Financial Sector Policy and the Poor Patrick Honohan, 2004-01-01 This publication contains new

empirical evidence on how financial sector policy can help in promoting pro poor development and tackling poverty It argues that microfinance and mainstream finance schemes should be regarded as complementary and overlapping rather than as competing alternatives with the essential similarities between the two becoming more evident as individual microfinance firms or associations of firms grow to the scale needed for sustainability **Microfinance for Entrepreneurial**

Development Douglas Cumming, Yizhe Dong, Wenxuan Hou, Binayak Sen, 2017-09-28 This edited collection presents recent developments practical innovations and policy reforms in the realm of microfinance in emerging markets Microfinance has been hotly debated by ever colliding camps of ardent supporters who believe that microfinance addresses credit market failures and provides a durable answer to the problem of the poverty and staunch critics who argue that lending by microfinance institutions is wasteful and the interest rates are too high To bring further insight into this important debate this book presents comprehensive historical political and economic perspectives on the latest issues in microfinance An impressive array of scholars and practitioners build a framework for thinking about regulation to drive sustainable inclusive development With case studies of programs in India Ghana and Bangladesh and examinations of the effects of gender and religion on financial decision making this comprehensive collection offers something valuable to scholars policymakers and practitioners anyone with a vested interest in promoting innovation in microfinance *The Economics of Microfinance*

Beatriz Armendáriz, Jonathan Morduch, 2007 An assessment of the microfinance revolution from an economics perspective that draws on lessons from academia and international practice to challenge conventional assumptions **The Handbook of Microfinance** Beatriz Armendariz, Marc Labie, 2011 Handbook of Microfinance addresses the gap between clients who are benefiting from access to financial services via MFIs and the potential market which remains underserved or untapped This gap can be attributed to a mismatch between what consumers or potential clients demand and what MFIs offer in terms of financial products The scope of the book is wide It includes successes and failures main challenges and debates methodologies for impact evaluation via random trials leading trends in Asia versus Latin America main efforts in Africa the importance of value chains in Central America ethical and gender issues savings microinsurance governance commercialization trends and the potential advantages and disadvantages of it Lastly it features main lessons from informal finance and 19th century credit cooperatives addressing the above mentioned mismatch Beyond Ending Poverty Shahidur R. Khandker, M.A. Baqui Khalily, Hussain A. Samad, 2016-07-20 The recent past has witnessed phenomenal growth in MFIs around the world Today as many as 200 million people are beneficiaries of microfinance Given its worldwide attention microfinance has received serious criticism including the argument that it is a fad with less than expected benefits for the poor Surely microfinance is not without any pitfalls Yet the premise of improving access to financial services for consumption smoothing by the poor has never been a subject of controversy What has been controversial is whether microfinance can alleviate poverty That the poor lack an effective and affordable alternative financing mechanism to support income

generation does not necessarily mean microfinance is a panacea since it involves entrepreneurial skills which many poor lack. It is little wonder that studies evaluating the benefits of microfinance have produced conflicting results. Of course study findings are contextual. They are positive in conducive environments and less so in unfavorable ones. Microfinance must be distinguished from anti poverty schemes e.g. conditional cash transfers because benefits from microfinance supported activities which involve participants' entrepreneurial skills and ability take time to realize. This book using household long panel survey of 1991-92-2010-11 from Bangladesh addresses some of criticisms including whether pushing microfinance has made it redundant as a tool for poverty reduction while investigating whether it still matters for the poor after two decades of extensive growth. The book's findings confirm the positive effects of continued borrowing from a microfinance program. Despite a manifold increase in microfinance borrowing loan recovery has not declined and long term borrowers are not trapped in poverty or debt. Interest rates charged by MFIs are not too high for realizing returns on investment although the MFIs have scope for lowering them. The book is expected to contribute to the ongoing debate on the cost effectiveness of microfinance as a tool for inclusive growth and development. It is expected to fill knowledge gaps in understanding the various virtues of microfinance against its portrayal as having drifted from its original poverty reduction mission.

