Modernity And Subjectivity Body Soul Spirit:

Modernity and Subjectivity Harvie Ferguson, 2000 Few concepts have come to dominate the human sciences as much as modernity yet there is very little agreement over what the term actually means Every aspect of contemporary human reality modern society modern life modern times modern art modern science modern music the modern world has been cited as a part of modernity s distinctive and all embracing presence But what is the exact nature of the reality to which the term modern refers Has not such a promiscuous ill defined concept come to obscure and confuse rather than clarify a genuine understanding of our experience Harvie Ferguson proposes a new view of modernity arguing that although it may variously be associated with the Renaissance the European discovery of the New World the Reformation the Industrial Revolution and many other significant ruptures with primitive or premodern society modernity fails as an idea if it only defines itself against what it replaced Instead he writes modernity finds its clearest definition through an exploration of subjectivity For the modern world there is no higher authority than experience No longer is the human world subordinate to a divine reality beyond the capacity of its own senses This idea finds its greatest expression in the philosophy of doubt originated by Descartes Doubt seemed the radical starting point from which to found a wholly modern philosophy that makes the distinction between subject and object but those who came after Descartes soon reached the limits of self discovery and became trapped in deepening levels of despair This despair in turn found expression in the concepts of self and other and eventually in a dialectic of ego and world which distinguishes and links together the most important social cultural and psychological aspects of modernity Moving beyond these dualities of subject and object mind and body ego and world and replacing them with the triad of body soul and spirit Ferguson redraws the map of contemporary experience finding links with the premodern world that modernity s self founding concealed *Bach's Dialogue with Modernity* John

Butt, 2010-01-14 A detailed 2010 analysis of Bach s Passions which demonstrates how they reflect and constitute priorities and conditions of the western world [Global Street Economy and Micro Entrepreneurship](#) Simon Grima, 2020-05-28

Throughout the history of capitalism street economy has found a space in the failures of the open market economy but it has been ignored by the mainstream media and academy As street economies pop up as a spontaneous solution to the failures of capitalism these economies are an opportunity to learn explore and grow away from the mainstream **Fashion** Lars Svendsen, 2006-10-30 Fashion is at once a familiar yet mysteriously elite world that we all experience whether we re buying a new pair of jeans reading Vogue or watching the latest episode of Project Runway Lars Svendsen dives into that world in Fashion exploring the myths ideas and history that make up haute couture the must have trends over the centuries and the very concept of fashion itself Fashion opens with an exploration of all the possible meanings encompassed by the word fashion as Svendsen probes its elusive place in art politics and history Ultimately however he focuses on the most common use of the term clothing With his trademark dry wit he deftly dismantles many of the axioms of the industry and its

supporters For example he points out that some of the latest fashions shown on runways aren't actually fashionable in any sense of the word arguing that they're more akin to modern art works and he argues against the increasingly prevalent idea that plastic surgery and body modification are part of a new wave of consumerism Svendsen draws upon the writings of thinkers from Adam Smith to Roland Barthes to analyze fashion as both a historical phenomenon and a philosophy of aesthetics He also traces the connections between the concepts of fashion and modernity and ultimately considers the importance of evolving fashions to such fields as art politics and philosophy Whether critiquing a relentless media culture that promotes perfect bodies or parsing the never ending debate over the merits of conformity versus individual style Lars Svendsen offers an engaging and intriguing analysis of fashion and the motivations behind its constant pursuit of the new

Phenomenological Sociology Harvie Ferguson, 2006-03-21 Contemporary society constitutes a different form of modernity and Ferguson's innovative and thoughtful analysis calling for a return to phenomenology demonstrates that a relatively neglected perspective within contemporary sociological thought continues to provide significant insights into modern experiences Barry Smart Portsmouth University This may very well be the most thorough and authoritative analysis of phenomenological sociology ever achieved W P Nye Hollins University What is phenomenological sociology Why is it significant This innovative and thought provoking book argues that phenomenology was the most significant wide ranging and influential philosophy to emerge in the twentieth century The social character of phenomenology is explored in its relation to the concern in twentieth century sociology with questions of modern experience Phenomenology and sociology come together as ethnographies of the present As such they break free of the self imposed limitations of each to establish a new critical understanding of contemporary life By reading phenomenology sociologically and sociology phenomenologically this book reconstructs a phenomenological sociology of modern experience Erudite and assured this book opens up a series of new questions for contemporary social theory that theorists and students of theory can ill afford to ignore The text contains a treasure trove of insights and propositions that will stimulate debate and research in both sociology and philosophy

