New Consciousness:

The New Consciousness Jakeb Brock,2018-07-11 The new consciousness is a streamlined spiritual perspective on life whose time has come at last It is not a new religion or sect neither is it a cult or a fad It has no doctrines or creeds Rather it is a bulwark of impersonal realism and truth that authoritatively yet gently displaces all forms of ignorance and superstition in the same manner that light dispels darkness When light shines in darkness does not need to be overcome or fought against It is merely banished and forgotten In the same way that there is no battle there is no lingering condemnation or shame In so many ways human civilization has advanced beyond our highest ideals and expectations But when it comes to the pursuit and practice of spiritual truth we have remained remarkably stunted and stagnant Ignorance and superstition have proven to be tenaciously resilient Paradoxically despite their archaic origins they have been carried over right into this modern technological age The dawning of the new consciousness marks the beginning of the end for these stubborn archaic ideologies

over a hundred communications with Marshall who now in the Afterlife provided detailed information that greatly influenced the content and direction of this book The information about the Afterlife conveyed in this book comes from Patricia Hayes decades of first hand experience with helping others to cross over and with her frequent communication not only with her husband but also with her brother Fred She shares intimate details of Marshall s dying including his moment of death transition and acclimation to the Afterlife intimate details that are made possible through their deep love and dedication to their personal and working relationship Using Marshall s observations and understanding of his existence in the Afterlife Patricia draws comparisons between the physical levels of consciousness and the levels of consciousness in the Afterlife so that you will know what to expect and how to function Practical and easy to understand you discover what the transition process is like how the Earth and Afterlife are intertwined how to determine your place in the Afterlife and most important how to communicate with your loved ones who are in the Afterlife while you are still here on Earth The Definitive Book on the Afterlife transcends religious views of dying to share first hand direct experience with the process of dying and death as well as the realities of being in the Afterlife One thing is for sure you will never look at dying and death the same way again Inspirational transformative comforting reassuring it is a must read *The Sufi Message of Hazrat Inayat Khan: The Smiling Forehead* Hazrat Inayat Khan,2020-09-28 By forehead is meant man s expression The smiling forehead is the pleasant expression it depends solely upon man s attitude to life Life is the same for the saint and for Satan and if men are different it is because of their outlook on life The same life is turned by the one into heaven and by the other into hell There are two attitudes to one all is wrong to the other all is right Our life in the world from morning to evening is full of experiences good and bad which can be distinguished according to their degree And the more we study the mystery of good and bad the more we see that there really is no such thing as good and bad It is because of our attitude and the conditions that things seem good or bad It is easy for an ordinary person to say what is good or bad just or unjust it is very difficult for a wise man Although everyone according to his outlook on life turns things from bad to good and from good to bad everyone has his own grade of evolution and reasons accordingly Sometimes one thing is subtler than others and then it is difficult to judge There was a time when Wagner s music was not understood and another time when he was considered the greatest of musicians Sometimes things are good but our own evolution makes them less good for us What we considered good a few years ago may not seem good at a later degree of evolution At one time a child appreciates a doll most later it will prefer the work of great sculptors This proves that at every step and degree of evolution man s idea of good and bad changes Therefore a thinker will understand that there is no such thing as right or wrong If there is wrong all is wrong if there is right all is right
