline in Europe Contributing to a growing body of research on the transnationality of nationalism this new study of a hitherto unexplored area will be of interest to historians of modern Germany and Ireland comparative and transnational historians and students and scholars of nationalism as well as those interested in the relationship between biography and writing history

The Year of Disappearances Gerard Murphy, 2010-10-29 Every spy who was shot in Cork was buried so that nothing was known about them They just disappeared These are the words of an IRA commander recalling the War of Independence in Cork city *The Year of Disappearances* examines this claim and others like it It uncovers a web of suspicion and paranoia that led to scores of men and boys being abducted from their homes before being executed as enemies of the Republic and their bodies buried While some of this took place during the War of Independence most of it happened the following year during the so called Cork Republic The net result was to change the demographic of the south eastern corner of the city for ever with hundreds of families fleeing and up to fifty individuals buried in unmarked graves in surrounding areas Using a wide range of previously untapped sources Murphy shines new light on one of the darker episodes of twentieth century Irish history

Historical Dictionary of the British Empire Kenneth J. Panton, 2015-05-07 For much of the nineteenth and early twentieth centuries Britain was the dominant world power its strength based in large part on its command of an Empire that in the years immediately after World War I encompassed almost one quarter of the earth's land surface and one fifth of its population Writers boasted that the sun never set on British possessions which provided raw materials that processed in British factories could be re-exported as manufactured products to expanding colonial markets The commercial and political might was not based on any grand strategic plan of territorial acquisition however The Empire grew piecemeal shaped by the diplomatic economic and military circumstances of the times and its speedy dismemberment in the mid twentieth century was similarly a reaction to the realities of geopolitics in post World War II conditions Today the Empire has gone but it has left a legacy that remains of great significance in the modern world *The Historical Dictionary of the British Empire* covers its history through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Britain

H Blocks Louise Purbrick, 2023-01-26 Shortlisted for the Alice Davis Hitchcock Medallion 2023 A place of incarceration and liberation political debate and historical denial the H

Block cell units of Long Kesh Maze prison in Northern Ireland housed members of both Republican and Loyalist military groups during The Troubles and are now considered icons of that conflict The H Block's dual status as an articulation of and resistance against power mean that the area is still one of the most contested sites of conflict in Europe Based on a long standing site specific investigation and drawing on a range of sources from architectural plans to photographs of street protests H Blocks explores the material relationship between the prison as a built articulation of power and its inhabitants highlighting the ethical and political roles that architecture can play in situations of conflict It also addresses the afterlife of such sites after the end of conflict and how they can adapt to the changing cultural meanings of their space The book demonstrates how the conflicted histories of the prison are configured in its design and destruction and the inhabitation and attempted preservation of the site itself revealing how its architecture is bound up with questions of power and resistance embodiment and attachment witnessing and remembering the materiality of history and its commodification

From Pogrom to Civil War: Tom Glennon and the Belfast IRA Kieran Glennon, 2013-03-11 When the attacks against Catholics known as the Belfast pogrom erupted in July 1920 Tom Glennon was a 20 year old officer in the IRA The next three years took him from brutal street fighting in Belfast to organising a flying column in the Glens of Antrim to a daring escape from captivity in the Curragh and then the viciousness of civil war in Donegal Scarred by his experiences he sought to create a new life in Australia only to find further tragedy awaiting him His silence about his past was so complete that almost eighty years passed before his son learned the truth about his own mother's death Now using contemporary documents and the accounts of comrades and enemies his grandson not only tells the story of Tom Glennon's life but also re-examines the mythology of the pogrom and questions Michael Collins' northern policy asking were the northern IRA the victims of a monstrous betrayal