Paradox and Contradiction in the Biblical Traditions Brayton Polka, 2021-03-19 The principal thesis that the author advances in this book is that paradox and contradiction constitute the two ways of the world Paradox represents the way of the people of the Bible and contradiction represents the way of all peoples who having lived without knowledge of the Bible have traditionally been known as gentiles or pagans The two ideas that are central to the biblical way of life as known historically by Jews Christians and Muslims are creation and covenant while the contradictory way of paganism has precisely been marked by the absence of these two concepts In his book the author distinguishes the paradoxical way of the world from the contradictory way of the world through the examination of principal texts of four of the most significant early modern European thinkers from the later sixteenth century to the earlier eighteenth century Montaigne Descartes Spinoza and Vico He shows that each of these four authors in distinctive yet fundamentally interrelated fashion provides us with

profound insight into how absolutely different the paradoxical way of the world as biblical is from the contradictory way of the world as found primarily and specifically in Greek and Roman antiquity Giraffes in the Garden of Italian Literature Deborah Amberson, 2017-12-02 Writing in 1926 Carlo Emilio Gadda 1893 1973 acknowledges his peculiarity within the Italian literary field by describing himself as a giraffe or a kangaroo in Italy's beautiful garden of literature Gadda's self-characterization as exotic and even ungainly animal applies in equal measure to Italo Svevo 1861 1928 and Federico Tozzi 1883 1920 authors who like Gadda thwarted efforts at critical classification Yet the ostensible strangeness of these three Italian authors is diminished when their writing is considered within the framework of modernism a label traditionally avoided by the Italian critical establishment Indeed within a modernism preoccupied with human embodiment these Italian literary giraffes find their kin Here the central nexus of body subjectivity and style that informs and binds the writing of Svevo Tozzi and Gadda resonates with a modernist renegotiation and revalorization of a human body whose dignity and epistemological authority have been contested by social and technological modernity *Exhausting Dance* Andre Lepecki, 2006-07-13 The only scholarly book in English dedicated to recent European contemporary dance *Exhausting Dance Performance and the Politics of Movement* examines the work of key contemporary choreographers who have transformed the dance scene since the early 1990s in Europe and the US Through their vivid and explicit dialogue with performance art visual arts and critical theory from the past thirty years this new generation of choreographers challenge our understanding of dance by exhausting the concept of movement Their work demands to be read as performed extensions of the radical politics implied in performance art in post structuralist and critical theory in post colonial theory and in critical race studies In this far ranging and exceptional study Andre Lepecki brilliantly analyzes the work of the choreographers Jerome Bel France Juan Dominguez Spain Trisha Brown US La Ribot Spain Xavier Le Roy France Germany Vera Mantero Portugal and visual and performance artists Bruce Nauman US William Pope L US This book offers a significant and radical revision of the way we think about dance arguing for the necessity of a renewed engagement between dance studies and experimental artistic and philosophical practices From Age to Age Edward Foley, 2016-03-24 2009 Catholic Press Association Award Winner From age to age you gather a people to yourself so that from east to west a perfect offering may be made to the glory of your name Eucharist is the fullest expression of our life with God a life we share with Christians throughout the ages It is also a sensory experience engaging us in the sights and sounds tastes and touch of the worship Edward Foley's revised and expanded *From Age to Age* draws readers into that sensory experience He traces the development of Christian Eucharist from its Jewish roots to our own time In addition to exploring the architecture music books and vessels that contributed to each period's liturgical expressions this edition introduces readers to the theology of each age as well as the historical and cultural contexts that shaped the Eucharist Richly illustrated with numerous images and quotations from period texts this book is a feast for the mind and eye Through many examples of the visual and auditory symbols that are central to Eucharist

readers will discover how Christian worship is embodied worship that from age to age gives glory to God and sanctifies people

Fashion, Dress and Post-postmodernism José Blanco F., Andrew Reilly, 2021-01-28 Scholars have argued that postmodernism is dead and that we are entering into a new era that some have labelled altermodernism digimodernism performatism and post postmodernism This book expands on the nascent scholarship of post postmodernism to highlight how dress fashion and appearance are reflections of this new age The volume starts with a discussion of fashion subjectivity and time and an analysis of temporality technology and fashion in post postmodern times Later chapters analyse the work of design houses and mass producers such as Vetements Gucci and Uniqlo whose products align with post postmodern aesthetics hyperconsumption and hypermodern branding The book looks at diverse geographic and identity markers by discussing post postmodernism and the religio politico cultural questions in South Asian Muslim fashion image and identity presentation in queer social networking apps and by exploring fashion designer Tom Ford s output as a movie director Two chapters discuss the post postmodern fashion exhibition with analyses of recent exhibitions and an in depth look at the work of exhibition maker Judith Clark The final chapter is written by members of The Rational Dress Society a counter fashion collective that makes JUMPSUIT an experimental garment to replace all clothes Fashion Dress and Post postmodernism is a companion to research on relationships between post postmodernism fashion and dress and the go to resource for researchers and students interested in these areas

Poiret, Dior and Schiaparelli Ilya Parkins, 2013-07-25 Through a highly original and detailed analysis of the memoirs interviews and other life writings of Poiret Dior and Schiaparelli this book explores changing notions of femininity in the early decades of the twentieth century when the democratization of fashion began Examining the idea of modernity eternity and the ephemeral in the writings of these haute couturiers the book reflects on fashion s ambivalent approach to women which both celebrated and vilified them presenting them as both ultra modern style leaders and irrational creatures stuck in the past This fascinating text is key reading for scholars and students of fashion gender studies cultural studies and history

