Michelangelo And The Reinvention Of The Human Body:

Michelangelo James Hall, 2005 Michelangelo was constantly flaying dead bodies in order to study the secrets of anatomy thus beginning to give perfection to the great knowledge of design that he afterwards acquired Giorgio Vasari Life of Michelangelo 1568 Michelangelo's art is exhilarating but also bewildering What is the source of its incomparable power In this imaginative and detailed study the art critic James Hall explores some of the major puzzles the unmaternal nature of Michelangelo's Madonnas and their lack of responsiveness his concern with colossal scale and size the way that anatomical dissections affected his attitude to the human body the passionate anxious placing of solitary heroic figures against a background of troubling crowds In the process he arrives at a more precise appreciation of the body language of his figures and offers new explanations of many of the most familiar sculptures paintings and drawings including the statue of David and the narratives of the Sistine Chapel ceiling the complex iconography of the Medici tombs in the Sacristy of San Lorenzo and his powerful late images of the dead Christ Hall dispels the notion of an artist superman possessed of titanic mental and physical powers embodying the sublime spirit of his age and also topples the long held view of Michelangelo as brilliant but unbalanced obsessed with the male nude Instead he redefines him as the first artist to put the human body centre stage giving his study a profound relevance to our own time in which artists film makers writers and scholars are so fixated on the body If we really want to understand our own culture Hall argues we need to understand Michelangelo This fine elaborate study offers us a way to do so **Michelangelo** James Edward Stuart Hall, 2005 Michelangelo and the Reinvention of the Human Body James Hall, Michelangelo Buonarroti, 2005 A brand new critical analysis of Michelangelo's work looks through the lens of the artist's depiction of the human body to dispel myths about his obsessions while establishing him as an important artist who used the body to explore deeper truths *Michelangelo* James Edward Stuart Hall, 2005

Michelangelo's Art of Devotion in the Age of Reform Emily A. Fenichel, 2023-07-20 In this volume Emily A Fenichel offers an in depth investigation of the religious motivations behind Michelangelo's sculpture and graphic works in his late period Taking the criticism of the Last Judgment as its point of departure she argues that much of Michelangelo's late oeuvre was engaged in solving the religious and artistic problems presented by the Counter Reformation Buffeted by critiques of the Last Judgment which claimed that he valued art over religion Michelangelo searched for new religious iconographies and techniques both publicly and privately Fenichel here suggests a new and different understanding of the artist in his late career In contrast to the received view of Michelangelo as solitary intractable and temperamental she brings a more nuanced characterization of the artist The late Michelangelo Fenichel demonstrates was a man interested in collaboration penance meditation and experimentation which enabled his transformation into a new type of religious artist for a new era

Experiments with Body Agent Architecture Alessandro Ayuso, 2022-03-31 Experiments with Body Agent Architecture puts forward the notion of body agents non ideal animate and highly specific figures integrated with design to enact particular

notions of embodied subjectivity in architecture Body agents present opportunities for architects to increase imaginative and empathic qualities in their designs particularly amidst a posthuman condition Beginning with narrative writing from the viewpoint of a body agent an estranged quattrocento spiritello who finds himself uncomfortably inhabiting a digital milieu or as the spiritello calls it Il Regno Digitale the book combines speculative historical fiction and original design experiments It focuses on the process of creating the multi media design experiments moving from the design of the body itself as an original prosthetic to architectural proposals emanating from the body A fragmented history of the figure in architecture is charted and woven into the designs with chapters examining Michelangelo s enigmatic figures in his drawings for the New Sacristy in the early sixteenth century Gian Lorenzo Bernini s physically ephemeral putti adorning chapels and churches in the seventeenth century and Austrian artist architect Walter Pichler s personal and prescient figures of the twentieth century

