New Forms Of Work Organization In Europe:

New Forms of Work Organization in Europe Peter Grootings, Bjørn Gustavsen, Lajos Hächthy, A remarkable development in the sociology of work in recent years has been the explosion of brilliant cross national and cross cultural studies in Europe examining the conditions of labor against the background of different economic systems and differences within each of the major free market mixed welfare and planned economic systems that dot the European landscape In Vienna and Budapest in particular a group of intellectual workers have gotten together for what can only be described as breakthrough studies in the conditions and purposes of work in post industrial society The question of new forms of work organization focuses on job satisfaction participatory democracy in the work place levels of productivity and issues of health and safety in the occupational environment That these elements are important have long been known But what this collection of studies emphasizes is the specific mix that produced specific outcomes It does not shy away from dangerous and tough questions worker control and control of workers political participation in contexts of authoritarian regimes and personal rewards in contexts that once frowned upon private acquisition of capital The volume is rich in empirical studies and draws the theoretical implications that can and already have had vast policy consequences for workers in the modern context Issues relating to job rotation enrichment enlargement and autonomy and others related to new forms of organization starting with the shop floor and extending throughout the management of the enterprise as a whole are dealt with candidly The social character of labor long frowned upon as a mechanism for evading bread and butter issues is now recognized East and West as a dimension of concern that is growing precisely as the size and character of the labor sector is diminishing This is must reading for those interested in new forms of social and policy synthesis and ways of meliorating competing claims of different sectors in modern societies *Work Organization and Europe as a Development Coalition* John Richard Ennals, Björn Gustavsen, 1999-01-01 This text proposes a development project within the field of work organisation with participation from across Europe It includes chapters on the nature and history of the idea of development coalition largely rooted in the Scandinavian experience and case studies from other European countries **Unions and Workplace Reorganization** Bruce Nissen, 1997 The very fate of unions in this country may depend on their ability to deal effectively with the challenge of workplace restructuring UNIONS AND WORKPLACE REORGANIZATION addresses many of the most important issues currently facing the U S labor movement Europe's Utopias of Peace Bo Stråth, 2016-01-28 Europe s Utopias of Peace explores attempts to create a lasting European peace in the aftermath of the Napoleonic wars and the two world wars The book charts the 250 year cycle of violent European conflicts followed by new utopian formulations for peace The utopian illusion was that future was predictable and rules could prescribe behaviour in conflicts to come Bo Stråth examines the reiterative bicentenary cycle since 1815 where each new postwar period built on a design for a project for European unification He sets out the key historical events and the continuous struggle with nationalism linking them to legal political

and economic thought Biographical sketches of the most prominent thinkers and actors provide the human element to this narrative Europe's Utopias of Peace presents a new perspective on the ideological legal economic and intellectual conditions that shaped Europe since the 19th century and presents this in a global context It challenges the conventional narrative on Europe's past as a progressive enlightenment heritage highlighting the ambiguities of the legacies that pervade the institutional structures of contemporary Europe Its long term historical perspective will be invaluable for students of contemporary Europe or modern European history

Shared Capitalism at Work Douglas L. Kruse,Richard B. Freeman,Joseph R. Blasi,2010-06-15 The historical relationship between capital and labor has evolved in the past few decades One particularly noteworthy development is the rise of shared capitalism a system in which workers have become partial owners of their firms and thus in effect both employees and stockholders Profit sharing arrangements and gain sharing bonuses which tie compensation directly to a firm's performance also reflect this new attitude toward labor Shared Capitalism at Work analyzes the effects of this trend on workers and firms The contributors focus on four main areas the

fraction of firms that participate in shared capitalism programs in the United States and abroad the factors that enable these firms to overcome classic free rider and risk problems the effect of shared capitalism on firm performance and the impact of shared capitalism on worker well being This volume provides essential studies for understanding the increasingly important role of shared capitalism in the modern workplace