Western Literature in China and the Translation of a Nation

S. Qi, 2012-03-12 This book studies the reception history of Western literature in China from the 1840s to the present Qi explores the socio historical contexts and the contours of how Western literature was introduced mostly through translation and assesses its transformative impact in the cultural literary as well as sociopolitical life of modern China *Blackening Europe*

Heike Raphael-Hernandez, 2012-11-12 Traditional Scholars have often looked at African American studies through the lens of European theories resulting in the secundarization of the African American presence in Europe and its contributions to European culture *Blackening Europe* reverses this pattern by using African American culture as the starting point for a discussion of its influences over traditional European structures Evidence of Europe's blackening abound from French ministers of Hip hop and British incarnations of Shaft to slavery memorial in the Netherlands and German youth sporting dreadlocks Collecting essays by scholars from both sides of the Atlantic and fields as diverse as history literature politics social studies art film and music *Blackening Europe* explores the implications of these cultural hybrids and extends the growing dialogues about Europe's fascination with African America *Touching the Unreachable* Fusako Innami, 2025-09-30

Fusako Innami offers the first comprehensive study of touch and skinship relationality with the other through the skin in modern Japanese writing The concept of the unreachable that is the lack of characters complete ability to touch what they try to reach for provides a critical intervention on the issue of intimacy Touch has been philosophically addressed in France but literature is an effective or possibly the most productive venue for exploring touch in Japan as literary texts depict what the characters may be concerned with but may not necessarily say out loud Such a moment of capturing the gap between the felt and the said the interaction between the body and language can be effectively analyzed by paying attention to layers of verbalization or indeed translation by characters utterances authors depictions and readers interpretations Each of the writers discussed in this book starting with Nobel prize winner Kawabata Yasunari Tanizaki Jun ichir Yoshiyuki Junnosuke and Matsuura Rieko presents a particular obsession with objects or relationality to the other constructed via the desire for touch In *Touching the Unreachable* phenomenological and psychoanalytical approaches are cross culturally interrogated in engaging with literary touch to constantly challenge what may seem like the limit of transferability regarding concepts words and practices The book thereby not only bridges cultural gaps beyond geographic and linguistic constraints but also aims to decentralize a Eurocentric hegemony in its production and use of theories and brings Japanese cultural and literary analyses into further productive and stimulating intellectual dialogues Through close readings of the authors treatment of touch Innami develops a theoretical framework with which to examine intersensorial bodies interacting with objects and the environment through touch *After the Globe, Before the World* RBJ

Walker, 2010-04-05 This book explores the implications of claims that the most challenging political problems of our time express an urgent need to reimagine where and therefore what we take politics to be It does so by examining the relationship between modern forms of politics centred simultaneously within individual subjects sovereign states and an international

system of states and the natural God given or premodern world that has been excluded in order to construct modern forms of political subjectivity and sovereign authority It argues that the ever present possibility of a world outside the international both sustains the structuring of relations between inclusion and exclusion within the modern internationalized political order and generates desires for escape from this order to a politics encompassing a singular humanity cosmopolis globe or planet that are doomed to disappointment On this basis the book develops a critique of prevailing traditions of both political theory and theories of international relations It especially examines what it might now mean to think about sovereignties subjectivities boundaries borders and limits without automatically reproducing forms of inclusion and exclusion or universality and particularity expressed in the converging but ultimately contradictory relationship between international relations and world politics

The Lost Land of Lemuria Sumathi Ramaswamy, 2004-09-27 During the nineteenth century Lemuria was imagined as a land that once bridged India and Africa but disappeared into the ocean millennia ago much like Atlantis A sustained meditation on a lost place from a lost time this elegantly written book is the first to explore Lemuria's incarnations across cultures from Victorian era science to Euro American occultism to colonial and postcolonial India The Lost Land of Lemuria widens into a provocative exploration of the poetics and politics of loss to consider how this sentiment manifests itself in a fascination with vanished homelands hidden civilizations and forgotten peoples More than a consideration of nostalgia it shows how ideas once entertained but later discarded in the metropole can travel to the periphery and can be appropriated by those seeking to construct a meaningful world within the disenchantment of modernity Sumathi Ramaswamy ultimately reveals how loss itself has become a condition of modernity compelling us to rethink the politics of imagination and creativity in our day

Doubling the Duality Fabia Ling-Yuan Lin, 2014-03-17 This book is about the aesthetic philosophical and cultural aspects of the integration of live action and animation It argues that even in the digital era when the integration of live action and animation becomes progressively seamless their differences and dialogues are still a significant source of the evolution of cinematic language It also deals with the meeting between the West and East and the methodology of interweaving the roles of practitioner and theorist Through the operation of materiality and the manoeuvre of estrangement this study explores the liminal experiences embedded in the combination of heterogeneous elements in filmmaking as well as those found in a world favouring interdisciplinary cross breeding and globalisation
