whether a physical place community or relationship are reconstructed through memory to provide a positive self and serve as a healing space for Morrison s characters Remembering and retelling trauma within a supportive community enables trauma victims to move forward and attain a meaningful subjectivity and selfhood Through careful analysis of each novel Schreiber traces the success or failure of Morrison s characters to build or rebuild a cohesive self starting with slavery and the initial postslavery generation and continuing through the twentieth century with a special focus on the effects of inherited trauma on children When characters attempt to escape trauma through physical relocation or to project their pain onto others through aggressive behavior or scapegoating the development of selfhood falters Only when trauma is confronted through verbalization and challenged with reparative images of home can memories of a positive self overcome the pain of past experiences and cultural rejection While the cultural trauma of slavery can never truly disappear Schreiber argues that memories that reconstruct a positive self whether created by people relationships a physical place or a concept help Morrison s characters to establish subjectivity A groundbreaking interdisciplinary work Schreiber s book unites psychoanalytic neurobiological and social theories into a full and richly textured analysis of trauma and the possibility of healing in Morrison s novels *Quiet As It's Kept* J. Women's Film and Literature Judylyn S. Ryan,2005 Given the ways in which spirituality functions in the work of such Black women writers and filmmakers as Toni Morrison Ntozake Shange Maya Angelou Julie Dash and Euzhan Palcy Judylyn Ryan proposes in this challenging new study that what these women embrace in their narrative construction and characterization is the role and responsibility of the priestess bearing and distributing life force to sustain the community of people who read and view their work Central to these women s vision of transformation is what Ryan calls a paradigm of growth and an ethos of interconnectedness which provide interpretive models for examining and teaching a broad range of artistic cultural and social texts The focus on theology provides a new way of viewing the connections among New World African diaspora religious traditions challenging the widespread and reductive assumption that Afro Christianity shares no philosophical commonalities with Santeria Candomble Voodoo and other traditions that are not christological In addition to exploring spirituality as epistemology the book also provides an inter textual reading of Black women s literary and film texts that examines the ways in which these works expose mediate and interpret the cultural social and historical conditions surrounding their production While most discussions of Black women s engagement with and contribution to the discursive space of the culture assume an oppositional or reactive stance Ryan argues that the disposition reflected in the texts she examines tends to be relational and proactive conferring an autonomy that the gravitational pull between opposites lacks This inter textual reading constitutes a multimedia auteur criticism of a collective artistic vision Speaking Power DoVeanna S. narratives of slavery **Love and Narrative Form in Toni Morrison's Later Novels** Jean Wyatt, 2017-03-01 In *Love and Narrative Form in Toni Morrison's Later Novels* Jean Wyatt explores the interaction among ideas of love narrative innovation and reader response in Toni Morrison's seven later novels. Love comes in a new and surprising shape in each of the later novels; for example, *Love* presents it as the deep friendship between little girls in *Home*; it acts as a disruptive force producing deep changes in subjectivity and in *Jazz* it becomes something one innovates and recreates each moment like jazz itself. Each novel's unconventional idea of love requires a new experimental narrative form. Wyatt analyzes the stylistic and structural innovations of each novel, showing how disturbances in narrative chronology, surprise endings, and gaps mirror the dislocated temporality and distorted emotional responses of the novel's troubled characters and demand that the reader situate the present-day problems of the characters in relation to a traumatic African American past. The narrative surprises and gaps require the reader to become an active participant in making meaning. And the texts' complex narrative strategies draw out the reader's convictions about love, about gender, about race, and then prompt the reader to reexamine them so that reading becomes an active ethical dialogue between text and reader. Wyatt uses psychoanalytic concepts to analyze Morrison's narrative structures and how they work on readers. *Love and Narrative Form* devotes a chapter to each of Morrison's later novels: *Beloved*, *Jazz*, *Paradise*, *Love*, *A Mercy*, *Home*, and *God Help the Child*.

The Cultural Memory of Africa in African American and Black British Fiction, 1970-2000 Leila Kamali, 2016-12-10 This book offers a new approach to reading the cultural memory of Africa in African American fiction from the post-Civil Rights era and in Black British fiction emerging in the wake of Thatcherism. The critical period between the decline of the Civil Rights Movement and the dawn of the twenty-first century saw a deep contrast in the distinctive narrative approaches displayed by diverse African diaspora literatures in negotiating the crisis of representing the past. Through a series of close readings of literary fiction, this work examines how the cultural memory of Africa is employed in diverse and specific negotiations of narrative time in order to engage and shape contemporary identity and citizenship. By addressing the practice of remembering Africa, the book argues for the signal importance of the African diaspora's literary interventions and locates new paradigms for cultural identity in contemporary times.

Postmodern Belief Amy Hungerford, 2010-07-01 How can intense religious beliefs coexist with pluralism in America today? Examining the role of the religious imagination in contemporary religious practice and in some of the best-known works of American literature from the past fifty years, *Postmodern Belief* shows how belief for its own sake—a belief absent of doctrine—has become an answer to pluralism in a secular age. Amy Hungerford reveals how imaginative literature and religious practices together allow novelists, poets, and critics to express the formal elements of language in transcendent terms, conferring upon words a religious value independent of meaning. Hungerford explores the work of major American writers, including Allen Ginsberg, Don DeLillo, Cormac McCarthy, Toni Morrison, and Marilynne Robinson, and links their unique visions to the religious worlds they touch. She illustrates how Ginsberg's chant-infused 1960s poetry echoes the

tongue speaking of Charismatic Christians how DeLillo reimagines the novel and the Latin Mass why McCarthy's prose imitates the Bible and why Morrison's fiction needs the supernatural Uncovering how literature and religion conceive of a world where religious belief can escape confrontations with other worldviews Hungerford corrects recent efforts to discard the importance of belief in understanding religious life and argues that belief in belief itself can transform secular reading and writing into a religious act Honoring the ways in which people talk about and practice religion Postmodern Belief highlights the claims of the religious imagination in twentieth century American culture