Work and Organizational Psychology José María Peiró, 1995 This text presents a selection of contributions to the Sixth European Congress of Work and Organizational Psychology held in Alicante Spain in April 1993 some of which have been previously published in the European Work and Organizational Psychologist The contributions selected to appear in this volume focus on some of the principal questions scholars and professionals concerned with work and organizational psychology are tackling in Europe The range of topics theoretical approaches methodologies and orientations discussed illustrate the richness and variety of ideas currently studied in the discipline The topics addressed in this text have a clear significance for the current European scene of work and organizational psychology Although they are not the only ones the areas discussed present important trends and interests within the discipline The main sections include contributions which deal with psychological characteristics and processes of individuals at work work experiences and their relationship with psychological well being the study of work entry and work socialization the study of teamwork in organizations the study of leadership in organizations new forms of work and organization and the phenomenon of work in a social context This book is intended to be of relevance and interest to both academics and practitioners in the field of work and organizational psychology

Nordic Cooperation Johan Strang, 2015-07-16 The recent crises in global economy and in European integration have caused a considerable revival of interest in the Nordic Welfare Model However less attention has been given to the ways in which the nations that form Scandinavia or Norden are connected through various forms of inter and transnational cooperation With contributions from a team of experts in the field this volume analyses Nordic cooperation in a European perspective and argues that this special form of transnational cooperation has been crucial in the development of the Nordic Welfare Model In addition it also contends that the Nordic model of transnational cooperation is a relevant case study when pondering the present problems of European integration This text will be of key interest to students researchers and policy makers studying the Nordic Model and transnational cooperation and more generally to those interested in European studies Scandinavian studies welfare studies international relations and regional integration

Technology and the Future of European Employment Pascal Petit, Luc Soete, 2001-09-26 What is the potential of the new information and communication technologies This book assesses the relationship between technological change and employment in all its dimensions focusing on contemporary economies in Europe The authors discuss patterns

Europe, Globalization and the Lisbon Agenda Maria João Rodrigues, 2009-01-01 The Lisbon Agenda aims to prepare Europe for globalization by updating European policies for research innovation competition trade employment education social protection environment and energy at both the European and national levels Designed to

inspire the new cycle of the Lisbon Agenda until 2010 and beyond this timely and significant volume explores the intellectual elaboration of the agenda for the coming years With contributions from some of Europe s leading scholars this book explores new developments in the European agenda for globalization addressing four critical areas European policies their adaptation to national diversity in Europe their implications for the external action of the European Union and finally their implications for EU governance This book presents the outcome of an organized dialogue between the political and research communities Europe Globalization and the Lisbon Agenda will undoubtedly prove an outstanding addition to the current literature and will be an invaluable resource for European policy makers governments and academics from a wide range of disciplines who are concerned about the future competitiveness of Europe

Action Research in Workplace Innovation and Regional Development

Werner Fricke,Peter Totterdill,2004-04-29 The past is an increasingly unreliable guide to the future European workplaces and the regions in which they are located face unprecedented pressures and challenges Whereas in recent decades incremental adaptation has largely been sufficient to cope with external change it is no longer clear that this remains the case Globalisation technological development and dissemination political volatility patterns of consumption and employee expectations are occurring at a rate which is hard to measure The rate of change in these spheres is far outstripping the rate of organisational innovation in both European enterprises and public governance leading to a serious mismatch between the challenges of the 21st Century and the organisational competence available to deal with them In this context there is no clear roadmap The contributors to this volume address these issues and demonstrate that building the knowledge base required by actors in this volatile environment requires continuous dialogue and learning a context in which social partners regional policy makers and other participants share diverse knowledge and reflect on experience rather than seeking and imitating any notion of best practice Action Research has a crucial role to play embedding shared learning within the process of innovation

Partnership at Work Bill Roche,John Geary,2006-09-27 During the mid 1990s a partnership was established between the Irish Ports Authority and its trade unions This volume traces the progress achievements and obstacles faced by the partnership based upon full access to the partners workforce and documentation and records of the initiative

Labor, Employment, and Social Policies in the EU Enlargement Process

Lodovico Pizzati,Bernard Funck,2002 The process of transition to a market economy and integration into the EU has strained the labour markets of central and eastern European countries and these developments pose a number of challenges to their social policies This volume presents the contributions given at an international labour conference held in Austria in June

2001 to investigate these issues It provides the latest labour trends in EU accession countries and compares them to previous experiences of European integration It reviews existing labour market policies and social protection mechanisms and discusses alternative strategies for employment creation in the region **Quality of Life and Work in Europe** M.

