## **New Elites In Old States Ideologies In The Anglo American Democracies:**

*New Elites in Old States* Neil Nevitte, Roger Gibbins, 1990 This book examines attitudes about equality among youth elites in Canada the United States Britain Australia and New Zealand Using data gathered from over 8 000 undergraduates from 1982 to 1987 in these five countries the author argues that the attitudinal structures of these youth elites has far reaching consequences for the political and economic agendas of advanced industrial democracies **The Once and Future**

**Canadian Democracy** Janet Ajzenstat, 2003 Annotation An inspiring case for parliamentary democracy and a sympathetic exploration of current discontents **Degrees of Freedom** Keith G. Banting, George Hoberg, 1997-02-19 The book s primary aim is to determine whether Canada and the United States have become more similar as their economies have become more integrated and their societies more diverse The authors conclude that although powerful economic and social pressures clearly constrain national governments and lead to convergence in some areas distinctive cultural and political processes preserve room for distinctive national responses to important problems of the late twentieth century Authors include Keith Banting Paul Boothe University of Alberta Marsha Chandler University of Toronto George Hoberg Robert Howse University of Toronto Christopher Manfredi McGill University George Perlin Queen s University Douglas Purvis Queen s University Richard Simeon and Elaine Willis consultant Toronto Oxford Handbook of Political Behavior Russell J. Dalton, Hans-Dieter Klingemann, 2007 Assembles the world s leading scholars on public opinion and political behaviour to describe the state of the art research on the beliefs values and behaviours of contemporary politics The Psychology of Values Clive Seligman, James M. Olson, Mark P. Zanna, 2013-05-13 The eighth Ontario Symposium brought together an international group of scholars who work in the area of the psychology of values Among the categories these experts address are the conceptualizations of values value systems and value attitude behavior relations methodological issues the role of values in specific domains such as prejudice commitment and deservingness and the transmission of values through family media and culture Each chapter in the volume illustrates both the diversity and vitality of research on the psychology of values

Hierarchies of Belonging Ailsa Henderson, 2007-11-02 Ailsa Henderson analyses each nation s linguistic racial cultural economic and political diversity within a historical and contemporary context Challenging the assumption that nationalism in Scotland can be characterized as civic in contrast to an ethnic model in Quebec Henderson adopts a more complex model of national identity that distinguishes between nationalistic rhetoric which is invariably civic in form and public understandings of belonging which tend to rely on ethnic markers In *Hierarchies of Belonging* she demonstrates that nationalist rhetoric and a sense of belonging affect how citizens feel about the state the nation and each other *Political Culture and Public Policy in Canada and the United States* John C. Pierce, 2000 This text focuses on the shared Pacific West political arena of Washington State and the province of British Columbia but has many implications for comparison drawn at the national level Using multiple methodologies the book reports the results of investigative differences in the two countries including political

cultures and public preferences in three major areas of public policy native claims immigration and forest resource management

**The North American Trajectory** Neil Nevitte, 2017-07-05 North America is steering a new course with the United States Canada and Mexico moving toward continental economic integration This book examines basic value changes that are transforming economic social and political life in these three countries demonstrating that they are gradually adopting an increasingly compatible cultural perspective A narrow nationalism dominant since the 19th century has slowly been giving way to a more cosmopolitan sense of identity As old economic boundaries become outmoded a North American perspective makes greater sense To what extent then do the three North American publics each with its own heterogeneities and tensions share a common culture That question can only be answered if we have some yardstick by which to measure their cultural similarity These societies are far from identical But data from the 1990 1991 World Values survey drawn from 43 societies around the world show that on crucial topics the core values of the American public are significantly closer to those of the Canadians and to a somewhat lesser extent to those of the Mexicans than they are to those of most other peoples in the world Furthermore time series evidence indicates that the values of the three North American publics have been converging This book draws on a unique body of directly comparable cross national and cross temporal survey evidence to show that what Americans Canadians and Mexicans want out of life is changing in analogous ways These changes coupled with sociostructural transformations are reshaping peoples feelings about national identity about trusting each other and about the balance between economic and non economic goals North American economic integration is being reinforced by the gradual emergence of increasingly similar cultural values

**The Democratic Leader** John Kane, Haig Patapan, 2012-03-29 Democratic leadership is the most familiar form of leadership and yet the least well understood by people in democratic countries This book explores the tensions and dilemmas that beset such leadership in order to explain why democracies produce simultaneously the strongest and weakest of leaders