The Triumph of the Cross Richard Viladesau,2008-04-22 This is a sequel to Richard Viladesau s well received study The Beauty of the Cross The Passion of Christ in Theology and the Arts from the Catacombs to the Eve of the Renaissance It continues his project of presenting theological history by using art as both an independent religious or theological text and as a means of understanding the cultural context for academic theology Viladesau argues that art and symbolism function as alternative strands of theological expression sometimes parallel to sometimes interwoven with and sometimes in tension with formal theological reflection on the meaning of crucifixion and its role in salvation history This book examines the two great revolutionary movements that gave birth to the modern West the Renaissance and the Protestant Reformation This period was eventful for both theology and art and thus particularly fruitful for Viladesau s project Using individual works of art over sixty of which are reproduced in this book to epitomize particular artistic and theological models he explores the contours of each paradigm through the works of representative theologians as well as liturgical poetic artistic and musical sources To name a few examples the theologies of Savonarola Luther Calvin and the Council of Trent are examined in correlation to the new situation of art in the era of Fra Angelico Leonardo Michelangelo D rer Cranach and the Mannerists In this book Viladesau continues to deepen our understanding of the foremost symbol of Christianity Michelangelo in the New

Coffee with Michelangelo James Hall, 2007-09 How would it feel to stand in the Sistine Chapel as Michelangelo painted To watch him create his breathtaking sculptures James Hall an art critic historian and lecturer puts us in that amazing position and in the process reveals intriguing details on the master artist s life and thoughts Despite a reputation for being a truculent loner Michelangelo was an eloquent speaker in two dialogues compiled in the 1540s and the conversation here comes from those and a number of other sources including contemporary biographies Michelangelo s many letters and poems and anecdotes and quotations relayed by contemporaries

Creation John-Paul Stonard, 2021-10-14 SELECTED AS A BEST ART BOOK OF THE YEAR BY THE SUNDAY TIMES Stonard traverses the sweep of human history moving between cultures and hemispheres His book consists of myriad flashes of brilliance and inventiveness LITERARY REVIEW A worthy and richly illustrated successor to Ernst Gombrich s fabled *The Story of Art* SUNDAY TIMES This bountifully illustrated book is a history of connections Lucid and thoughtful COUNTRY LIFE _____ A fully illustrated panoramic world history of art from ancient civilisation to the present day exploring the remarkable endurance of humankind s creative impulse Fifty thousand years ago on an island in Indonesia an early human used red ochre pigment to capture the likeness of a pig on a limestone cave wall Around the same time in Europe another human retrieved a lump of charcoal from a fire and sketched four galloping horses It was like a light turning on in the human mind Our instinct to produce images in

response to nature allowed the earliest Homo sapiens to understand the world around them and to thrive Now art historian John Paul Stonard has travelled across continents to take us on a panoramic journey through the history of art from ancient Anatolian standing stones to a Qing Dynasty ink handscroll from a drawing by a Kiowa artist on America's Great Plains to a post independence Congolese painting and on to Rachel Whiteread's House Brilliantly illustrated throughout with a mixture of black and white and full colour images Stonard's Creation is an ambitious thrilling and landmark work that leads us from Benin to Belgium China to Constantinople Mexico to Mesopotamia Journeying from pre history to the present day it explores the remarkable endurance of humankind's creative impulse and asks how and why we create

Sculpture and Touch

Peter Dent, 2017-07-05 Since the Renaissance at least the medium of sculpture has been associated explicitly with the sense of touch Sculptors philosophers and art historians have all linked the two often in strikingly different ways In spite of this long running interest in touch and tactility it is vision and visuality which have tended to dominate art historical research in recent decades This book introduces a new impetus to the discussion of the relationship between touch and sculpture by setting up a dialogue between art historians and individuals with fresh insights who are working in disciplines beyond art history The collection brings together a rich and diverse set of approaches with essays tackling subjects from prehistoric figurines to the work of contemporary artists from pre modern ideas about the physiology of touch to tactile interaction in the museum environment and from the phenomenology of touch in recent philosophy to the experimental findings of scientific study It is the first volume on this subject to take such a broad approach and as such seeks to set the agenda for future research and collaboration in this area