A Treatise on Northern Ireland, Volume II Brendan O'Leary, 2019-04-17 This landmark synthesis of political science and historical institutionalism is a detailed study of antagonistic ethnic majoritarianism Northern Ireland was coercively created through a contested partition in 1920 Subsequently Great Britain compelled Sinn Féin's leaders to rescind the declaration of an Irish Republic remain within the British Empire and grant the Belfast Parliament the right to secede If it did so a commission would consider modifying the new border The outcome however was the formation of two insecure regimes North and South both of which experienced civil war while the boundary commission was subverted In the North a control system organized the new majority behind a dominant party that won all elections to the Belfast parliament until its abolition in 1972 The Ulster Unionist Party successfully disorganized Northern nationalists and Catholics Bolstered by the Specials a militia created from the Ulster Volunteer Force this system displayed a pathological version of the Westminster model of democracy which may reproduce one party dominance and enforce national ethnic religious and cultural discrimination How the Unionist elite improvised this control regime and why it collapsed under the impact of a civil rights movement in the 1960s take center stage in this second volume of A Treatise on Northern Ireland The North's

trajectory is paired and compared with the Irish Free State's incremental decolonization and restoration of a Republic Irish state building however took place at the expense of the limited prospect of persuading Ulster Protestants that Irish reunification was in their interests or consistent with their identities Northern Ireland was placed under British direct rule in 1972 while counter insurgency practices applied elsewhere in its diminishing empire were deployed from 1969 with disastrous consequences On January 1 1973 however the UK and Ireland joined the then European Economic Community Many hoped that would help end conflict in and over Northern Ireland Such hopes were premature Northern Ireland appeared locked in a stalemate of political violence punctuated by failed political initiatives

Massacre in West Cork: The Dunmanway and Ballygroman Killings Barry Keane, 2014-01-17 The deaths in and around Dunmanway in 1922 have always been shrouded in rumour and supposition This book seeks to get to the bottom of them One thing is certain Captain Herbert Woods shot Commandant Michael O'Neill of the IRA on the stairs of Ballygroman House at 2.30 a.m. on the 26th April and killed him Who was Herbert Woods and why did he shoot an unarmed man Who was Michael O'Neill and what was he doing inside the house at that hour of the morning What connection had this event to the killing of ten Protestants in West Cork over the next three nights Are they connected with the killing of four British soldiers in Macroom on the same day What was the effect on the local Protestant minority What happened after Herbert Woods and his Hornibrook relations were arrested by the Irish Republican Police and disappeared This book attempts to answer all these questions Using previously overlooked evidence it proves that the real story is a simple one of revenge It directly challenges claims of sectarianism and British involvement presenting a true story of these appalling events

A History of Ireland, 1800-1922 Hilary Larkin, 2014-02-01 The years of Ireland's union with Great Britain are most often regarded as a period of great turbulence and conflict And so they were But there are other stories too and these need to be integrated in any account of the period Ireland's progressive primary education system is examined here alongside the Famine the growth of a happily middle class Victorian suburbia is taken into account as well as the appalling Dublin slum statistics In each case neither story stands without the other This study synthesises some of the main scholarly developments in Irish and British historiography and seeks to provide an updated and fuller understanding of the debates surrounding nineteenth and early twentieth century history

The Performance of Celebrity: Creating, Maintaining and Controlling Fame Amber Anna Colvin, 2019-01-04 This volume was first published by Interdisciplinary Press in 2013 In recent years the study of celebrity of what constitutes fame and how that fame is controlled and performed has become an area of intense scholarly interest This is due in part to the increased emphasis on social and cultural history and the presence of new and innovative sources both of which have created new and exciting areas of study The growing importance and recognition of the celebrity phenomenon has created a field that is both currently rich in literature and has the room for continued scholarship The works in this volume address debates on the concept of celebrity including the modernity of celebrity the importance of the celebrity audience relationship and the

question of who controls celebrity personas How in essence do celebrities do fame This question is at the centre of this book with the pieces included addressing this idea across a variety of academic disciplines time periods and methodological approaches