Economics, Business, and Islamic Finance in ASEAN Economic Community Ordoñez de Pablos, Patricia, Almunawar, Mohammad Nabil, Abduh, Muhamad, 2020-01-03. The economic integration of Southeast Asia or ASEAN Economic Community AEC offers enormous opportunities for its members to develop and collectively collaborate with other economies. Combining the culture of the region with global business in an expanding digital atmosphere however has caused numerous challenges on an international scale. Due to the importance of this economic player in Asia research on key topics including Islamic economics, Islamic finance, technology and cultural issues in doing business are essential to understand the ASEAN competitive landscape and its relations with other countries. **Economics Business and Islamic Finance in ASEAN Economic Community** is a pivotal reference source that explores key issues and enhances understanding of business and economics in the ASEAN community and explores the collaboration between this community and Islamic finance and technology. The Informal Sector in Ecuador Alan Middleton, 2019-08-08 This book looks back over the last forty years of change and development in Ecuador showing how macro level changes have impacted families and workplaces on the local level Traditionally a dependent economy reliant on agricultural exports the impact of neoliberalism and new sources of income from oil have transformed the informal and artisanal sectors in Ecuador Exploring these dynamics using a combination of micro and macro analyses this book demonstrates how the social relations of the sector are connected to the wider social economic and political systems in which they operate The book dives into the links between micro production and the wider economy including the relationships between different types of artisanal enterprises and their customers their connections to the private sector and the state the importance of social networks and social capital and the relevance of finance capital in microenterprise development Overall the analysis investigates how artisans entrepreneurs and family based enterprises seek to protect their interests when faced with neoliberal policies and the impacts of globalisation This remarkable longitudinal study will be of considerable interest to researchers of development studies economics sociology anthropology geography and Latin American Studies

A poverty-sensitive scorecard to prioritize lending and grant allocation Hernandez, Manuel A., Torero, Máximo, 2016-04-01 Development projects are generally subject to a potential tradeoff between sustainability and poverty reduction Grants are also commonly assigned without a standardized criterion This paper proposes an innovative scoring tool that combines both a risk and poverty scorecard to prioritize lending and grant allocation We implement and test the instrument through a competitive fund for demand driven projects in Central America intended to better link smallholder farmers to markets and improve their welfare The evaluation results show that the highest ranked projects generally have a larger economic impact on their beneficiaries than lower ranked projects We observe a larger effect on income access to credit and access to local markets and the relative differences are stronger over time The proposed scorecard tool is

intended to better ensure the accountability and sustainability of development funds and can be easily adapted to different contexts

Efficacy of micro-financing women's activities in Côte d'Ivoire Namizata Binaté Fofana, 2023-09-04 This book deals with the effectiveness and the capability of microfinance institutions MFIs to enhance women's livelihoods and empowerment and to mitigate the effects of HIV and AIDS in Côte d'Ivoire The results show that MFI credit causes positive and negative effects MFI credit has improved incomes the level of farm production and human and social capital MFI credit has also enhanced women's decision making power within households due to their new ability to contribute to the improvement of the household standard of living Furthermore women's empowerment regarding the demand for and the use of credit give them more opportunity to obtain MFI credit Despite the positive effects of MFIs on women's income this publication shows that loan repayment was not successful among some female borrowers due to the fact that the loan has not been used for investment purposes For MFIs the diversion of loans can endanger their functioning and sustainability and therefore their effectiveness in rural areas Regarding HIV this book highlights the diversity and the specificity of the way HIV affected individuals are financially supported by credit institutions Both the direct and indirect effects of HIV and AIDS on women's livelihood and MFIs are analysed

Partnership for Development Nilufa Akhter Khanom, 2013-01-15 Poverty has been identified as one of the world's biggest problems. The international community recognises that reducing global poverty is one of the major development challenges of the twenty-first century. The problem of poverty is particularly severe in Bangladesh where a variety of poverty alleviation initiatives have been tried. The most recent one involves Public Private Partnerships (PPPs) which are collaborations between partners in different sectors. PPPs are assumed to be effective for reducing poverty as they are seen to optimise the use of scarce resources, promote economic growth and enhance efficiency. The Government of Bangladesh has recognised the use of PPPs as an innovative and effective approach for poverty alleviation in Bangladesh. Partnership for Development addresses this major policy issue by examining the novel arrangements of PPPs to determine how this approach can assist in alleviating poverty. This book explores different PPP arrangements for poverty alleviation in Bangladesh and evaluates their performance and effects. It identifies opportunities and constraints affecting these PPPs. It utilises the multiple case study methodology examining two cases, namely the Income Generation for Vulnerable Group Development (IGVGD) and Rural Micro Credit (RMC) PPPs that have been introduced in Bangladesh as poverty alleviation measures. The book also identifies the rationale, features and mechanisms of the IGVGD and RMC PPPs using interviews with key persons who were involved in the policy making and in the design and implementation of the PPPs. Different stakeholders were asked about the effects of the PPPs and suggestions for their improvement. The beneficiaries were also asked about the economic and social changes to their lives as a result of the PPPs. A model of PPPs for poverty alleviation is developed from the literature on the subject and then used to analyse the data from the Bangladesh case studies.