Bäck-Wiklund,T. van der Lippe,L. den Dulk,A. Doorne-Huiskes,2011-03-15 Intense globalization rapidly changing workplaces and family patterns have renewed the international interest in quality of life This book examines different institutional arrangements work place conditions and gendered work and care that affect the conditions for achieving quality of work and life in European countries **ECMLG2015-11th European Conference on Management Leadership and Governance**

José Carlos Dias Rouco,2015-10-26 These Proceedings represent the work of contributors to the 11th European Conference on Management Leadership and Governance held this year at the Military Academy Lisbon Portugal on the 12 13 November 2015 The Conference Chair is Major General Joao Vieira Borges from and the Programme Chair is Lieutenant Colonel Jose Carlos Dias Rouco both from the Military Academy Lisbon Portugal Keynote presentations are given by Colonel Nuno Lemos Pires from the Military Academy and Lt Col Paulo Fernando Viegas Nunes from the National Defence Institute Lisbon Portugal The Conference offers an opportunity for scholars and practitioners interested in the issues related to Management Leadership and Governance to share their thinking and research findings These fields of study are broadly described as including issues related to the management of the organisations resources the interface between senior management and the formal governance of the organisation This Conference provides a forum for discussion collaboration and intellectual exchange for all those interested in any of these fields of research or practice With an initial submission of 163 abstracts after the double blind peer review process there are 64 Academic research Papers 8 PhD Research Papers and 2 Masters research paper in these Conference Proceedings These papers reflect the truly global nature of research in the area with contributions from Belgium Canada China Colombia Czech Republic Denmark Finland Germany Italy Japan Kazakhstan Lithuania Netherlands New Zealand Poland Portugal Republic of Korea Romania Russia Scotland South Africa Syria The Netherlands Turkey UAE UK United Arab Emirates USA *Work-Life Balance in Europe* S. Drobnic,A. Guillén,2011-06-13

Examining the debate on quality of jobs in Europe this book focuses on the work life balance a central element of the EU agenda It addresses tensions between work and private life examining job quality job security working conditions and time use patterns of individuals and households as well as institutional contexts Strategy, Organization and the Changing

Nature of Work Jordi Gual i Sole,Joan E. Ricart i Costa,2001-01-01 The book offers a full and wide ranging analysis of the nature and extent of the organisational changes and of the role played by employability in the new production contexts Its strengths lie basically in its multidisciplinary approach which enables the phenomenon of organisational change to be observed from different angles and in its commitment to a balance between the pursuit of theory and its empirical underpinnings In summary this is a well grounded and argued work both theoretically and empirically and will be of interest

to anyone wishing to understand the complex nature of organisational change and especially to those who even though organisational change may not be their central object of study or concern nonetheless seek to understand the rich and complex debate concerning processes of organisational transformation as a necessary starting point for the analysis of the broader process of transformation of a model of society Amparo Serrano Pascual Transfer I do not mean to propose any prescriptions for the problem of employment in our time I leave that to the many fine specialists in the field who have contributed to this book I find this an excellent and thought provoking volume that I hope will shed light on a theme of vital significance for people everywhere For it is in work that people find happiness and fulfilment and meaning From the preface by Carlos Cavall University of Navarra Barcelona Spain New technologies global markets and increased competitive pressures mean that companies are having to reinvent themselves reappraise their competitive strategies and rethink the ways in which they organize business activities This timely book illustrates how changes in strategy can translate into organizational changes within the firm itself and can influence the relationship between the firm and their employees and collaborators The authors provide a broad theoretical and empirical assessment of these complex changes their effect on the nature of employment and the consequences for both employers and employees They develop a framework that encompasses the interaction between the strategic reactions of businesses to a changing environment and the restrictions imposed by social institutions A key theme of the book is that we are now living in an age of transition where concepts such as job security which have played a crucial role in society are no longer valid Indeed the importance of the research presented in the book is underlined by the social and political implications such changes will undoubtedly bring Significantly the authors view the subject matter from an interdisciplinary perspective applying tools from the fields of organizational behavior sociology and psychology

Precarious Work Arne L. Kalleberg, Steven P. Vallas, 2017-12-08 This volume presents original theory and research on precarious work in various parts of the world identifying its social political and economic origins its manifestations in the USA Europe Asia and the Global South and its consequences for personal and family life