*Multiversities, Ideas, and Democracy* George Fallis, 2011-01-01 Multiversities are sprawling conglomerates that provide liberal undergraduate graduate and professional education As well springs of innovation and ideas these universities represent the core of society's research enterprise Multiversities Ideas and Democracy forcibly argues that in the contemporary world multiversities need to be conceptualized in a new way that is not just as places of teaching and research but also as fundamental institutions of democracy Building upon the history of universities George Fallis discusses how the multiversity is a distinctive product of the later twentieth century and has become an institution of centrality and power He examines five characteristics of our age the constrained welfare state the information technology revolution postmodern thought commercialization and globalization and in each case explains how the dynamic of multiversity research alters societal circumstances leading to the alteration of the institution itself and creating challenges to its own survival The character of our age demands reappraisal of the multiversity Fallis argues in order to safeguard them from so called mission drift Writing from a multi national perspective

this study establishes how similar ideas are shaping multiversities across the Anglo American world Ultimately Multiversities Ideas and Democracy seeks to uncover the ethos of the multiversity and to hold such institutions accountable for their contribution to democratic life It will appeal to anyone interested in the role of education in society **Canadian Founding** Janet Ajzenstat,2007-05-28 Convinced that rights are inalienable and that legitimate government requires the consent of the governed the Fathers of Confederation whether liberal or conservative looked to the European enlightenment and John Locke Janet Ajzenstat analyzes the legislative debates in the colonial parliaments and the Constitution Act 1867 in a provocative reinterpretation of Canadian political history from 1864 to 1873 Ajzenstat contends that the debt to Locke is most evident in the debates on the making of Canada s Parliament though the anti confederates maintained that the existing provincial parliaments offered superior protection for individual rights the confederates insisted that the union s general legislature the Parliament of Canada would prove equal to the task and that the promise of life and liberty would bring the scattered populations of British North America together as a free nation *Ethical World of British MPs* Maureen Mancuso,1995 A much longer treatment than many would have thought possible of the ethical standards of members of the British Parliament Based on personal interviews with over 100 MPs finds four ethical types puritans who stake out moral territory servants who advocate for their constituency muddlers who do not care and entrepreneurs who use their position for any personal gain not explicitly prohibited Muses over whether the situation should or could be changed Canadian call number C94 900910 5 Annotation copyright by Book News Inc Portland OR Developments in Australian Politics Judith Brett,James A. how parties have adjusted adapted and reinvented themselves in response to significant social and economic changes as well as how parties have in turn shaped or reinforced these social forces The book begins by tracing the rise of four different types of parties in the nineteenth century by the end of the century the Conservative and Liberal parties that continue to this day were firmly established The book also explores nationalism minority governments third parties and the reconfiguration of party positions Wiseman concludes by examining changes in the way Canada's ever evolving parties have operated and the rise of the modern party as a nimble enterprising institution compared to its historical antecedent Substantial yet accessible *Partisan Odysseys* will enlighten students scholars and general readers alike In Search of Canadian Political Culture

Nelson Wiseman, 2011-11-01 What do we really mean by phrases such as western Canadian political culture the centrist political culture of Ontario Red Toryism in the Maritimes or Prairie socialism What historical geographical and sociological factors came into play as these cultures were forged In this book Nelson Wiseman addresses many such questions offering new ways of conceiving Canadian political culture The most thorough review of the national political ethos written in a generation *In Search of Canadian Political Culture* offers a bottom up regional analysis that challenges how we think and write about Canada *Reframing the Early Childhood Curriculum* Jane M. Page, 2000 Argues that pre school children have a

less apprehensive view of the future than adolescents and that an effective programme in the early years can counteract the difficulties youths experience Nationalism and Literature Sarah M. Corse, 1997 Sarah Corse's analysis of nearly two hundred American and Canadian novels offers a theory of national literatures Demonstrating that national canon formation occurs in tandem with nation building and that canonical novels play a symbolic role in this this 1996 book accounts for cross national literary differences addresses issues of mediation and representation in theories of reflection and illuminates the historically constructed nature of the relationship between literature and the nation state **Women as Foreign Policy**

**Leaders** Sylvia Bashevkin, 2018-08-02 What difference does gender make to foreign diplomacy What do we know about women's participation as decision makers in international affairs Is it fair to assume as many observers do that female elites will mirror the relatively pacifist preferences of women in the general public as well as the claims of progressive feminist movements And of particular importance to this book what consequences follow from the appointment of firsts to these posts Inspired by recent work in the field of feminist diplomatic history this book offers the first comparative examination of women's presence in senior national security positions in the United States executive branch Sylvia Bashevkin looks at four high profile appointees in the United States since 1980 Jeane Kirkpatrick during the Reagan years Madeleine Albright in the Clinton era Condoleezza Rice during the George W Bush presidency and Hillary Rodham Clinton in the first Obama mandate Bashevkin explores the extent to which each of these women was able to fully participate in a domain long dominated by men focusing in particular on the extent to which each shaped foreign policy in meaningful ways She looks particularly at two specific phenomena first the influence of female decision makers notably their ability to make measurable difference to the

understanding and practice of national security policy and second leaders actions with respect to matters of war and women's rights The track records of these four women reveal not just a consistent willingness to pursue muscular aggressive approaches to international relations but also widely divergent views about feminism Women as Foreign Policy Leaders shows how Kirkpatrick Albright Rice and Clinton staked out their presence on the international scene and provided a crucial antidote to the silencing of women's voices in global politics      **Towards Consensus?** Peter Aimer, 2013-11-01 Based on a nationwide survey of voters this is a study of the historic 1993 New Zealand general election and referendum It seeks to explain why New Zealanders made the choices they did an extremely narrow majority for the National Party and a decision to shift to MMP representation