Proceedings of the Royal Irish Academy, 1970 *Revolutionary Ireland, 1912-25* Robert Lynch, 2015-01-29 Revolutionary Ireland 1912-25 analyses the main events in Ireland from the initial crisis over the Third Home Rule Bill in 1912 to the consolidation of partition Ulster with the settling of the boundary issue in 1925 Written with particular reference to the needs of students in further and higher education each chapter contains an easy to follow narrative guides to key reading on the topic sample essay and examination questions and links to web resources The main text is supported by an appendix of contemporary sources and a range of additional information including a chronology of significant events maps a glossary of key terms and an extensive bibliography This comprehensive text will allow students to get to grips with this turbulent and fascinating period of modern Irish history

[A Treatise on Northern Ireland](#) Brendan O'Leary, 2019 The second volume of the definitive political history of Northern Ireland

The War of Independence Sean McMahon, 2019-04-26 One of the book's charms is the necessary focus on anecdotes and pen portraits of participants in the battles These bring to life some of the conflicts like the story of Lieutenant Bartholomew Teeling and Irish men serving in General Humbert's French forces in September 1798 who showed immense courage yet was executed by the British after the Battle of Ballinamuck McMahon reaches a high point in the brief chapter on Knockanross when he discusses the life and times of Murrough O'Brien Lord Inchiquin The Irish Story Like all guerrilla wars the Irish War of Independence was characterised by great courage and ruthless brutality It created many heroes and spawned two of the most hated forces that a British government had ever inflicted on Ireland the Black and Tans and the Auxiliaries This book traces the cause development and consequences of the war which led to the bloody birth of modern Ireland

Big Fellow, Long Fellow T. Ryle Dwyer, 1999 Examining the years 1917-22 this biography traces the parallel careers and political lives of Michael Collins and Eamon de Valera two leaders of the Irish revolution who were very different in temperament and style It also considers the legacy of Collins on de Valera's later political life

[Harry Boland](#) Jim Maher, 2020-03-10 The definitive story of Harry Boland the ardent and prominent Republican loyal confidant to de Valera and close friend and later love rival to Michael Collins for the heart of Kitty Kiernan This is a detailed and dramatic account of the intricate part played by him in Ireland's struggle towards independence Covering Boland's role in the 1916 Rising his involvement with Sinn Féin and work in the 1918 general election through his time in America during the War of Independence when he came to national prominence campaigning for American support for Irish freedom it also details Boland's subsequent return to a broken homeland on the cusp of civil war and his ill-fated attempts to stop the worst from happening A free Irish Republic meant everything to Harry Boland and he was to give his all to try to make this reality

A Treatise on Northern Ireland, Volume I Brendan O'Leary, 2019-04-04 This first volume in A Treatise on Northern Ireland illuminates how British colonialism shaped the

formation and political cultures of what became Northern Ireland and the Irish Free State Contrasting colonial and sectarianized accounts of modern Irish history Brendan O Leary shows that a judicious meld of these perspectives provides a properly political account of direct and indirect rule and of administrative and settler colonialism The British state incorporated Ulster and Ireland into a deeply unequal Union after four re conquests over two centuries had successively defeated the Ulster Gaels the Catholic Confederates the Jacobites and the United Irishmen and their respective European allies Founded as a union of Protestants in Great Britain and Ireland rather than of the British and the Irish nations the colonial and sectarian Union was infamously punctured in the catastrophe of the Great Famine The subsequent mobilization of Irish nationalists and Ulster unionists and two republican insurrections amid the cataclysm and aftermath of World War I brought the now partly democratized Union to an unexpected end aside from a shrunken rump of British authority baptized as Northern Ireland Home rule would be granted to those who had claimed not to want it after having been refused to those who had ardently sought it The failure of possible federal reconstructions of the Union and the fateful partition of the island are explained and systematically compared with other British colonial partitions Northern Ireland was invented in accordance with British interests to resolve the hereditary animosities between the descendants of Irish natives and British settlers in Ireland In the long run the invention proved unfit for purpose Indispensable for explaining contemporary institutions and mentalities this volume clears the path for the intelligent reader determined to understand contemporary Northern Ireland
